bartleby scrivener pdf: *Bartleby, o Escrivão* Herman Melville, 2022-07-19 Melville é único entre os seus grandes contemporâneos do século XIX – Scott, Balzac, Dickens, Dostoevski, Hardy. Dan McCall *Bartleby, O Escrivão* – Uma História de Wall Street valeu a Melville 85 dólares, mas valeria ao mundo uma «Indústria Bartleby» que ainda hoje não se esgota e que explora os limites da ficção e da biografia, dando origem a todo o tipo de teorias interpretativas que alimentam os estudos melvilianos desde 1924, altura da sua redescoberta. Em *Bartleby*, a personagem que lhe dá título é um jovem pálido com um ar de respeitável tristeza que inicialmente realizava uma quantidade extraordinária de trabalho no escritório de um advogado, mas que, de repente, recusa um pedido do patrão dizendo, num tom de voz singularmente suave, mas firme, «Preferia não o fazer.» Esta frase e esta insólita atitude do trabalhador de persistente relutância dão corpo a uma narrativa em que ironia, surpresa e a sombra da tragédia se cruzam. Depois de lermos este livro, *Bartleby* entra, para sempre, nas nossas vidas e no nosso imaginário.

bartleby scrivener pdf: *Human Strike and the Art of Creating Freedom* Claire Fontaine, 2020-12-29 The first English-language publication of writings by the collective artist Claire Fontaine, addressing our complicity with anything that limits our freedom. This anthology presents, in

chronological order, all the texts by collective artist Claire Fontaine from 2004 to today. Created in 2004 in Paris by James Thornhill and Fulvia Carnevale, the collective artist Claire Fontaine creates texts that are as experimental and politically charged as her visual practice. In these writings, she uses the concept of "human strike" and adopts the radical feminist position that can be found in *Tiqqun*, a two-issue magazine cofounded by Carnevale. Human strike is a movement that is broader and more radical than any general strike. It addresses our inevitable subjective complicity with everything that limits our freedom and shows how to abandon these self-destructive behaviors through desubjectivization. Human strike, Claire Fontaine writes, is a subjective struggle to separate from the inevitable harm we do to ourselves and others simply by living within postindustrial neoliberalism. Human Strike is the first English-language publication of Claire Fontaine's influential and important theoretical writings.

It examines a number of institutions and practices now being built in the nooks and crannies of present societies and that point beyond capitalism toward a more equal, participatory, and democratic society – institutions such as cooperatives, public banks, the commons, economic democracy. This seminal collection of critical studies draws on academic and activist voices from the U.S. and Canada, Mexico, Cuba, and Argentina, and from a variety of theoretical-political perspectives – Marxism, anarchism, feminism, and Zapatismo.

bartleby scrivener pdf: Lacan and the Environment Clint Burnham, Paul Kingsbury, 2021-07-15 In this exciting new collection, leading and emerging Lacanian scholars seek to understand what psychoanalysis brings to debates about the environment and the climate crisis. They argue that we cannot understand climate change and all of its multifarious ramifications without first understanding how our terrifying proximity to the real undergirds our relation to the environment, how we mistake lack for loss and mourning for melancholy, and how we seek to destroy the same world we seek to protect. The book traces Lacan's contribution through a consideration of topics including doomsday preppers, forest suicides, Indigenous resistance, post-apocalyptic films, the mathematics of climate science, and the relevance of Kant. They ask: What can you do if your neighbour is a climate change denier? What would Bartleby do? Does the animal desire? Who is cleaning up all the garbage on the internet? Why is the sudden greening of the planet under COVID-19 no help whatsoever? It offers a timely intervention into Lacanian theory, environmental studies, geography, philosophy, and literary studies that illustrates the relevance of psychoanalysis to current social and environmental concerns.

bartleby scrivener pdf: Earshot Bruce Johnson, 2023-04-14 Earshot: Perspectives on Sound awakens an understanding of the decisive role that sound has played in history and culture. Although beginning with reference to antiquity, the primary focus is the changing status of sound and hearing in Western culture over the last six hundred years, covering the transition from the medieval period to the contemporary world. Since mythic times, sound has been an essential element in the formation of belief systems, personal and community identities and the negotiations between them. The varied case studies included in the book cover major reference points in the changing politics of sound, particularly in relation to the status of the other major conduit of social transactions, vision. Earshot is not a work of cultural theory but is anchored in social practices and material culture and is therefore a valuable resource for conveying sound to both undergraduate students as well as the general reader.

