john person cartoon: Artist of Wonderland Frankie Morris, 2023-01-01 Best known today as the illustrator of Lewis Carroll's Alice books, John Tenniel was one of the Victorian era's chief political cartoonists. This extensively illustrated book is the first to draw almost exclusively on primary sources in family collections, public archives and other depositories. Frankie Morris examines Tenniel's life and work, producing a book that is not only a definitive resource for scholars and collectors but one that can be easily enjoyed by everyone interested in Victorian life and art, social history, journalism and political cartoon, and illustrated books. From his sunny childhood and early enthusiasm for sports, theatre and medievalism to his flirtation with high art and fifty-year relationship with the London journal Punch, Tenniel is shown to have been the sociable and urbane humourist revealed in his drawings. There follow three parts on Tenniel's work, in which Morris examines Tenniel's methods and his earlier book illustrations, the Alice pictures, and the Punch cartoons. She addresses such little-understood subjects as Tenniel's drawings on wood, his relationship with Lewis Carroll, and his controversial Irish cartoons, and examines the salient characteristics of his approximately 4,500 drawings for books and journals. The definitive study of both the man and the work, Artist of Wonderland gives an unprecedented view of the cartoonist who mythologised the world for generations of Britons.

How can Christians committed to the classical Christian tradition address the issues raised by contemporary Islam? Before a much-needed dialogue between Christians and Muslims is established, Christians need to ask themselves how their Scriptures and traditions might come to bear on such a dialogue. Do the divisions among Catholic and Evangelical Christians fracture the classical Christian tradition in ways that undercut Christian-Muslim dialogue before it has even begun? Or could the classical tradition provide invaluable resources for resolving divisions between Catholic and Evangelical Christians in ways that would prepare them for meaningful conversation with Muslim brothers and sisters? And what does it have to teach us about what Christians can and must learn from Muslims about their own traditions? The scholarly essays compiled in *Christian Theology and Islam* consider these and further questions, offering valuable insight for concerned Christians and academics in the fields of theology and religion.

This book explores behaviour and classroom management through a holistic and best practice approach. It is driven by engaging and relatable narratives, grounded in research and delivers essential, actionable, and highly relevant professional learning on behaviour management. Claire empowers you to take the action you can take when you walk into your classroom.
