The Work: La Tortuga Ecuestre

Overview of "La Tortuga Ecuestre"

"La Tortuga Ecuestre" is a poetic and artistic piece that exemplifies Moro's surrealist approach. The title, translating to "The Equestrian Turtle," immediately evokes an image of surreal hybridization—combining the slow, grounded nature of a turtle with the dynamic, elevated motion of a horse.

This work is often presented as a visual-poetic collage, integrating text, drawings, and symbolic imagery. It challenges traditional narrative structures, instead offering a fluid, dreamlike exploration of themes like time, transformation, and the subconscious.

Content and Themes

- Surrealist Symbolism: The turtle and horse symbolize contrasting qualities—stability versus movement, earth versus sky, groundedness versus aspiration.
- Transformation and Identity: The hybrid creature embodies fluidity in identity and the possibility of metamorphosis.
- Time and Memory: The work explores how memory distorts reality, creating layered perceptions.
- Freedom and Constraint: The image of a turtle riding a horse can evoke notions of liberation, yet also the heavy burden of history and tradition.

These themes resonate through Moro's poetic language and visual motifs, inviting readers into a dreamscape where meaning is open-ended and subjective.

"La Tortuga Ecuestre" employs techniques typical of surrealist art, such as:

- Juxtaposition: Combining unrelated figures to create startling images.
- Metaphorical Language: Using poetic metaphors that evoke multiple interpretations.
- Collage and Montage: Incorporating cut-outs, sketches, and layered visuals to produce a textured, multi-dimensional piece.

c sar moro la tortuga ecuestre pdf: Nuevas aproximaciones a viejas polémicas:
cine/literatura Giovanna Pollarolo, 2019-07-04 Los artículos reunidos en este libro estudian la relación entre el cine y la literatura desde herramientas teóricas y enfoques que rompen los estrechos límites comparativos y valorativos de un tema que parecía ya agotado. Si bien la polémica gira en torno a la fidelidad-infidelidad de la adaptación frente al original, este libro ofrece acercamientos que enriquecen el nexo entre la letra y la imagen, y pueden ser de interés para estudiantes, profesores, lectores y espectadores.

c sar moro la tortuga ecuestre pdf: Delirio americano Carlos Granés, 2022-01-27 Disfruten con la fantasía de los creadores latinoamericanos y observen las nefastas consecuencias del ensueño de los políticos. Y cómo a veces ambos delirios han ido de la mano. Carlos Granés, uno de los pensadores más sólidos y originales de la actualidad, recompone con gran pulso narrativo el inmenso, intrincado y exuberante rompecabezas del largo siglo xx en América Latina. Por primera vez, los lectores pueden recorrer en un mismo relato las etapas, las fuerzas y los acontecimientos de una historia siempre contada de manera fragmentaria y profundamente marcada por las complejas relaciones entre cultura y política. El ensayo traza unas sorprendentes conexiones, evidencia reveladoras contradicciones y retrata a figuras como José Martí, César Vallejo, Nahui Olín, Juan Domingo Perón, García Márquez, Doris Salcedo o Caetano Veloso. Desde las primeras reivindicaciones de una América Latina con identidad propia por parte de poetas y ensayistas, pasando por el surgimiento del comunismo y el fascismo y la irrupción del populismo en el subcontinente, hasta la resaca del boom, las nuevas tensiones entre lo local y lo global y la muerte de Fidel Castro en 2016, el libro rastrea el papel de las ideas y las artes en la invención de América

Latina y en la construcción de las identidades nacionales durante las diversas dictaduras y revoluciones. Granés da cuenta con brillantez de la influencia del surrealismo, cuyo impacto decisivo fue también político, pues dio lugar a una alternativa individualista, libertaria e imaginativa a las ideologías totalitarias que derivaría en una izquierda heterodoxa y en el liberalismo. Delirio americano es un maravilloso fresco, admirablemente contado, que amplía nuestra mirada sobre un subcontinente cuya historia y cuyo destino afectan a las prácticas políticas y culturales de todo Occidente. La crítica ha dicho: «Carlos Granés es en mi opinión uno de los mejores ensayistas de nuestra lengua. Sus libros están escritos en una prosa precisa y flexible, prodigan ideas frescas y son capaces de abrir perspectivas nuevas sobre viejos problemas.» Javier Cercas «Uno de los ensayos más ricos e iluminadores que he leído en mucho tiempo. Se abre paso como una cuchilla a través de la distorsión de los sectarismos y las tonterías de la corrección política. Hay mucho que aprender en este libro». Juan Gabriel Vásquez, El País «Un libro urgente, original y necesario, escrito sin simplezas ni lagunas ideológicas». Karina Sains Borgo, ABC «Granés es uno de los mejores ensayistas actuales, un escritor brillante y perspicaz». El Confidencial «No creo que nadie haya trazado un fresco tan completo, animado y lúcido sobre todas las vanguardias artísticas del siglo XX. Lo he leído con la felicidad y la excitación con que leo las mejores novelas». Mario Vargas Llosa, sobre El puño invisible «Granés vuelve a dar en el clavo con un ensayo capaz de captar la atención del lector sobre un tema de actualidad y enorme alcance». Forbes, sobre Salvajes de una nueva época «Ameno y riguroso ensayo sobre la liaison de la cultura, el capitalismo y la política». ABC, sobre Salvajes de una nueva época
