case documentation in counseling and psychotherapy pdf: Ethical Issues in Counselling and Psychotherapy Practice Poornima Bhola, Ahalya Raguram, 2016-10-20 This edited volume comprehensively examines the critical ethical challenges that arise in the practice of counselling and psychotherapy. It translates philosophical positions and professional ethical guidelines in a way that can be applied to practice. The various chapters focus on specific ethical issues that emerge in working with a range of different client groups; for example, children, couples and families. While some ethical imperatives are common across the board, others could be more closely associated with certain client groups. Practitioners might experience uncertainty in working with vulnerable client groups; for example, lesbian/gay/transgender/intersex (LGBT) clients, or persons who report intimate partner violence. Several chapters raise questions, provide information and additional resources to enhance ethically informed practice. Chapter contributions also highlight the ethical dilemmas that might be unique to certain contexts; for example, private practice, schools and consultation-liaison settings. This volume also addresses contemporary and relatively less understood playing fields like 'digital ethics' related to therapist-client interface in the internet space and the navigation of ethical dilemmas in the newly emerging field of employee assistance programmes which address mental health needs in the corporate sector. Written by experienced practitioners of psychotherapy, and culturally contextualized, this is a valuable resource for academics and practitioners interested in psychotherapy and counselling.

İnsanların dünyaya geldiği ilk ortamın aile olması, aile özelliklerinin, yetiştirme stillerinin, geleneksel olarak aktarılan değerlerin, aile içerisindeki iletişim ve etkileşimlerin bireylerin gelişiminde ve psikolojik anlamda sağlıklı bireyler olmalarındaki hayati rolü ve önemi dikkate alındığında aile terapilerinin gerekliliği ön plana çıkmaktadır. Bu çerçevede bu kitap öncelikle temel aile terapisi kuramlarının manevi yönelimli bir perspektiften ele alınmasını sağlamakta ardından aile içerisinde yaşanabilecek birçok duruma ilişkin manevi yönelimli bir bakış açısı sağlayarak teori ve uygulama noktasında çeşitli katkılar sunmayı amaçlamaktadır. Başta PDR ve Psikoloji olmak üzere tüm ruh sağlığı alanında eğitim gören bireyler ve alanda çalışan uzmanlar için aile terapisinin manevi boyutuna ışık tutmayı amaçlayan kitap, uygulamalar ve vaka örnekleri ile zenginleştirilmiştir.
