velemma: South Asian Pornographies Darshana Sreedhar Mini, Anirban K. Baishya, 2024-06-21 South Asian Pornographies is the first consolidated volume that explores the relationships between pornography, obscenity, law and desire in South Asia. Focusing on case studies from India, Sri Lanka and Bangladesh while gesturing towards other countries in South Asia, the authors of this volume come from fields as varied as history, literature, media and communication, and the visual arts. The book proposes that as a geo-political location, South Asia

has a unique relationship to pornography, given the multiplicity of cultural and legal-censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms, finding reflection in various modes of popular (and sometimes underground) culture, bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural (identities rather than identity), this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies, Cultural Studies, Film Studies, History, Sociology, and Social and Cultural Anthropology. The chapters in this book were originally published in the journal *Porn Studies*.

velemma: Enabling Consumer and Entrepreneurial Literacy in Subsistence

Marketplaces Madhubalan Viswanathan, S. Gajendiran, R. Venkatesan, 2008-06-01 This book is the result of several years of research, curriculum development, and testing of a consumer and entrepreneurial literacy educational program for l- literate, low-income adults in India. Whereas there has been considerable attention on micro financing in recent decades, we describe an educational program that focuses on enabling generic skills about the marketplace and complements these important efforts. We conducted research aimed at understanding lives and marketplaces in subsistence contexts in urban and rural parts of a state in South India. We used the research as a basis for developing a consumer and entrepreneurial literacy educational program. This program uses the “know-why” or an understanding of marketplaces as a basis for the know-how of being an informed buyer or seller. Despite the difficulties with abstract thinking that low-literate individuals experience, we enable deeper understanding of marketplaces by leveraging the social skills that participants bring to the program and relating educational content back to their lived experiences. Such understanding can enable individuals to embark on a path to lifelong learning. A detailed explanation of the evolution of this work follows.

The chapters offer examples, while at the same time highlighting important directions for further research. The book is divided into four parts: The first section provides an overview on the concept of “numeracy”, and the second focuses on adult students who are learning mathematics; the third part presents a teachers’ focus and the final part covers overarching themes. The book is of interest to classroom teachers, university teacher educators, and professional development providers.

velemma: Kalki Gowri Ramnarayan, 2000-10-14 ‘Kalki’ R. Krishnamurthy, one of the pioneering giants of the Tamil press in the tumultuous times of the nationalist movement, was a versatile and prolific writer, inscribing the urgencies of his time in his fiction. This collection brings together the best of Kalki’s short stories, which contain some of his most colourful and enduring characters and themes of Tamil popular fiction of the nineteen thirties and forties. There is in these stories the heady urgency of the freedom struggle, the piquant humour of the parodied Tamil gothic and devastating social satire. In her sensitive translations, Gowri Ramnarayan has succeeded in capturing the nuances of the gently mordant wit that made Kalki’s stories the highlight of the magazines they were originally published in, creating for themselves a dedicated following that flourishes undiminished to this day. Coinciding with the centenary of Kalki’s birth, this volume is a well-deserved tribute to a writer whose breadth of vision and genius imagined and served a new India.

velemma: Rated A Darshana Sreedhar Mini, 2024-08-06 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. In the 1990s, India's mediascape saw the efflorescence of edgy soft-porn films in the Malayalam-speaking state of Kerala. In *Rated A*, Darshana Sreedhar Mini examines the local and transnational influences that shaped Malayalam soft-porn cinema—such as vernacular pulp fiction, illustrated erotic tales, and American exploitation cinema—and maps the genre's circulation among blue-collar workers of the Indian diaspora in the Middle East, where pirated versions circulate alongside low-budget Bangladeshi films and Pakistani mujra dance films as South Asian pornography. Through a mix of archival and ethnographic research, Mini also explores the soft-porn industry's utilization of gendered labor and trust-based arrangements, as well as how actresses and production personnel who are marked by their involvement with a taboo form negotiate their social lives. By locating the tense negotiations between sexuality, import policy, and censorship in contemporary India, this study offers a model for understanding film genres outside of screen space, emphasizing that they constitute not just industrial formations but entire fields of social relations and gendered imaginaries.
