playbill template free: The Oxford Handbook of the African American Slave Narrative John Ernest, 2014 Given the rise of new interdisciplinary and methodological approaches to African American and Black Atlantic studies, The Oxford Handbook of the African American Slave Narrative will offer a fresh, wide-ranging assessment of this major American literary genre. The volume will begin with articles that consider the fundamental concerns of gender, sexuality, community, and the Christian ethos of suffering and redemption that are central to any understanding of slave narratives. The chapters that follow will interrogate the various agendas behind the production of

both pre- and post-Emancipation narratives and take up the various interpretive problems they pose. Strategic omissions and veiled gestures were often necessary in these life accounts as they revealed disturbing, too-painful truths, far beyond what white audiences were prepared to hear. While touching upon the familiar canonical autobiographies of Frederick Douglass and Harriet Jacobs, the Handbook will pay more attention to the under-studied narratives of Josiah Henson, Sojourner Truth, William Grimes, Henry Box Brown, and other often-overlooked accounts. In addition to the literary autobiographies of bondage, the volume will anatomize the powerful WPA recordings of interviews with former slaves during the late 1930s. With essays on the genre's imaginative afterlife, its final essays will chart the emergence and development of neoslave narratives, most notably in Styron's *The Confessions of Nat Turner*, Toni Morrisons's *Beloved* and Octavia Butler's provocative science fiction novel, *Kindred*. In short, the Handbook will provide a long-overdue assessment of the state of the genre and the vital scholarship that continues to grow around it, work that is offering some of the most provocative analysis emerging out of the literary studies discipline as a whole.

playbill template free: *The Evolution of Washington, DC* James M. Goode, 2015-03-17 The Evolution of Washington, DC is a striking volume featuring select pieces of the extraordinary collection of Washingtoniana donated by Albert H. Small to the George Washington University in 2011. It showcases treasures such as an 1860 lithograph of the equestrian statue of Andrew Jackson in front of the White House and a contemporary print of old Potomac River steamboats. Other unique pieces include early designs for the White House, the Capitol, and the Washington Monument as well as presidential portraits and Civil War memorabilia. Each object--from architectural plans and topographical maps to letters and advertisements--tells a fascinating story, and together they illustrate the history of our nation's capital and indeed our nation itself.

playbill template free: *Kara Walker* Vanina Gere, 2022-11-22 Selected texts that survey the full range of Kara Walker's artistic practice, emphasizing the work itself rather than the debates and controversies around it. Kara Walker's work and its borrowings from an iconography linked to the fantasized and travestied history of American chattel slavery has been theorized and critiqued in countless texts throughout her career. Exegeses of her work have been shaped by the numerous debates on the very debates it generated. How, then, do we approach a work that has been covered by such "thick theoretical layers"? This collection is unique in emphasizing Walker's work itself rather than the controversies surrounding it. These essays and interviews survey Walker's artistic practice from her early works in the 1990s through her most recent ones, from her famous silhouette projects to her lesser-known drawings and lantern shows. The texts, by art historians, curators, critics, scholars, and writers engage scrupulously with Walker's pieces as material works of art, putting them in the context of the sociopolitical and cultural environments that shape—but never determine—them. They include an interview of the artist by Thelma Golden of the Studio Museum in Harlem; an essay in the form of a lexicon, cataloguing key elements in Walker's art, by curator Yasmil Raymond; and an essay by volume editor Vanina G  r   on Walker's use of historical archives. Finally, novelist Zadie Smith considers Walker's public art as counter-propositions to colonial monuments and as a reflection on colonial history. Contributors Lorraine Morales Cox, Vanina G  r  , Thelma Golden, Tavia Nyong'o, Yasmil Raymond, Jerry Saltz, Zadie Smith, Anne M. Wagner, Hamza Walker

playbill template free: *Romantic Periodicals and Print Culture* Kim Wheatley, 2004-11-23 Building on a revival of scholarly interest in the cultural effects of early 19th-century periodicals, the essays in this collection treat periodical writing as intrinsically worthy of attention not a mere backdrop to the emergence of British Romanticism but a site in which Romantic ideals were challenged, modified, and developed. Contributors to the volume discuss a range of different periodicals, from the elite *Quarterly* and *Edinburgh Reviews*, through William Cobbett's populist weekly newspaper *Two-Penny Trash*, to the miscellaneous monthly magazines typified by *Blackwood's*. While some contributors to the volume approach the phenomenon of Romanticism

within periodical culture from a more materialist standpoint than others, several elaborate upon recent intersections between Romantic studies and gender studies.
