civil war and reconstruction answer key pdf: *After Civil War* Bill Kissane, 2015 Civil war inevitably causes shifts in state boundaries, demographics, systems of rule, and the bases of legitimate authority—many of the markers of national identity. Yet a shared sense of nationhood is as important to political reconciliation as the reconstruction of state institutions and economic security. *After Civil War* compares reconstruction projects in Bosnia, Cyprus, Finland, Greece, Kosovo, Northern Ireland, the Republic of Ireland, Spain, and Turkey in order to explore how former combatants and their supporters learn to coexist as one nation in the aftermath of ethnopolitical or ideological violence. *After Civil War* synthesizes research on civil wars, reconstruction, and nationalism to show how national identity is reconstructed over time in different cultural and socioeconomic contexts, in strong nation-states as well as those with a high level of international intervention. Chapters written by anthropologists, historians, political scientists, and sociologists examine the relationships between reconstruction and reconciliation, the development of new party systems after war, and how globalization affects the processes of peacebuilding. *After Civil War* thus provides a comprehensive, comparative perspective to a wide span of recent political history, showing postconflict articulations of national identity can emerge in the long run within conducive institutional contexts. civil war and reconstruction answer key pdf: The Liberal Peace and Post-War Reconstruction Roger MacGinty, Oliver Richmond, 2013-09-13 The post-Cold War has witnessed enormous levels of western peacekeeping, peacemaking and reconstruction intervention in societies emerging from war. These western-led interventions are often called 'liberal peacebuilding' or 'liberal interventionism', or statebuilding, and have attracted considerable controversy. In this study, leading proponents and critics of the liberal peace and contemporary post-war reconstruction assess the role of the United States, European Union and other actors in the promotion of the liberal peace, and of peace more generally. Key issues, including transitional justice and the acceptance/rejection of the liberal peace in African states are also considered. The failings of the liberal peace (most

notably in Iraq and Afghanistan, but also in other locations) have prompted a growing body of critical literature on the motivations, mechanics and consequences of the liberal peace. This volume brings together key protagonists from both sides of the debate to produce a cutting edge, state of the art discussion of one the main trends in contemporary international relations. This book was originally published as a special issue of *Global Society*.

civil war and reconstruction answer key pdf: Deconstructing the Reconstruction Dina Francesca Haynes, 2016-12-05 Bringing together a range of contributors from multiple countries, this interdisciplinary volume offers a unique field view of the rule of law and human rights reform in the reconciliation and reconstruction process. The contributors all worked in Bosnia and Herzegovina during the ten years after the Dayton Peace Accords were signed; here they pause to analyze and critique the work they did. The contributors offer insights from within a variety of international organizations, including the Office of the High Representative, the Organization for Security and Cooperation in Europe, and the United Nations. Allowing those who were in the field to identify, discuss and reflect upon the programmes and policies, the collection reveals how the programmes were created, what laws they were pursuant to, and what alternatives were rejected and why. The authors not only assess both the positive and negative aspects and outcomes of their work, but also comment on lessons learned for future post-conflict reconstruction scenarios.

civil war and reconstruction answer key pdf: The Civil War in Bosnia and Herzegovina (1992-95) Viktor Bezručenko, 2022 The war in Bosnia and Herzegovina (1992-1995) was the bloodiest and most savage conflict in post-WWII Europe. While numerous books and articles on the subject exist, this book fills an important void by comprehensively addressing the intricacies of the conflict's political, historic, military, and diplomatic factors. The brutal civil war triggered by the demise of Yugoslavia. Based on documents and eyewitness accounts, the book covers the ideologies, hidden agendas, military operations, covert actions, and diplomacy that resulted in the Dayton Peace Accords of 1995. It also includes the geography, population, and tumultuous history of Bosnia and Herzegovina. The author convincingly dispels myths related to the war, including pre-planned Serbian aggression, the siege of Sarajevo, the massacres of civilians in the UN "safe areas" of Srebrenica and Žepa, and Slobodan Milošević's role.

civil war and reconstruction answer key pdf: Sovereignty, Space and Civil War in Sri Lanka Anoma Pieris, 2018-10-25 Analyses of the Sri Lankan civil war (1983-2009) overwhelmingly represent it as an ethnonationalist contest, prolonging postcolonial arguments on the creation and dissolution of the incipient nation-state since independence in 1948. While colonial divide-and-rule policies, the rise of ethnonationalist lobbies, structural discrimination and majoritarian democracy have been established as grounds for inter-ethnic hostility, there are other significant transformative forces that remain largely unacknowledged in postcolonial analyses. This ambitious multiscale spatial study of civil war in Sri Lanka offers an intersectional, de-ethnicised analysis of political sovereignty drawn out by the struggle for territory. Based on vital retrospective findings from the five-year postwar period, when wartime hostilities were still festering, it convincingly links ethnonationalism to postnational border politics, marketisation, militarised securitisation and illiberal democracy. This book argues that internecine conflict exposes the implicit violence within nation-state formations; mass human displacements heighten collective and individual ontological insecurity and neoliberalism makes the nation porous in unforeseen ways. Based around three themes – normative spaces, human mobilities and exilic states – it is organised into ten

comprehensive, chapter-based explorations of a range of spatial units, including homes, cities, routes, camps and experiences of ruin that were irrevocably politicised by protracted conflict. Focusing on their material transformations over a thirty-seven-year period, the book explores what can be known of the war if we look beyond ethnicity to other salient, shared geographical features of this embattled history. The book uncovers how fealty to exclusionary cultures of political sovereignty aligns us with their violence, limiting our capacity for empathy, a boundary seemingly exacerbated by neoliberal opportunities. Making use of Sri Lanka as a case study to test geographic, architectural and urban methodologies for understanding violence, this book acts as a provocation to rethink current readings of the particular case study while reflecting on the more general impact of marketisation and militarisation in Asia. It will be of interest to an interdisciplinary audience, including those scholars interested in South Asian history, politics and civil war, South Asian studies, border studies, geography and architecture and urban studies.

