george dijmarescu: High Crimes Michael Kudas, 2008-02-05 High Crimes is journalist Michael Kudas's gripping account of life on top of the world--where man is every bit as deadly as Mother Nature. In the years following the publication of *Into Thin Air*, much has changed on Mount Everest. Among all the books documenting the glorious adventures in mountains around the world, none details how the recent infusion of wealthy climbers is drawing crime to the highest place on the planet. The change is caused both by a tremendous boom in traffic, and a new class of parasitic and predatory adventurer. It's likely that Jon Krakauer would not recognize the camps that he visited on Mount Everest almost a decade ago. This book takes readers on a harrowing tour of the criminal underworld on the slopes of the world's most majestic mountain. High Crimes describes two major expeditions: the tragic story of Nils Antezana, a climber who died on Everest after he was abandoned by his guide; as well as the author's own story of his participation in the Connecticut Everest Expedition, guided by George Dijmarescu and his wife and climbing partner, Lhakpa Sherpa. Dijmarescu, who at first seemed well-intentioned and charming, turned increasingly hostile to his own wife, as well as to the author and the other women on the team. By the end of the expedition, the three women could not travel unaccompanied in base camp due to the threat of violence. Those that tried to stand against the violence and theft found that the worst of the intimidation had followed them home to Connecticut. Beatings, thefts, drugs, prostitution, coercion, threats, and abandonment on the highest slopes of Everest and other mountains have become the rule rather than the exception. Kudas describes many such experiences, and explores the larger issues these stories raise with thriller-like intensity.

george dijmarescu: *Buried in the Sky: The Extraordinary Story of the Sherpa Climbers on K2's Deadliest Day* Peter Zuckerman, Amanda Padoan, 2012-06-11 Winner of the National Outdoor Book Award and the Banff Mountain Book Award for Mountain Literature Gripping, intense...Buried in the Sky will satisfy anyone who loved [*Into Thin Air*]. —Kate Tuttle, Boston Globe When eleven climbers died on K2 in 2008, two Sherpas survived. Their astonishing tale became the stuff of mountaineering legend. This white-knuckle adventure follows the Sherpas from their remote villages in Nepal to the peak of the world's most dangerous mountain, recounting one of the most dramatic disasters in alpine history from a fascinating new perspective. Winner of the NCTE George Orwell Award and an official selection of the American Alpine Club Book Club.

george dijmarescu: *Everest, Inc.* Will Cockrell, 2025-04-22 Featuring original interviews with Everest mountain guides and climbers, this is "a fast-moving, nuanced account of the peak's transformation from the ultimate mountaineering challenge into a booming business opportunity" (Joshua Hammer, New York Times bestselling author). Anyone who has read Jon Krakauer's *Into Thin Air* or has seen a recent photo of climbers standing in line to get to the top of Everest may think

they have a sense of what the world's highest mountain is like. It's an extreme landscape where bad weather and incredible altitude can kill; an overcrowded, trashed-out recreation destination; and a place where the rich exploit local Sherpas while padding their egos—and social media feeds. There's some truth to these clichés, but they're a sliver of the story. Unlike any book to date, *Everest, Inc.* is the definitive account of how a few daring entrepreneurs paired raw courage and naked ambition to get paying clients safely up and down Everest. Until the late eighties, such a thing was considered impossible. Within a few years, Everest guiding was a burgeoning industry. Today, ninety percent of the people on the mountain are clients or employees of guided expeditions. Studded with quotes from original interviews with more than a hundred Western and Sherpa climbers, clients, writers, and filmmakers—including Jimmy Chin and Conrad Anker—*Everest, Inc.* foregrounds the colorful voices of the people who have made the mountain what it is today. As professional climber and author Freddie Wilkinson says, "Whether you are thinking about taking a crack at the world's highest peak or are simply an armchair mountaineer trying to make sense of the complex dynamics driving the modern Everest industry, *Everest, Inc.* should be required reading."

