sheet music hit the road jack: Reinventing Dixie John Bush Jones, 2015-03-16 Tin Pan Alley, once New York City's songwriting and recording mecca, issued more than a thousand songs about the American South in the first half of the twentieth century. In *Reinventing Dixie*, John Bush Jones explores the broad impact of these songs in creating and disseminating the imaginary view of the South as a land of southern belles, gallant gentlemen, and racial harmony. In profiles of Tin Pan Alley's lyricists and composers, Jones explains how a group of undereducated and untraveled writers—the vast majority of whom were urban northerners or European immigrants—constructed the specific and detailed images of the South used in their song lyrics. In the process of evaluating the origins of Tin Pan Alley's songbook, Jones analyzes these songwriters' attitudes about North-South reconciliation, ideals of honor and hospitality, and the recurring theme of the yearning for home. Though a few of the songs employed parody or satire to undercut the vision of a peaceful, romantic South, the majority ignored the realities of racism and poverty in the region. By the end of Tin Pan Alley's era of cultural prominence in the mid-twentieth century, Jones contends that the work of its writers had cemented the "moonlight and magnolias" myth in the minds of millions of Americans. *Reinventing Dixie* sheds light on the role of songwriters in forming an idyllic vision of the South that continues to influence the American imagination.

Why was music so important to soldiers

abroad during World War I? What role did music—ranging from classical to theater music, rags, and early jazz—play on the American homefront? Music of the First World War explores the tremendous importance of music during the years of the Great War—when communication technologies were extremely limited and music often took the place of connecting directly with loved ones or reminiscing via recorded images. The book's chapters cover music's contribution to the war effort; the variety of war-related songs, popular hits, and top recording artists of the war years; the music of Broadway shows and other theater productions; and important composers and lyricists. sheet music hit the road jack: *Burma, Kipling and Western Music* Andrew Selth, 2016-11-03

For decades, scholars have been trying to answer the question: how was colonial Burma perceived in and by the Western world, and how did people in countries like the United Kingdom and United States form their views? This book explores how Western perceptions of Burma were influenced by the popular music of the day. From the First Anglo-Burmese War of 1824-6 until Burma regained its independence in 1948, more than 180 musical works with Burma-related themes were written in English-speaking countries, in addition to the many hymns composed in and about Burma by Christian missionaries. Servicemen posted to Burma added to the lexicon with marches and ditties, and after 1913 most movies about Burma had their own distinctive scores. Taking Rudyard Kipling's 1890 ballad 'Mandalay' as a critical turning point, this book surveys all these works with emphasis on popular songs and show tunes, also looking at classical works, ballet scores, hymns, soldiers' songs, sea shanties, and film soundtracks. It examines how they influenced Western perceptions of Burma, and in turn reflected those views back to Western audiences. The book sheds new light not only on the West's historical relationship with Burma, and the colonial music scene, but also Burma's place in the development of popular music and the rise of the global music industry. In doing so, it makes an original contribution to the fields of musicology and Asian Studies.
