Understanding the National Honor Society (NHS)

What Is the National Honor Society?

The National Honor Society (NHS) is a nationwide organization founded in 1921 by the National Association of Secondary School Principals (NASSP). Its primary mission is to recognize outstanding high school students who demonstrate excellence in four key areas: scholarship, leadership, service, and character. NHS chapters are established in thousands of high schools across the United States and its territories, serving as a prestigious platform for student recognition.

The Purpose and Goals of NHS

The NHS aims to:

- Promote academic achievement and scholarship among high school students.
- Foster leadership qualities and skills necessary for future success.
- Encourage active community service and civic responsibility.
- Develop character traits such as integrity, responsibility, and respect.

By emphasizing these values, NHS seeks to cultivate well-rounded individuals prepared to contribute positively to society.

Marlowe Meadows understands a lot of things. She understands that calculus isn't overwhelmingly beautiful to everyone, and that it typically kills the mood when you try to talk Python coding over beer pong. She understands that people were surprised when golden boy Josh asked her out and she went from weird, math-obsessed Marlowe to half of their school's couple goals. Unfortunately, Marlowe was the one surprised when Josh dumped her because he'd prefer a girlfriend who's more romantic. One with emotional depth. But Marlowe has never failed anything in her life, and she isn't about to start now. When she's paired with Ashton Hayes for an English project, his black clothing and moody eyeliner cause a bit of a systems overload, and the dissonant sounds of his rock band make her brain itch. But when she discovers Ash's hidden stash of love songs, Marlowe makes a desperate deal to unleash her inner romantic heroine: if Ash will agree to help her write some love letters to win back Josh, she'll calculate the perfect data analytics formula to make Ash's band go viral. As the semester heats up with yearning love notes, a syllabus of romance novels, and late nights spent with a boy who escapes any box her brain tries to put him in, Marlowe starts to question if there's really a set solution to love. Could a girl who's never met a problem she can't solve have gotten the math so massively wrong?
