Drawing on perspectives from literary theory, philosophy of mind and dream research, this study investigates dreaming in relation to creativity and waking states of imagination such as writing and reading stories. Exploring the similarities and differences between the 'language' of dreams and the language of literature, it analyses the strategies employed by writers to create a sense of dream in literary fiction as well as the genres most conducive to this endeavour. The book closes with three case studies focusing on texts by Kazuo Ishiguro, Clare Boylan and John Banville to illustrate the diverse ways in which writers achieve to 'translate' the experience and 'language' of the dream.

araby james joyce pdf: *Teaching and Learning English Literature* Ellie Chambers, Marshall Gregory, 2006-03-14 'It is scarcely possible to imagine a truly educated person who cannot read well. Yet it is not clear how or even if courses in literature actually work. How can teachers of English help students in their developmental journey toward becoming skillful readers and educated persons? This is the complex question that Chambers and Gregory address in *Teaching and Learning English Literature*. The authors consider practical matters such as course design and student assessment but do not shirk larger historical and theoretical issues. In a lucid and non-polemical fashion - and occasionally with welcome humor - Chambers and Gregory describe the what, why, and how of doing literature, often demonstrating the techniques they advocate. Veteran teachers will find the book rejuvenating, a stimulus to examining purposes and methods; beginning teachers may well find it indispensable' - Professor William Monroe, University of Houston 'The transatlantic cooperation of Ellie Chambers and Marshall Gregory has produced an outstanding book that ought to be on the shelves of anyone involved in the teaching of English Literature, as well as anyone engaged in the scholarship of teaching and learning in general or in any discipline. As they say, the teaching of English Literature plays a central role in human beings' search for meaning although others in other disciplines may make this claim for theirs too. If so, they will still learn a great deal from this book; anyone looking for no more than a means of satisfying the demands of governments that look for simplistic quality measures and economic relevance, let them look elsewhere. This is a book for now and for all times' - Professor Lewis Elton, Visiting Professor, University of Manchester, Honorary Professor, University College London This is the third in the series *Teaching and Learning the Humanities in Higher Education*. The book is for beginning and experienced teachers of literature in higher education. The authors present a comprehensive overview of teaching English literature, from setting teaching goals and syllabus-planning through to a range of student

assessment strategies and methods of course or teacher evaluation and improvement. Particular attention is paid to different teaching methods, from the traditional classroom to newer collaborative work, distance education and uses of electronic technologies. All this is set in the context of present-day circumstances and agendas to help academics and those in training become more informed and better teachers of their subject. The book includes: - how literature as a discipline is currently understood and constituted - what it means to study and learn the subject - what 'good teaching' is, with fewer resources for teaching, larger student numbers, an emphasis on 'user-pay' principles and vocationalism. This is an essential text for teachers of English Literature in universities and colleges worldwide. The Teaching & Learning in the Humanities series, edited by Ellie Chambers and Jan Parker, is for beginning and experienced lecturers. It deals with all aspects of teaching individual arts and humanities subjects in higher education. Experienced teachers offer authoritative suggestions on how to become critically reflective about discipline-specific practices.

araby james joyce pdf: *Writing Violence and Buddhism in Sri Lanka* Nimmi N. Menike, 2022-04-19 This book examines the idea of violence in the context of religion and literature. It addresses the question of freedom and peace, and violence, with reference to the Buddhist nationalist discourse in Sri Lanka, against the backdrop of Shyam Selvadurai's novel, *The Hungry Ghosts*. The book discusses love, compassion, emancipation, ethics and responsibility through the concepts of identity, deconstruction and decolonization to view religion as language or writing. With a blend of philosophical insights from Emmanuel Levinas, Jacques Derrida, Maurice Blanchot, and Mahatma Gandhi on ideas of being and the other, differences, nonviolence and forgiveness, it insists on the ethical exigency of reinventing Buddhism in Sri Lanka. Delving into some the central motifs of Selvadurai's novel, suffering, desire, hate, and vengeance, it questions popular Sinhala Buddhist readings to argue for the promise of inclusive and diverse approaches towards various groups, linguistic communities, women, and homosexuality. This book will be useful for scholars and researchers of literature and languages, South Asian literature, literary criticism and theory, linguistics, cultural studies, philosophy, religion, Buddhist studies, diaspora studies, and Sri Lankan literature and sociology.