bartleby scrivener pdf: *Urban Arabesques* Gray Kochhar-Lindgren, 2020-02-14 *Urban Arabesques* examines philosophy as an event of the city and the city as an event of philosophy and how the intertwining of the two generates an urban imaginary. This critique-in-motion of creative figures and conceptual personae from (non) philosophy illuminates the emergence of sense in the city, shows how “transcendental empiricism” operates within it, and how the everyday life of the streets—the ordinariness of experience as well as the screen/projector of urban surfaces—uncovers new pathways for politics, experience, and relationalities. Using Hong Kong as the primary site of thinking yet recognizing that thinking incessantly moves beyond any particular location, the book opens up cities within the city. Traversing Hong Kong reveals how the corners, the money, the trees and the water are involved in philosophy. Combining the linguistic approach found in Heidegger and Derrida, with the more materialist analysis of Serres and Deleuze, the objective of this book is to retheorize the urban and its imaginary—its virtuality, irreality, phantasmicity—with an emphasis on signs, images and rhythms, resonating through philosophy, and beyond.

bartleby scrivener pdf: *Catastrophe and Redemption* Jessica Whyte, 2013-12-01 Offers a striking new reading of Agamben’s political thought and its implications for political action in the present. Challenging the prevalent account of Agamben as a pessimistic thinker, *Catastrophe and Redemption* proposes a reading of his political thought in which the redemptive element of his work is not a curious aside but instead is fundamental to his project. Jessica Whyte considers his critical account of contemporary politics—his argument that Western politics has been “biopolitics” since its inception, his critique of human rights, his argument that the state of exception is now the norm, and the paradigmatic significance he attributes to the concentration camp—and shows that it is in the midst of these catastrophes of the present that Agamben sees the possibility of a form of profane redemption. Whyte outlines the importance of potentiality in his attempt to formulate a new politics, examines his relation to Jewish and Christian strands of messianism, and interrogates the new forms of praxis that he situates within contemporary commodity culture, taking Agamben’s thought as a call for the creation of new political forms.

bartleby scrivener pdf: *Faustian Pact in International Law* Edwin Bikundo, 2024-05-31 The book provides an original and captivating perspective on international law and Giorgio Agamben's work. The manuscript is profoundly aesthetic-textual in its approach, as exemplified in its deft and insightful close readings of drama (Goethe's *Faust*), prose fiction (Melville's *Bartleby* and Benito Cereno) and lyric, be it devotional (Laudes Regiae, Handel, 'The Lord is a Man of War') or otherwise (Edwin Starr's 'War', Boy George's 'War Song'). Attentive to language, plot, theme and characterisation, these readings not only read the texts in question, but they also read them anew, yielding fresh, innovative, and unique cultural legal interpretations.

bartleby scrivener pdf: *Marxist Literary Criticism Today* Barbara Foley, 2019-02-20 *Winner of the CHOICE Outstanding Academic Book Prize, 2019* *Shortlisted for the Isaac Deutscher Prize 2019* Why Marxism? Why today? In the first introduction to Marxist literary criticism to be published in decades, Barbara Foley argues that Marxism continues to offer the best framework for exploring the relationship between literature and society. She lays out in clear terms the principal aspects of Marxist methodology - historical materialism, political economy and ideology critique - as well as key debates, among Marxists and non-Marxists alike, about the nature of literature and the goals of literary criticism and pedagogy. Foley examines through the empowering lens of Marxism a wide range of texts: from Jane Austen's *Pride and Prejudice* to E. L. James's *Fifty Shades of Grey*; from Frederick Douglass's 'What to the Slave Is the Fourth of July?' to Annie Proulx's 'Brokeback Mountain'; from W.B. Yeats's 'The Second Coming' to Claude McKay's 'If We Must Die'.

bartleby scrivener pdf: *Layered Landscapes Lofoten* Magdalena Haggärde, Gisle Løkken, 2019-03-01 This book discusses approaches towards landscapes under pressure and transformation, and the importance of unprejudiced and experimental investigations to reveal its natural and cultural complexity. *Layered Landscapes Lofoten, Understanding of Complexity, Otherness and Change* aims to challenge internalized concepts about how landscapes are considered and

investigated, to open for alternative research, and legitimize subjective, singular and experimental approaches as valid and appreciated as a foundation for an informed process. These approaches take into consideration both the landscape and the practices taking place in the landscape, that are consistently full of individual and collective stories and experiences—the complexity created in both time and space, which influences our societies not only as traces of historical events, but as present realities and even expectations and what is to become. Under the concepts of complexity, imbrication, vulnerability, fieldwork, flexibility and reorientation ideas are developed, all based in the contemporary and historic layers of the dramatic and contested landscapes of the Lofoten Islands in Northern Norway—where pressure from political decisions and structural changes, increasing tourism, a potential new oil industry and uncontrollable global forces' impact on nature and societies and cause continuous transformation and alteration of landscapes and topography, surrounding the traditional and modern fishing communities.

