The ease and speed of travel, tourism, and international trade connect once-remote areas with one another, eliminating many of the geographic and cultural barriers that once limited the spread of disease. Because of our global interconnectedness through transportation, tourism and trade, infectious diseases emerge more frequently; spread greater distances; pass more easily between humans and animals; and evolve into new and more virulent strains. The IOM's Forum on Microbial Threats hosted the workshop Globalization, Movement of Pathogens (and Their Hosts) and the Revised International Health Regulations December 16-17, 2008 in order to explore issues related to infectious disease spread in a borderless world. Participants discussed the global emergence, establishment, and surveillance of infectious diseases; the complex relationship between travel, trade, tourism, and the spread of infectious diseases; national and international policies for mitigating disease movement locally and globally; and obstacles and opportunities for detecting and containing these potentially wide-reaching and devastating diseases. This document summarizes the workshop.

the monkey s paw story pdf: Feminist Perspectives on Terrorism Aleksandra Gasztold, 2020-04-01 This book explores terrorism and security issues from feminist perspectives, putting gender and androcentrism at the heart of its analysis. It argues against traditional research approaches to political violence, and terrorism in particular, that are dominated by the "male-gaze" and individual stereotypes and perspectives, and that feminist approaches offer a fresh perspective on security research. Our current understanding of political violence is primarily based on the experiences of men, and as such, the challenge in terrorism and radicalization research is to demonstrate that women's studies on security and terrorism satisfy certain universal criteria. The author shows how a post-positivist approach can be useful in gaining insights into terrorism and violent extremism, and how to address these phenomena. The book presents theoretical foundations based on various feminist assumptions, and exposes the essence of feminism, its conceptual grid, gender variabilities and the developments in feminist thinking and theory. Furthermore, it discusses the trends in feminist epistemology, and explains female radicalization to terrorist activity, the specificity of female terrorism, and the roles of women in deradicalization processes, as well as their impact on counterterrorism policy. The book concludes that gender difference as a constitutive variable of social reality is of key importance in studies on terrorism and counterterrorism.

the monkey s paw story pdf: The Monkey's Paw William Wymark Jacobs, 2013-08-25 The Monkey's Paw is a horror short story by author W. W. Jacobs. It was published in England in 1902. The story is based on the famous setup in which three wishes are granted. In the story, the paw of a dead monkey is a talisman that grants its possessor three wishes, but the wishes come with an enormous price for interfering with fate. The story involves Mr. and Mrs. White and their adult son, Herbert. Sergeant-Major Morris, a friend of the Whites who has been part of the British Armed Forces in India, leaves them with the monkey's paw, telling of its mysterious powers to grant three wishes and of its journey from an old fakir to his comrade, who used his third wish to wish for death. Sergeant-Major Morris throws the monkey's paw into the fire and White quickly retrieves it. Morris warns White, but White, thinking about what he could use the paw for, ignores him. Mr. White wishes for 200 to be used as the final payment on his house. Following that, Herbert is killed by machinery at his company, but the couple gets compensation of 200. Ten days after the funeral, Mrs. White, almost mad with grief, asks her husband to wish Herbert back to life with the paw. Reluctantly, he does so. After a delay, there is a knock at the door. Mrs. White fumbles at the locks in an attempt to open the door. Mr. White knows, however, that he cannot allow their son in, as his appearance will be too grotesque. Mr. White was required to identify the body, which had been mutilated by the accident and then buried for more than a week. While Mrs. White tries to open the door, Mr. White makes his third wish, and the knocking stops. Mrs. White opens the door to find no one there. The theme of the story is contained in this description of the paw: 'It had a spell put on it by an old fakir, ' said the sergeant-major, 'a very holy man. He wanted to show that fate ruled people's lives, and that those who interfered with it did it to their sorrow.' A great number of novels, stories, movies, plays and comics are variations or adaptations of the story, featuring similar plots built around wishes that go awry in macabre ways, occasionally with references to monkey's paws or to the story itself. The story is frequently parodied on television shows and comic books, including a Simpson's tree house of horrors episode.
