house of japan tuttle: The Constructed Other: Japanese Architecture in the Western Mind Kevin Nute, 2021-09-30 The Constructed Other argues that the assumed otherness of Japanese architecture has made it both a testbed for Western architectural theories and a source of inspiration for Western designers. The book traces three recurring themes in Western accounts of Japanese architecture from the reopening of Japan in the mid-nineteenth century to the present day: a wish to see Western architectural theories reflected in Japanese buildings; efforts to integrate elements of Japanese architecture into Western buildings; and a desire to connect contemporary Japanese architecture with Japanese tradition. It is suggested that, together, these narratives have had the effect of creating what amounts to a mythical version of Japanese architecture, often at odds with historical fact, but which has exercised a powerful influence on the development of building design internationally.

house of japan tuttle: *True Crime Japan* Paul Murphy, 2016-08-02 This is a book I wish I'd

written. It's brilliantly researched, full of detail and illuminating... --Jake Adelstein, author of *Tokyo Ice* Uncover the shocking world of the Japanese courtroom. In a country where nearly all defendants plead guilty, the interesting part is what happens between the plea and the sentencing. In *True Crime Japan*, journalist and longtime resident of Japan Paul Murphy delves into a year's worth of criminal court cases in Matsumoto, a city located 140 miles to the west of Tokyo. The nine defendants in these cases range from ruthless mobsters to average citizens with a variety of methods and motives. Using court documents and interviews, Murphy makes a point of including the perspectives of the defendants, as well as those of their families, neighbors, and lawyers. He explores not only the motives of offenders but the culture of crime and punishment in Japan. The nine cases include: *Late in Life* -- A wealthy octogenarian is put in jail for stealing fried chicken *Mama's Boys* -- A disbelieving family unveils their son's role as a yakuza gangster. *Mother Killers* -- A middle-aged carpenter beats his 91-year old mother to death and goes to work the following day, leaving the body for his wife to find. *True Crime Japan* provides an unusual lens through which to view Japanese society and its emphasis on honor, shame, and conformity. Murphy's in-depth analysis of the court system reveals Japan to be, perhaps surprisingly, a land of true individuals.

house of japan tuttle: *Mirei Shigemori - Rebel in the Garden* Christian Tschumi, 2020-08-10 Mirei Shigemori had a major impact on the development of Japanese landscape architecture in the twentieth century. Active from the 1920s, he founded the Kyoto Garden Society in 1932. In 1939 he designed his own first masterpiece, the garden at the main hall of the Tōfuku-ji temple. From then on he designed 240 gardens all over Japan until his death in 1975; amongst the most famous are the Tenrai-an tea garden (1969) and the Matsuo Taisha garden (1975). The main characteristic of his gardens is that they respect tradition and, at the same time, depart from conventional paradigms by opening up to the influence of Western modernism with its own language. The first part of the book covers Shigemori's life and factors that influenced his work. The second part contains a detailed illustration of 17 gardens. The book is published as a new and revised edition.

Keane, 2016-11-07 In *Cultural and Theological Reflections on the Japanese Quest for Divinity*, John J. Keane offers an explanation of Japanese divinity (kami 神) using sociology, anthropology, linguistics, literature and history. He presents an overview of how the Japanese have sought to love and serve their kami - a quest that rivals the interest that the West gives to God. The principles of interreligious dialogue are applied to the meaning of kami and a plea is made for a dialogue that respectfully accepts differences between the cultures and the theologies of Eastern and Western thought. Important cultural themes are discussed as a part of this quest, such as the emperors of Japan and the Japanese Tea Ceremony. The work also challenges the understanding of kami as highlighted by Akutagawa Ryunosuke and Endo Shusaku.