Plot: Through first-person narration, the reader is immersed at the start of the story in the drab life that people live on North Richmond Street, which seems to be illuminated only by the verve and imagination of the children who, despite the growing darkness that comes during the winter months, insist on playing until [their] bodies glowed. Even though the conditions of this neighbourhood leave much to be desired, the children's play is infused with their almost magical way of perceiving the world, which the narrator dutifully conveys to the reader: Our shouts echoed in the silent street. The career of our play brought us through the dark muddy lanes behind the houses where we ran the gantlet of the rough tribes from the cottages, to the back doors of the dark dripping gardens where odours arose from the ashpits, to the dark odorous stables where a coachman smoothed and combed the horse or shook music from the buckled harness. But though these boys career around the neighbourhood in a very childlike way, they are also aware of and interested in the adult world, as represented by their spying on the narrator's uncle as he comes home from work and, more importantly, on Mangan's sister, whose dress swung as she moved and whose soft rope of hair tossed from side to side. These boys are on the brink of sexual awareness and, awed by the mystery of the opposite sex, are hungry for knowledge. On one rainy evening, the boy secludes himself in a soundless, dark drawing-room and gives his feelings for her full release: I pressed the palms of my hands together until they trembled, murmuring: O love! O love! many times. This scene is the

culmination of the narrator's increasingly romantic idealization of Mangan's sister. By the time he actually speaks to her, he has built up such an unrealistic idea of her that he can barely put sentences together: When she addressed the first words to me I was so confused that I did not know what to answer. She asked me if I was going to Araby. I forget whether I answered yes or no. But the narrator recovers splendidly: when Mangan's sister dolefully states that she will not be able to go to Araby, he gallantly offers to bring something back for her.

araby james joyce pdf: Post-Truth Evan Davis, 2017-05-11 'A Malcolm Gladwell-style social psychology/behavioural economics primer' Evening Standard Low-level dishonesty is rife everywhere, in the form of exaggeration, selective use of facts, economy with the truth, careful drafting - from Trump and the Brexit debate to companies that tell us 'your call is important to us'. How did we get to a place where bullshit is not just rife but apparently so effective that it's become the communications strategy of our times? This brilliantly insightful book steps inside the panoply of deception employed in all walks of life and assesses how it has come to this. It sets out the surprising logic which explains why bullshit is both pervasive and persistent. Why are company annual reports often nonsense? Why should you not trust estate agents? And above all, why has political campaigning become the art of stretching the truth? Drawing on behavioural science, economics, psychology and of course his knowledge of the media, Evan ends by providing readers with a tool-kit to handle the kinds of deceptions we encounter every day, and charts a route through the muddy waters of the post-truth age.

araby james joyce pdf: *Suspicious Readings of Joyce's Dubliners* Margot Norris, 2003 Because the stories in James Joyce's *Dubliners* seem to function as models of fiction, they are able to stand in for fiction in general in their ability to make the operation of texts explicit and visible. Joyce's stories do this by provoking skepticism in the face of their storytelling. Their narrative unreliabilities--produced by strange gaps, omitted scenes, and misleading narrative prompts--arouse suspicion and oblige the reader to distrust how and why the story is told. As a result, one is prompted to look into what is concealed, omitted, or left unspoken, a quest that often produces interpretations in conflict with what the narrative surface suggests about characters and events. Margot Norris's strategy in her analysis of the stories in *Dubliners* is to refuse to take the narrative voice for granted and to assume that every authorial decision to include or exclude, or to represent in a particular way, may be read as motivated. *Suspicious Readings of Joyce's Dubliners* examines the text for counterindications and draws on the social context of the writing in order to offer readings from diverse theoretical perspectives. *Suspicious Readings of Joyce's Dubliners* devotes a chapter to each of the fifteen stories in *Dubliners* and shows how each confronts the reader with an interpretive challenge and an intellectual adventure. Its readings of *An Encounter*, *Two Gallants*, *A*

Painful Case, A Mother, The Boarding House, and Grace reconceive the stories in wholly novel ways--ways that reveal Joyce's writing to be even more brilliant, more exciting, and more seriously attuned to moral and political issues than we had thought.

Ecriture avant tout insidieuse où les oeuvres dissimulent une complexité derrière une façade de simplicité. Ecriture parodique où les oeuvres renvoient parfois à leur propre écriture certains moments paraissent être des réécritures d'autres moments. Ecriture minutieuse où fourmillent les détails, les deux oeuvres créent un système respectif de reflets et d'échos. Les nouvelles et le roman posent la question des rapports entre le tout et ses parties -question fondamentale dans ces oeuvres dont l'élucidation passe par la reconnaissance de leur système de symétrie et d'entrecroisements méticuleusement voulu par Joyce.