civil war and reconstruction answer key pdf: Assessing Multiculturalism in Global Comparative Perspective Yasmeen Abu-Laban, Alain-G Gagnon, Arjun Tremblay, 2022-12-30 In *Assessing Multiculturalism in Global Comparative Perspective*, a group of leading scholars come together in a multidisciplinary collection to assess multiculturalism through an international comparative perspective. Multiculturalism today faces challenges like never before, through the concurrent rise of populism and white supremacist groups, and contemporary social movements mobilizing around alternative ideas of decolonization, anti-racism and national self-determination. Taking these challenges head on, and with the backdrop that the term multiculturalism originated in Canada before going global, this collection of chapters presents a global comparative view of multiculturalism, through both empirical and normative perspectives, with the overarching aim of comprehending multiculturalism's promise, limitations, contemporary challenges, trajectory and possible futures. Collectively, the chapters provide the basis for a critical assessment of multiculturalism's first 50 years, as well as vital insight into whether multiculturalism is best equipped to meet the distinct challenges characterizing this juncture of the 21st century. With coverage including the Americas, Europe, Oceania, Africa and Asia, and thematic coverage of citizenship, religion, security, gender, Black Lives Matter and the post-pandemic order, *Assessing Multiculturalism in Global Comparative Perspective* presents a comprehensively global collection that is indispensable reading for scholars and students of diversity in the 21st century.

civil war and reconstruction answer key pdf: Securing Peace in Angola and Mozambique Miranda Melcher, 2024-03-21 This book helps explain how and why there are such diverging outcomes of UN peace negotiations and treaties through a detailed examination of peace processes in the Angolan and Mozambican civil wars. Does it really matter what's written on page 36, protocol V, section III, point 5 of a UN-endorsed peace treaty? Dr. Miranda Ruwart Melcher shows that seemingly small details - such as who wears suits, who has toothbrushes, and how specific words are translated between French and English - can and have delayed peace or contributed to restarting wars. Dr. Melcher uses unique primary source data, including interviews with key actors who have participated in peace treaty negotiations, as well as thousands of previously newly opened UN documents. She argues that treaty specificity is an undervalued - but important - factor in researching the success or failure of peace processes. The book offers new insights and policy recommendations for key details whose presence or absence can have a significant impact on how peace processes unfold.

civil war and reconstruction answer key pdf: *Spoils of War in the Arab East* Aziz Al-Azmeh, Harout Akdedian, Haian Dukhan, 2024-01-11 Post-conflict scenarios are often proposed for Arab countries that have witnessed significant changes and civil wars. Yet the plans for reconciliation, transitional justice, and the return of the displaced often overlook the real conditions that make these recommendations impossible. This book provides a critical analysis of current post-conflict frameworks for Syria and Iraq. Drawing on empirical research, the book shows that reconciliation and reconstruction scenarios need to be considered alongside the realities on the ground. It argues that Iraq and Syria exist in a condition of 'conflict transformation' rather than of 'conflict termination', because the extreme changes that accompanied these countries into war continue long after the conflicts end. Furthermore, the chapters highlight why experts should not seek solutions in culturalist terms and ancestral enmities, or rely on the wartime status quo. Rather, they should look to the specific military, political, economic and socio-cultural conditions that require different solutions. A critical analysis of existing post-conflict frameworks, their applicability and their potential outcomes in Iraq and Syria, the book is a vital contribution to post-conflict studies. It highlights the need for new approaches to reconstruction and peacebuilding in Arab countries and points to how they should be found.

civil war and reconstruction answer key pdf: Youth at the Margins ELENA SÁNCHEZ-MONTIJANO, Jose SÁNCHEZ GARCÍA, 2019-01-23 The 2011 Arab uprisings led to a great proliferation of studies on the situations in the Arab countries of the Mediterranean, with particular attention given to their young people, whose role was particularly central. Eight years on, in-depth exploration is still needed of the conditions in which millions of (mainly young) people demanded change. In this context, this volume examines the state and diversity of the forms of socioeconomic, political and cultural marginalization facing the region's young men and women, as well as the strategies and routes of contestation by which they escape them. Through the interdisciplinary empiricism of this book, based on the results emerging from the SAHWA Project (funded by the European Commission under the Seventh Framework Programme, grant agreement no 613174), we aspire to build a complex description and analysis of the current situation of the Arab Mediterranean youth. The aim is to fathom out young people's patterns, agency and living conditions, focusing on the relational character of the juvenile worlds actively constructed by themselves. The authors explore the main trends that are reflected in the social strategies, cultural constructions and changes within the Arab youth population, and whether the creation of new lifestyles and the emergence of youth cultures are an indicator of sociopolitical transitions. To answer all these questions the researchers have conducted a comprehensive study in five Arab Mediterranean countries: Algeria, Egypt, Lebanon, Morocco and Tunisia. Based on mixed method research the data collection is composed of two primary sources: the SAHWA Youth Survey 2016 (2017), in which 10,000 young people were interviewed; and the SAHWA Ethnographic Fieldwork 2015, involving more than 200 young people.
