While some ethical imperatives are common across the board, others could be more closely associated with certain client groups. Practitioners might experience uncertainty in working with vulnerable client groups; for example, lesbian/gay/transgender/intersex (LGBT) clients, or persons who report intimate partner violence. Several chapters raise questions, provide information and additional resources to enhance ethically informed practice. Chapter contributions also highlight the ethical dilemmas that might be unique to certain contexts; for example, private practice, schools and consultation-liaison settings. This volume also addresses contemporary and relatively less understood playing fields like 'digital ethics' related to therapist-client interface in the internet space and the navigation of ethical dilemmas in the newly emerging field of employee assistance programmes which address mental