george dijmurescu: *Dark Summit* Nick Heil, 2011-04-13 In the tradition of Jon Krakauer's *Into Thin Air*, Nick Heil recounts the harrowing story of the deadly and controversial 2006 climbing season on Everest. In early May 2006, a young British climber named David Sharp lay dying near the top of Mount Everest while forty other climbers walked past him on their way to the summit. A week later, Lincoln Hall, a seasoned Australian climber, was left for dead near the same spot. Hall's death was reported around the world, but the next day he was found alive after spending the night on the upper mountain with no food and no shelter. If David Sharp's death was shocking, it was not singular: despite unusually good weather, ten others died attempting to reach the summit that year. In this meticulous inquiry into what went wrong, Nick Heil tells the full story of the deadliest year on Everest since the infamous season of 1996. He introduces Russell Brice, the outfitter who has done more than anyone to provide access to the summit via the mountain's north side—and who some believe was partially responsible for Sharp's death. As more climbers attempt the summit each year, Heil shows how increasingly risky expeditions and unscrupulous outfitters threaten to turn Everest into a deadly circus. Written by an experienced climber and outdoor writer, *Dark Summit* is both a riveting account of a notorious climbing season and a troubling investigation into whether the pursuit of the ultimate mountaineering prize has spiralled out of control.

george dijmurescu: One Mountain Thousand Summits Freddie Wilkinson, 2010-07-06 The account of one of the deadliest and most mysterious tragedies in mountaineering history—the 2008 K2 disaster. One Mountain Thousand Summits reveals the true story of the K2 tragedy that claimed the lives of eleven men. Based on his numerous trips to Nepal and in-depth interviews he conducted with the survivors, the families of the lost climbers, and the Sherpa guides whose heroic efforts saved the lives of at least four climbers, Freddie Wilkinson's narrative uncovers what actually occurred on the mountain, while delivering a criticism of the mainstream press's incomplete coverage of the event, and an insightful look into the lives of the six Sherpas who were involved.

george dijmurescu: K2: Enterrados en el cielo Peter Zuckerman, Amanda Padoan, 2021-04-02 Cuando Edmund Hillary conquistó el Monte Everest, el sherpa Tenzing Norgay estaba a su lado. De hecho, en todas las ocasiones en que los occidentales han subido el Himalaya, los sherpas han sido, en el fondo, los héroes olvidados. En agosto de 2008, cuando once escaladores perdieron la vida en el K2, probablemente la montaña más peligrosa del mundo, dos sherpas sobrevivieron. Habían salido de la pobreza y de la agitación política para convertirse en dos de los montañeros más hábiles del planeta. Con acceso a información inédita, entrevistas en profundidad y una rica exploración de las costumbres y la cultura sherpa, este libro recrea por primera vez la asombrosa historia de una de las catástrofes más dramáticas en la historia alpina, desde una nueva perspectiva fascinante. Zuckerman y Padoan exploran las vidas cruzadas de los sherpas Chhiring Dorje y Pasang Lama, siguiéndolos desde sus aldeas en el alto Himalaya a los barrios pobres de Katmandú, a través de los glaciares de Pakistán, hasta el campo base del K2. Cuando ocurrió el desastre en la Zona de la Muerte, Chhiring encontró a Pasang varado en una pared de hielo, sin siquiera un piolet, esperando la muerte. El rescate que siguió se ha convertido en parte de la leyenda del alpinismo.

george dijmurescu: Giorni di ghiaccio Marco Confortola, 2013-10-09T00:00:00+02:00 Confortola è un cacciatore di ottomila: a 38 anni ha già vinto l'Everest, lo Shishsa Pangama, l'Annapurna, il Cho Oyu e il Broad Peak. Soltanto una vetta l'ha rifiutato: il K2, 8611 metri di ghiaccio, roccia e neve. La montagna più difficile del mondo.

george dijmurescu: Ricominciare Marco Confortola, 2013-10-10T00:00:00+02:00 Da una parte c'è lei, la montagna: enorme, eterna, altera. Dall'altra c'è lui, l'uomo, l'alpinista. Alla montagna ha dedicato la propria esistenza: in montagna è nato, in montagna è cresciuto, in montagna ha rischiato di morire. K2, agosto 2008. Un gruppo di alpinisti di diverse nazionalità, dopo settimane di attesa sul terreno ghiacciato del campo base, dà l'assalto alla vetta. Partono in diciassette. Undici

non fanno ritorno. Marco Confortola è tra i sopravvissuti. La discesa dalla cima rappresenta una delle pagine più epiche dell'alpinismo himalayano: freddo, paura, rabbia, determinazione, in tutto quel bianco c'è il senso di una vita, c'è ogni cosa. 17 settembre 2008: Marco Confortola subisce l'amputazione di tutte le dita dei piedi. Dopo un anno e mezzo, tra delusioni e speranze, salite e discese, l'alpinista valtellinese ci riprova: di fronte ai suoi occhi, il Lhotse, 8516 metri, una delle quattordici montagne più alte della Terra.

