emotion thermometer pdf: A Charitable Orthopathy John W. Morehead, Brandon C. Benziger, 2020-04-07 Evangelicals and other conservative Christians of the twenty-first century face enormous challenges in the pluralistic public square, not least with Muslims and atheists. Contrary to biblical injunctions to keep in step with the Spirit (Gal 5:25b) and to love our neighbors as ourselves (e.g., Matt 22:37-40; Luke 10:25-37)--both of which involve not only behavioral but also important affective elements--we often harbor deep-seated antipathies toward atheists and adherents of other religions. While such feelings are at times justified and help us cope with conflict-related tragedies, they are also often baseless, misconstrued, and counterproductive, priming us to avoid religious others, support discriminatory policies against them, and even confront them in verbal or physical ways. The purpose of this volume is to offer an academically informed yet practically oriented collection of essays that challenges and encourages Christians to engage their religious neighbors in a much more loving, compassionate, hopeful, and courageous--indeed, orthopathic--manner, whether in the realm of politics, in debate and conference venues, on the mission field, or in their own homes, schools, churches, and neighborhoods. As such, a set of reflection and discussion questions is included to facilitate individual and/or group study.

emotion thermometer pdf: Kama Muta Alan Page Fiske, 2019-11-26 This book describes a ubiquitous and potent emotion that has only rarely and recently been studied in any systematic manner. The words that come closest to denoting it in English are being moved or touched, having a heart-warming feeling, feeling nostalgic, feeling patriotic, or pride in family or team. In religious contexts when the emotion is intense, it may be labeled ecstasy, mystical rapture, burning in the bosom, or being touched by the Spirit. All of these are instances of what scientists now call 'kama muta' (Sanskrit, 'moved by love'). Alan Page Fiske shows that what evokes this emotion is the sudden creation, intensification, renewal, repair, or recall of a communal sharing relationship – when love ignites, or people feel newly connected. He explains the social, psychological, cultural, and likely evolutionary processes involved – and how they interlock. Kama muta is described as it manifests in diverse settings at many points in history across scores of cultures, in everyday experiences as well as the peak moments of life. The chapters illuminate the occurrence of kama muta in a range of contexts, including religion, oratory, literature, sport, social media, and nature. The book will be of interest to students and scholars from a number of disciplines who are interested in emotion or social relationships.
