in christ alone lyrics and chords: Flannery at the Grammys Irwin H. Streight, 2024-06-20 A devout Catholic, a visionary—and some say prophetic—writer, Flannery O'Connor (1925–1964) has gained a growing presence in contemporary popular culture. While O'Connor professed that she did not have an ear for music, allusions to her writing appear in the lyrics and narrative form of some of the most celebrated musicians on the contemporary music scene. Flannery at the Grammys sounds

the extensive influence of this southern author on the art and vision of a suite of American and British singer-songwriters and pop groups. Author Irwin H. Streight invites critical awareness of O'Connor's resonance in the products of popular music culture—in folk, blues, rock, gospel, punk, heavy metal, and indie pop songs by some of the most notable figures in the popular music business. Streight examines O'Connor's influence on the art and vision of multiple Grammy Award winners Bruce Springsteen, Lucinda Williams, R.E.M., and U2, along with celebrated songwriters Nick Cave, PJ Harvey, Sufjan Stevens, Mary Gauthier, Tom Waits, and others. Despite her orthodox religious, and at times controversial, views and limited literary output, O'Connor has left a curiously indelible mark on the careers of the successful musicians discussed in this volume. Still, her acknowledged influence and remarkable presence in contemporary pop and rock songs has not been well noted by pop music critics and/or literary scholars. Many years in the making, *Flannery at the Grammys* achieves groundbreaking work in cultural studies and combines in-depth literary and pop music scholarship to engage the informed devotee and the casual reader alike.

in christ alone lyrics and chords: *Christianity in a Time of Climate Change* Kristen Poole, 2020-04-17 What does climate change have to do with religion and spirituality? Even though a changing environment will have a dire impact on human populations--affecting everything from food supply to health to housing--the vast majority of Americans do not consider climate change a moral or a religious issue. Yet the damage of climate change, a phenomenon to which we all contribute through our collective carbon emissions, presents an unprecedented ethical problem, one that touches a foundational moral principle of Christianity: Jesus's dictate to love the neighbor. This care for the neighbor stretches across time as well as space. We are called to care for the neighbors of the future as well as those of the present. How can we connect the ethical considerations of climate change--the knowledge that our actions directly or indirectly cause harm to others--to our individual and collective spiritual practice? *Christianity in a Time of Climate Change* offers a series of reflective essays that consider the Christian ethics of climate change and suggest ways to fold the neighbors of the future into our spiritual lives as an impetus to meaningful personal, social, and ultimately environmental transformations.
