Farewell Pageant Speech

farewell pageant speech: The Common Pursuit F. R. Leavis, 2011-11-17 F. R. Leavis was the chief editor of *Scrutiny*, which between 1932 and 1953 had some claim on being the most influential literary journal in the English-speaking world. *The Common Pursuit* is a selection of Leavis's essays from *Scrutiny*, including his robust defence of Milton against T. S. Eliot, his deeply-felt engagement with Shakespeare, and his severe strictures on attempts to import sociology and political activism into the study of literature. The title of the book comes from a passage in Eliot's 'The Function of Criticism', in which the poet argues that the critic must engage in 'the common pursuit of true judgment'. For Leavis, this meant a strenuous insistence on discriminatory criticism - clear statements about what is good and morally mature and admirable, and equally clear condemnation of what is trivial. *The Common Pursuit*, with its controversial judgments of Bunyan and Auden, Swift and Forster, remains as challenging now as it did in 1952, and it is easy to see why Leavis - who was never offered a professorship by Cambridge University - held such sway over the study of English literature in his time.

farewell pageant speech: Antedating Shakespeare's Poems and Plays Penny McCarthy, 2024-09-05 The academic community treats the chronology of Shakespeare's works as settled. He supposedly served an apprenticeship collaborating on plays in the 1580s, wrote two great poems in the early 90s, three plays a year from the mid-90s, some problem plays around the turn of the century, then his greatest tragedies, and finally some "romances" late in his career. This

investigation highlights the flaws in the consensus view: over-reliance on precarious stylometrics, dubious identification of topical relevance, and unfounded conviction that composition preceded publication, performance, or first mention by only a short interval. Concentrating on his poems and six of his plays, the study ascribes parallels in others' literary works to their authors' imitation or parodying of Shakespeare, not vice versa. The importance of patronage circles rather than London theatre companies to writers, players, and printers is spelled out. The conclusion is that Shakespeare's works must be radically antedated.

farewell pageant speech: The Female Few Jacky Hyams, 2012-01-01 Through the darkest days of the Second World War, an elite group of courageous civilian women risked their lives as aerial courier pilots, flying Lancaster bombers, Spitfires and many other powerful war machines in thousands of perilous missions. The dangers these women faced were many: they flew unarmed, without radio and in some cases without instruments, in conditions where even unexpected cloud could mean disaster. In *The Female Few*, five of these astonishingly brave women tell their awe-inspiring tales of incredible risk, tenacity and sacrifice. Their spirit and fearlessness in the face of death still resonates down the years, and their accounts reveal a forgotten chapter in the history of the Second World War.

farewell pageant speech: Queen of the Maple Leaf Patrizia Gentile, 2020-11-01 As modern versions of the settler nation took root in twentieth-century Canada, beauty emerged as a business. But beauty pageants were more than just frivolous spectacles. *Queen of the Maple Leaf* deftly uncovers how colonial power operated within the pageant circuit. Patrizia Gentile examines the interplay between local or community-based pageants and provincial or national ones. Contests such as Miss War Worker and Miss Civil Service often functioned as stepping stones to larger competitions. At all levels, pageants exemplified codes of femininity, class, sexuality, and race that shaped the narratives of the settler nation. A union-organized pageant such as *Queen of the Dressmakers*, for example, might uplift working-class women, but immigrant women need not apply. *Queen of the Maple Leaf* demonstrates how these contests connected female bodies to respectable, wholesome, middle-class femininity, locating their longevity squarely within their capacity to reassert the white heteropatriarchy at the heart of settler societies.

farewell pageant speech: At Work in the Early Modern English Theater Matthew Kendrick, 2015-06-11 *At Work in the Early Modern English Theater: Valuing Labor* explores the economics of the theater by examining how drama seeks to make sense of changing conceptions of labor. With the growth of commerce and market relations in sixteenth- and seventeenth-century England came the corresponding degradation and exploitation of workers, many of whom made their frustrations known through petitions and pamphlets. Poverty affected all sectors of society in early modern England and many laborers, even London citizens from more prosperous trades, could

expect to experience periods of impoverishment. This group of precarious laborers included actors and playwrights, many of whom had direct connections to London's more established trades and occupations. Scholars have argued that dispossessed laborers turned to other forms of labor in lieu of their traditional livelihoods, including brigandage, piracy, begging, and cozening. To this list of alternative communities and applications of labor in the early modern period, Matthew Kendrick's scholarship adds the London theaters. Each chapter is guided by the central premise that anxiety over the objectification and dispossession of labor in its various forms is enacted on stage, and that drama helps to formulate, by merit of the theater's socioeconomic identity, an emerging laboring subjectivity engendered by the violent development of capitalism. As the nexus of a declining feudal social structure and an emerging capitalist regime of commodity production, a location in which dispossessed labor intersected with traditions of skilled labor and the unwieldy consumerist energies of the marketplace, the space of the theater was uniquely situated to channel and give dramatic form to the growing antagonisms and tensions that shaped labor. The stage offers a space in which to negotiate the value and meaning of labor in an increasingly exploitative society.

farewell pageant speech: For Every Indio Who Falls Betsy Konefal, 2010-11-16 In 1978, a Maya community queen stood on a stage to protest a massacre of indigenous campesinos at the hands of the Guatemalan state. She spoke graphically to the dead and to the living alike: Brothers of Panzós, your blood is in our throats! Given the context, her message might come as a surprise. A revolutionary insurgency in the late 1970s was being met by brutal state efforts to defeat it, efforts directed not only at the guerrilla armies but also at reform movements of all kinds. Yet the young

woman was just one of many Mayas across the highlands voicing demands for change. Over the course of the 1970s, Mayas argued for economic, cultural, and political justice for the indigenous pueblo. Many became radicalized by state violence against Maya communities that soon reached the level of genocide. Scholars have disagreed about Maya participation in Guatemala's civil war, and the development of oppositional activism by Mayas during the war is poorly understood. Betsy Konefal explores this history in detail, examining the roots and diversity of Maya organizing and its place in the unfolding conflict. She traces debates about ethnicity, class, and revolution, and examines how (some) Mayas became involved in opposition to a repressive state. She looks closely at the development of connections between cultural events like queen pageants and more radical demands for change, and follows the uneasy relationships that developed between Maya revolutionaries and their Ladino counterparts. Konefal makes it clear that activist Mayas were not bystanders in the transformations that preceded and accompanied Guatemala's civil war--activism by Mayas helped shape the war, and the war shaped Maya activism.