george dijmarescu: 3x Everest Harry Kikstra, 2012-08-07 De aan gekte grenzende fascinatie voor het hoogste punt op aarde Waarom wil iemand de top van de hoogste berg bereiken en niet één keer maar drie keer? Voor Harry Kikstra dient het beklimmen van de Mount Everest geen ander doel dan avontuur om het avontuur; een persoonlijke uitdaging en plezier in het leven. In 2004 beklimt hij voor het eerst de Mount Everest. Hij begint ziek aan de tocht, en het team waarvan hij deel uitmaakt valt ten prooi aan onderlinge ruzies. Een jaar later probeert hij het opnieuw. Hij bereikt als tiende Nederlander de top, maar een teamgenoot overlijdt en ook Kikstra overleeft het maar net. De volgende expeditie, in 2006, eindigt rampzalig en is wereldnieuws: twaalf doden en één klimmer die ternauwernood gered kan worden. 3x Everest is behalve het spannende verslag van drie tochten naar de top van de hoogste berg ook een verhaal over de aantrekkingskracht van het klimmen, over de grote gevaren voor het menselijk lichaam, over angst, de aan gekte grenzende fascinatie voor het hoogste punt op aarde, en kritiek vanaf de zijlijn. Harry Kikstra is avonturier en fotograaf. Hij beklom als derde Ne-derlander de `Seven Summits: de hoogste bergtop van elk continent op aarde. Hij publiceerde fotos en verhalen, onder meer in National Geographic Adventure. Hij verliet het zakenleven, richtte de popu-laire klim-, adventure- en fotosites 7summits.com en exposedplanet.com op, en organiseert nu vanuit Patagonië expedities over de hele wereld.

george dijmarescu: Gerfried Göschl Jochen Hemmleb, Heike Göschl-Grünwald, 2014-10-31 Für den österreichischen Alpinismus bedeutete die Jahreswende 2011/2012 sowohl einen Hoch- als auch einen Tiefpunkt. Hochpunkt war Ende August 2011, als die Öberösterreicherin Gerlinde Kaltenbrunner als erste Frau, alle 14 Achttausender ohne Sauerstoffgerät bestieg. Tiefpunkt war Anfang März 2012, als der Steirer Gerfried Göschl bei dem Versuch, als erster Mensch einen Achttausender im Winter über eine neue Route zu besteigen und zu überschreiten, starb. Gerfried Göschl war eine Ausnahmeerscheinung im Höhenbergsteigen - und zwar nicht allein aufgrund seiner Leistungen, sondern vor allem wegen seiner Persönlichkeit und Kreativität. Von Beginn seiner Laufbahn als Bergsteiger trug er den persönlichen Nutzen und Wert des Bergsteigens nach außen und gab ihn weiter: Kindern vermittelte der ausgebildete Pädagoge über das Bergsteigen Selbstvertrauen und Selbstwertgefühl. Als Expeditionsorganisator schaffte er es, in dem häufig von Egozentrikern und Einzelkämpfern dominierten Feld des Spitzenalpinismus schlagkräftige Teams zu formieren, in denen jeder entsprechend seiner Stärken optimal wirken konnte. Damit lieferte er ein Beispiel für wahrhaftige Führungsarbeit, dessen Vorbildwirkung weit über das Bergsteigen hinaus reicht. In den zehn Jahren seiner Laufbahn als Höhenbergsteiger bestieg Gerfried Göschl sieben Achttausender ohne Sauerstoffgerät - darunter als fünfter Österreicher und erster Steirer den Mount Everest (8848 m), den höchsten Berg der Welt. Unter seiner Expeditionsleitung konnten sich fast 40 Bergsteiger den Traum von einem der welthöchsten Gipfel erfüllen. Höhepunkt war 2009 die Erstbegehung des landschaftlich großartigen Nordwestsporns am gefürchteten Nanga Parbat (8125 m). Gerfried Göschls zu früher Tod beim Versuch der ersten Winterüberschreitung des Hidden Peak (8080 m) im Karakorum bedeutete den Verlust eines Alpinisten mit zahllosen Ideen - und dem Potential, das österreichische Höhenbergsteigen in eine neue Zukunft zu führen.

