E. Dale Award FINALIST: The Hurston/Wright Legacy Award A NEW YORK TIMES BOOK REVIEW AND WASHINGTON POST BEST BOOK OF THE YEAR When Ed Goodwin moved with his parents to the Greenwood neighborhood in Tulsa, Oklahoma, his family joined a community soon to become the center of black life in the West. But just a few years later, on May 31, 1921, the teenaged Ed hid in a bathtub as a white mob descended on his neighborhood, laying waste to thirty-five blocks and murdering as many as three hundred people in one of the worst acts of racist violence in U.S. history. The Goodwins and their neighbors soon rebuilt the district into “a Mecca,” in Ed’s words, where nightlife thrived and small businesses flourished. Ed bought a newspaper to chronicle Greenwood’s resurgence and battles against white bigotry, and his son Jim, an attorney, embodied the family’s hopes for the civil rights movement. But by the 1970s urban renewal policies had nearly emptied the neighborhood. Today the newspaper remains, and Ed’s granddaughter Regina represents the neighborhood in the Oklahoma state legislature, working alongside a new generation of local activists to revive it once again. In *Built from the Fire*, journalist Victor Luckerson tells the true story behind a potent national symbol of success and solidarity and weaves an epic tale about a neighborhood that refused, more than once, to be erased.

The global social justice movement brought attention to obvious issues, but all challenges of living Black are not obvious. unspoken issues of Black life to the forefront of counseling conversations. The author looks deep into Black identities and unhides the psychological impact of Black racialization. The book considers the emotional weight of the historical presumption of guilt and the impact of shorter lifespans. lift every voice and sing pdf: Healing Haunted Histories Elaine Enns, Ched Myers, 2021-02-01 Healing Haunted Histories tackles the oldest and deepest injustices on the North American continent. Violations which inhabit every intersection of settler and Indigenous worlds, past and present. Wounds inextricably woven into the fabric of our personal and political lives. And it argues we can heal those wounds through the inward and outward journey of decolonization. The authors write as, and for, settlers on this journey, exploring the places, peoples, and spirits that have formed (and deformed) us. They look at issues of Indigenous justice and settler response-ability through the lens of Elaine's Mennonite family narrative, tracing Landlines, Bloodlines, and Songlines like a braided river. From Ukrainian steppes to Canadian prairies to California chaparral, they examine her forebearers' immigrant travails and trauma, settler unknowing and complicity, and traditions of resilience and conscience. And they invite readers to do the same. Part memoir, part social, historical, and theological analysis, and part practical workbook, this process invites settler Christians (and other people of faith) into a discipleship of decolonization. How are our histories, landscapes, and communities haunted by continuing Indigenous dispossession? How do we transform our colonizing self-perceptions, lifeways, and structures? And how might we practice restorative solidarity with Indigenous communities today?

lift every voice and sing pdf: White Poverty William J. Barber II, 2024-06-11 A generational work with far-ranging social and political implications, *White Poverty*, promises to be one of the most influential books in recent years. One of the most pernicious and persistent myths in the United States is the association of Black skin with poverty. Though there are forty million more poor white people than Black people, most Americans, both Republicans and Democrats, continue to think of poverty—along with issues like welfare, unemployment, and food stamps—as solely a Black problem. Why is this so? What are the historical causes? And what are the political consequences that result? These are among the questions that the Reverend Dr. William J. Barber II, a leading advocate for the rights of the poor and the “closest person we have to Dr. King” (Cornel West), addresses in *White Poverty*, a groundbreaking work that exposes a legacy of historical myths that continue to define both white and Black people, creating in the process what might seem like an insuperable divide. Analyzing what has changed since the 1930s, when the face of American poverty was white, Barber, along with Jonathan Wilson-Hartgrove, addresses white poverty as a hugely neglected subject that just might provide the key to mitigating racism and bringing together tens of millions of working class and impoverished Americans. Thus challenging the very definition of who is poor in America, Barber writes about the lies that prevent us from seeing the pain of poor white families who have been offered little more than their “whiteness” and angry social media posts to sustain them in an economy where the costs of housing, healthcare, and education have skyrocketed while wages have stagnated for all but the very rich. Asserting in Biblically inspired language that there should never be shame in being poor, *White Poverty* lifts the hope for a new “moral fusion movement” that seeks to unite people “who have been pitted against one another by politicians (and billionaires) who depend on the poorest of us not being here.” Ultimately, *White Poverty*, a ringing work that braids poignant autobiographical recollections with astute historical analysis, contends that tens of millions of America’s poorest earners, the majority of whom don’t vote, have much in common, thus providing us with one of the most empathetic and visionary approaches to American poverty in decades.
