moorpark schedule of classes: Swift at Moor Park A. C. Elias, Jr., 2017-11-15 Sometime toward the middle of 1689, a twentyone-year-old Irishman named Jonathan Swift entered the employ of Sir William Temple, an essayist and retired diplomat. Swift spent most of the next decade working as secretary at Moor Park, Temple's country house in Surrey. When he left in 1699, he was already a satirist of exceptional power. Drawing upon considerable new documentary evidence, Swift at Moor Park represents the most exhaustive study yet published about this formative period in Swift's literary career and challenges traditional assumptions and conclusions concerning those years. A. C. Elias begins with the work Swift actually did as Temple's secretary-amanuensis, the one area of Swift's Moor Park experience for which a good portion of documentary evidence survives. He collates and thoroughly evaluates the more traditional biographical evidence that has been cited over the years and applies his findings to careful analyses of Swift's earliest poems and prose works.

Included among these are portions of the celebrated Tale of a Tub, as they seem to work in a Moor Park context for Moor Park readers. The results are as unexpected as they are likely to prove controversial, with clear implications about the nature and workings of Swift's satiric method throughout his career. The Swift who emerges is equally unexpected—betraying hints of a fondness for mischief, a basic sense of pragmatism, and a disconcertingly original intelligence—yet for all that remains a remarkably elusive figure and perhaps, as Elias suggests, an unknowable one in the end. If Swift at Moor Park investigates Swift's personality and the genesis of his satiric art, it is equally concerned with methodology—with the testing and evaluating of evidence, with its ability to support valid generalization, with the relationship between biographical knowledge and literary criticism, and with the peculiar temptations and pitfalls that Swift, perhaps more than any other figure of his time, provides for those who set out to explain him. A close analysis of a crucial decade in Swift's life, this volume is essential for the scholar of this central figure in English literature.

"The bizarre story of Elliot Rodger . . . prepare to have your mind blown."—Patrick Quinlan,bestsellingauthor of Smoked This is the story of Elliot Rodger, and how he turned from a nice, quiet polite young man to the first self-identified incel (involuntarily celibate) killer . . . Elliot Rodger considered himself to be intelligent, refined, handsome, fashionable and charming. He spent years trying to be cool so women would like him. He thought if he just wore expensive and fashionable clothing, had a better car, or if he were rich, then women would throw themselves at him. In fact, he thought himself to be "The Supreme Gentleman." Yet, women paid no attention to him. His only conclusion was that they were genetically flawed, and because of this they ignored him and threw themselves at men who were ignorant, savage brutes. In his mind, his lack of success with women had ruined his life. He began to psychologically deteriorate. Rodger decided to get revenge. He spent months planning his "Day of Retribution," an

act where he would kill as many attractive women, and the type of men that they were drawn to, as he could in a savage attack. Then he acted on his plan, killing 6 people and wounding numerous others in what became known as the Isla Vista Massacre. The story does not end with Rodger however, as numerous other incels have since committed copycat attacks.

moorpark schedule of classes: The Making of Chicana/o Studies Rodolfo Acuña, 2011 The Making of Chicana/o Studies traces the philosophy and historical development of the field of Chicana/o studies from precursor movements to the Civil Rights era to today, focusing its lens on the political machinations in higher education that sought to destroy the discipline. As a renowned leader, activist, scholar, and founding member of the movement to establish this curriculum in the California State University system, which serves as a model for the rest of the country, Rodolfo F. Acuña has, for more than forty years, battled the trend in academia to deprive this group of its academic presence. The book assesses the development of Chicana/o studies (an area of studies that has even more value today than at its inception)--myths about its epistemological foundations have remained uncontested. Acuña sets the record straight, challenging those in the academy who would fold the discipline into Latino studies, shadow it under the dubious umbrella of ethnic studies, or eliminate it altogether. Building the largest Chicana/o studies program in the nation was no easy feat, especially in an atmosphere of academic contention. In this remarkable account, Acuña reveals how California State University, Northridge, was instrumental in developing an area of study that offers more than 166 sections per semester, taught by 26 tenured and 45 part-time instructors. He provides vignettes of successful programs across the country and offers contemporary educators and students a game plan--the mechanics for creating a successful Chicana/o studies discipline--and a comprehensive index of current Chicana/o studies programs nationwide. Latinas/os, of which Mexican Americans are nearly seventy percent, comprise a complex sector of society projected to be just shy of thirty percent of the nation's population by 2050. The Making of Chicana/o Studies identifies what went wrong in the history of Chicana/o studies and offers tangible solutions for the future.

Her carriage bumped across the wide cobbled streets of Edinburgh's Georgian New Town and drew up at 8 Royal Circus, a grand sandstone house lit by gas lamps. This was the home of the rich widow Lady Drysdale, a vivacious hostess whose soirees were the centre of an energetic intellectual scene. Lady Drysdale's guests were gathered in the high, airy drawing rooms on the first floor, the ladies in dresses of glinting silk and satin, bodices pulled tight over boned corsets; the gentlemen in tailcoats, waistcoats, neckties and pleated shirt fronts, dark narrow trousers and shining shoes. When Mrs Robinson joined the throng she was introduced to Lady Drysdale's daughter and son-in-law, Mary and Edward Lane. She was at once enchanted by the handsome Mr Lane, a medical student ten years her junior.