bartleby scrivener pdf: Resistant Form: Aristophanes and the Comedy of Crisis Mario Telò, 2023 Can attending to poetic form help us imagine a radical politics and bridge the gap between pressing contemporary political concerns and an ancient literature that often seems steeped in dynamics of oppression? The corpus of the fifth-century Athenian playwright Aristophanes includes some of the funniest yet most disturbing comedies of Western literature. His work's anarchic experimentation with language invites a radically "oversensitive" hyperformalism, a formalistic overanalysis that disrupts, disables, or even abolishes a range of normativities (government, labor, reproduction, gender). Exceeding not just historicist contextualism, but also conventional notions of laughter and the logic of the joke, *Resistant Form: Aristophanes and the Comedy of Crisis* uses Aristophanes to fully embrace, in the practice of close or "too-close" reading, the etymological and conceptual nexus of crisis, critique, and literary criticism. These exuberant readings of *Birds*, *Frogs*, *Lysistrata*, and *Women at the Thesmophoria*, together with the first attempt ever to grapple with the comic style of critical theorists Gilles Deleuze, Achille Mbembe, and Jack Halberstam, connect Aristophanes with contemporary discourses of biopolitics, necrocitizenship, care, labor, and transness, and at the same time disclose a quasi- or para-Aristophanic mode in the written textures of critical theory. Here is a radically new approach to the literary criticism of the pre-modern – one that materializes the circuit of crisis and critique through a restless inhabitation of the becomings and unbecomings of comic form.

bartleby scrivener pdf: Negative Capitalism J.D. Taylor, 2013-03-27 Negative Capitalism: Cynicism in the Neoliberal Era offers a new conceptual framework for understanding the current economic crisis. Through a ranging series of analyses and perspectives, it argues that cynicism has become culturally embedded in the UK and US as an effect of disempowerment by neoliberal capitalism. Yet despite the deprivation and collapse of key social infrastructure like representative democracy, welfare, workers' rights and equal access to resources, there has so far been no collective, effective and sustained overthrow of capitalism. Why is this? The book's central call is for new strategies that unravel this narcissistic cynicism, embracing social democracy, constitutional rights, mass bankruptcies and animate sabotage. Kafka, Foucault, Ballard and de Sade are clashed with the X-Factor, ruinporn, London, and the artwork of Laura Oldfield Ford. Negative Capitalism's polemic is written to incite responses against the cynical malaise of the neoliberal era. ,

bartleby scrivener pdf: Roads Penny Harvey, Hannah Knox, 2015-11-06 Roads matter to people. This claim is central to the work of Penny Harvey and Hannah Knox, who in this book use the example of highway building in South America to explore what large public infrastructural projects can tell us about contemporary state formation, social relations, and emerging political economies. *Roads* focuses on two main sites: the interoceanic highway currently under construction between Brazil and Peru, a major public/private collaboration that is being realized within new, internationally ratified regulatory standards; and a recently completed one-hundred-kilometer stretch of highway between Iquitos, the largest city in the Peruvian Amazon, and a small town called Nauta, one of the earliest colonial settlements in the Amazon. The Iquitos-Nauta highway is one of the most expensive roads per kilometer on the planet. Combining ethnographic and historical

research, Harvey and Knox shed light on the work of engineers and scientists, bureaucrats and construction company officials. They describe how local populations anticipated each of the road projects, even getting deeply involved in questions of exact routing as worries arose that the road would benefit some more than others. Connectivity was a key recurring theme as people imagined the prosperity that will come by being connected to other parts of the country and with other parts of the world. Sweeping in scope and conceptually ambitious, *Roads* tells a story of global flows of money, goods, and people—and of attempts to stabilize inherently unstable physical and social environments.

bartleby scrivener pdf: The Syllabus as Curriculum Samuel D. Rocha, 2020-07-30 Can the syllabus constitute the curriculum? In this volume, Rocha explores curriculum theory through the lens of the syllabus. By critiquing curriculum studies and the entire field of education, overrun by the social sciences, Rocha provides an integrated vision of philosophy of education and curriculum theory, rooted in the humanities. Through an original reconceptualization, this text draws from a broad range of sources – ranging from Classical Antiquity to the present – offering a rich context for understanding curriculum as a philosophically salient concept, contained within the syllabus. The *Syllabus as Curriculum* features actual syllabi created and taught by the author in undergraduate and graduate courses at the University of British Columbia, Canada. These curated syllabi work as exemplars and media, supported by pedagogical commentary and context. Inspired by Augustine's *Confessions*, each part of the book culminates in a metaphorical garden, which serves as a meditation on the syllabus in three senses: correspondence, essay, and outline. An original, powerful, and corrective contribution to the literature on curriculum studies, this work invites teachers and scholars from across the foundations of education, especially philosophy of education, art education, and those invested in curriculum theory, to see their contribution in more direct and integral ways.