george dijmarescu: Seppelliti nel cielo Peter Zuckerman, Amanda Padoan, 2013-04-02 Quando Edmund Hillary conquistò il monte Everest, al suo fianco era Tenzing Norgay e fu quella la prima volta in cui il nome di uno sherpa fece la sua comparsa sulla ribalta della cronaca. In realtà tutto l'alpinismo himalayano è segnato dalla presenza di queste silenziose figure, il cui apporto è stato tanto decisivo quanto misconosciuto dalla storia. Nell'estate del 2008 numerosi portatori sherpa attendevano al Campo base del K2, al soldo delle numerose spedizioni internazionali decise a tentare l'assalto alla vetta. Dopo settimane di attesa, finalmente il 1o agosto le condizioni

metereologiche sembravano ottimali per conquistare la Montagna selvaggia: ma l'ansia di compiere l'impresa ebbe la meglio sulla prudenza, e nell'arco di ventisette ore, dei trentotto alpinisti impegnati nella scalata ne morirono undici in quella che diventerà la più grande tragedia del K2. Circondati dalla morte, in condizioni disperate, due sherpa riuscirono a sopravvivere. Peter Zuckerman e Amanda Padoan ripercorrono le vite intrecciate di Chhiring Dorje Sherpa e Pasang Lama, seguendoli dai loro villaggi sulle pendici himalayane fino alle baraccopoli di Katmandu e attraverso i ghiacciai del Pakistan fino al Campo base del K2. Quando si scatena l'orrore nella Zona della Morte, Chhiring trova Pasang bloccato su una parete di ghiaccio, senza piccozza, fermo ad aspettare la morte. Lo soccorre e lo riporta al campo, e la vicenda di questo salvataggio, svoltosi nelle condizioni più estreme, è entrata di diritto nella leggenda dell'alpinismo. Seppelliti nel cielo è un'avventura appassionante e al contempo un'analisi approfondita della cultura sherpa: ne nasce l'inedita ricostruzione di una delle catastrofi peggiori nella storia dell'alpinismo da una prospettiva nuova e affascinante.

george dijmurescu: Begravda i himlen Amanda Padoan, Peter Zuckerman, 2015-11-17
"Många redogörelser för bergsbestigningar beskriver en dödsföraktande klättring uppför fasta rep. Men hur hamnade de där repen där? Vilka genomförde räddnings insatserna? När ens liv hänger på att en knop håller, kanske man vill veta vem som slog den." Ur förordet När elva klättrare omkom på världens farligaste berg K2 i augusti 2008, överlevde två sherpor katastrofen. Sherpor är de lokala klättrare som gör det möjligt för västerländska klättrare att överhuvudtaget ha en chans att ta sig upp på Himalayas högsta toppar. De har länge varit hjältar i det fördolda, men här ger Amanda Padoan och Peter Zuckerman dem röst och historia. Vi får följa sherpora Chhiring Dorje Sherpas och Pasang Lamas livshistorier, från deras byar högt upp i Himalaya, till slummen i Katmandu, över glaciärerna i Pakistan till baslägret på K2. När katastrofen är ett faktum finner Chhiring sin kollega Pasang strandsatt, utan yxa, på en isvägg där han väntar på att dö. Den räddningsaktion som följer har kommit att bli legendarisk. Begravda i himlen är både en gastkramande äventyrsberättelse och en inblick i sherporas vardag och kultur. Boken skildrar ett av klättringshistoriens mest dramatiska dygn från ett helt nytt perspektiv.

Sherpaene har vært de ubesungede heltene helt siden tindebestigere fra Vesten begynte å klatre i Himalaya. I 2008, da 11 klatrere mistet livet på ett av verdens farligste fjell, K2, var det to sherpaer som overlevde. Boka er basert på enestående innsyn og intervjuer, og sherpaenes fabelaktige historie blir kjent for første gang. Den er både et gripende, spennende eventyr og en frodig studie av sherpaenes skikker og kultur, og gjenforteller en av de mest dramatiske beretningene i fjellklatringens historie fra en ny og fascinerende synsvinkel.
