bond nephew quotes: *Making Relatives of Them* Rebecca Kugel, 2023-09-12 Kinship, as an organizing principle, gives structure to communities and cultures—and it can vary as widely as the social relationships organized in its name. *Making Relatives of Them* examines kinship among the Great Lakes Native nations in the eventful years of the late eighteenth and early nineteenth century, revealing how these Indigenous peoples' understanding of kinship, in complex relationship with concepts of gender, defined their social, political, and diplomatic interactions with one another and with Europeans and their descendants. For these Native nations—Wyandot, Shawnee, Delaware, Miami, Ojibwe, Odawa, Potawatomi, Dakota, Menomini, and Ho-chunk—the constructs and practices of kinship, gender, and social belonging represented a daily lived reality. They also formed the metaphoric foundation for a regionally shared Native political discourse. In at least one English translation, Rebecca Kugel notes, Indigenous peoples referred to the kin-based language of politics as "the Custom of All the Nations." Clearly defined yet endlessly elastic, the Custom of All the Nations generated a shared vocabulary of kinship that facilitated encounters among the many Indigenous political entities of the Great Lakes country, and framed their interactions with the French, the British, and later, the Americans. Both the European colonizers and Americans recognized the power-encoding symbolism of Native kinship discourse, Kugel tells us, but they completely misunderstood the significance that Native peoples accorded to gender—a misunderstanding that undermined their attempts to co-opt the Indigenous discourse of kinship and bend it to their own political objectives. A deeply researched, finely observed work by a respected historian, *Making Relatives of Them* offers a nuanced perspective on the social and political worlds of the Great Lakes Native peoples, and a new understanding of those worlds in relation to those of

the European colonizers and their descendants.

bond nephew quotes: *The Bounty* Caroline Alexander, 2004-05-25 Has history been wrong for 200 years? Read the startling truth about the mutiny on the Bounty, its characters, causes, and aftermath. Television rights are now in development with Ridley Scott's Scott Free Productions. More than two centuries after Master's Mate Fletcher Christian led a mutiny against Lieutenant William Bligh on a small, armed transport vessel called Bounty, the true story of this enthralling adventure has become obscured by the legend. Combining vivid characterization and deft storytelling, Caroline Alexander shatters the centuries-old myths surrounding this story. She brilliantly shows how, in a desperate attempt to save one man from the gallows and another from ignominy, two powerful families came together and began to create the version of history we know today. The true story of the mutiny on the Bounty is an epic of duty and heroism, pride and power, and the assassination of a brave man's honor at the dawn of the Romantic age.

bond nephew quotes: *Mission Accomplished* Robert Uda, 2004-02 Most returned missionaries say that their missions have been the most rewarding experience of their lifetime. It is no wonder: their maturity, testimony, and knowledge grow phenomenally. There is no greater feeling than to teach, convert, and baptize a new family into the Church. The miraculous changes that occur in people as they accept, live, and progress in the Gospel are worth all of the missionaries' personal sacrifices. If we lovingly encourage and prepare our sons to serve full-time missions, they will accept the challenge. They will happily prepare themselves and look forward with great anticipation to serve the Lord anywhere in the world for two years. If you do the things suggested in *Mission Accomplished*, you will have successful missionaries who serve honorable missions. You will be showered with never-expected blessings. Indeed, the windows of heaven will open wide to pour out innumerable blessings from on high. I recommend the following to parents of all currently serving missionaries: Pray for them daily Write to them weekly; keep letters positive and encouraging Send them periodic care packages Do not call them unless permitted by the mission president Help them complete an honorable mission If you do these things, you will reap blessings galore. Your missionaries rely on the support they receive from home. They need your support. They look forward to your support. Don't let them down.

In this collection of his major studies in the field, Ludo Rocher presents essays on a wide range of topics, from general themes such as the nature of Hindu law to technical matters including word studies and text criticism. Rocher's deep engagement with the language and worldview of the authors in the Dharmaśāstra tradition yields distinctive and corrective contributions to the field.
