livres samuel huntington pdf: Le Complexe occidental Alexandre Del Valle, 2014-03-12 Géopolitique, désinformation et guerre psychologique. Voici le premier manuel de contre-désinformation à l'usage de nos sociétés occidentales, victimes du virus de la culpabilisation collective. Véritable arme de «destruction massive», cette culpabilisation est mise en oeuvre sous la forme de «mythes fondateurs» que l'auteur analyse un à un : les croisades, les «ténèbres» du Moyen âge, la diabolisation de l'Eglise catholique, la dette envers la science arabo-musulmane, Al-Andalus, les accusations d'esclavagisme, de colonialisme et de racisme à sens unique, la mondialisation heureuse et les dérives de l'Union européenne. Persuadé que la «guerre des représentations» ou «guerre mentale» est la clef de tous les conflits, l'auteur va plus loin en identifiant le processus de désinformation à l'origine de cette manoeuvre de déstabilisation collective. D'après Del Valle, la culpabilisation pathologique qui sape les fondements mêmes de nos sociétés ouvertes, est aux antipodes de la saine capacité à s'autocritiquer, car loin d'aider les peuples à tirer les leçons du passé, elle est fondée sur la haine de soi et attise celle de l'Autre envers soi-même. Opposant la culpabilisation identitaire des sociétés européennes à la fierté d'appartenance des nations non-occidentales, l'auteur rappelle qu'il n'y a pas de culpabilisateur efficace sans culpabilisé volontaire... Pour retrouver l'estime de soi, elle-même condition pour être respecté par les autres, Del Valle invite la France et ses alliés occidentaux à mettre en oeuvre d'urgence une thérapie globale de déculpabilisation. Il montre enfin en quoi la survie géopolitique des nations occidentales dans le nouveau contexte multipolaire passe par leur capacité à substituer à leurs prétentions universalistes, souvent contreproductives, un recentrage stratégique et une réappropriation de leur identité propre, dont le monde slavo-orthodoxe, trop souvent diabolisé, est l'un des piliers

livres samuel huntington pdf: The Neighbours of the European Union's Neighbours Sieglinde Gstöhl, Erwan Lannon, 2016-02-24 Should the European Neighbourhood Policy stop at the borders of the European Union's immediate neighbouring countries? This book is the first full length study of the 'neighbours of the EU's neighbours', a concept originally introduced by the European Commission with reference to Saharan Africa, the Middle East and Central Asia. These regions in the EU's broader neighbourhood are often perceived as an 'arc of crisis' from which manifold challenges emanate for Europe. This timely book takes stock of the state of the EU's cooperation with the neighbours of its neighbours and explores how the concept might help promote security, stability and prosperity beyond the countries which are formally part of the European Neighbourhood Policy. How can the EU create bridges between these regions? What instruments does the EU have at its disposal and how can it link them in order to respond to the challenges and overcome the current fragmentation? One of the conclusions is the suggestion to consider a pragmatic 'EU Strategy for the Neighbours of its Neighbours' which addresses the needs of the broader EU neighbourhood in a more systematic and consistent manner and helps transform in the long run the 'arc of crisis' into another 'ring of friends'.

livres samuel huntington pdf: The Balkan Prospect V. Calotychos, 2013-01-21 Following the fall of the Soviet Union in 1989, the borders hitherto separating Greek culture and society from its contiguous Balkan polities came down, and Greeks had to reorient themselves toward their immediate neighbors and redefine their place within Europe and the new, more fluid global order. Projecting the political foresight and mustering the modernization policies to succeed in such an undertaking turned out to be no small feat, especially as the regional conflicts that had lain dormant during the Cold War were revived. Synthesizing the cultural, political, and historical into a sophisticated, interdisciplinary analysis, this innovative study untangles the prolonged 'historical moment' in which Greece and Europe were effectively held hostage to events in the Balkans - just at the time when both hoped to serve as the region's welcoming hosts.

livres samuel huntington pdf: La marche irrésistible du nouvel ordre mondial Pierre Hillard, 2013-05-15 L'accumulation d'images et d'informations qui submerge les esprits, enferme ce qui reste des sociétés contemporaines dans un perpétuel présent sans mémoire - et donc sans avenir lisible, par conséquent sans exercice possible de la liberté. L'objectif des élites mondiales n'est pas de permettre l'émancipation des hommes par la liberté des peuples mais la destruction des peuples pour construire une humanité interchangeable et nomade, docile, disponible pour rentrer dans l'esclavage d'une gouvernante mondiale. Cette gouvernante mondiale est le dernier débris qui surnage du chaos tragique du XXe siècle. La nouvelle édition de ce livre qui a déjà six ans a le mérite rare et irremplaçable de donner à ceux qui ne se sont pas encore résignés à être gouvernés, une grille de lecture et d'analyse d'événements dont la succession accélérée brouille volontairement la lisibilité. La mise en perspective de documents incontestables permet de voir dans l'enchaînement de révolutions, printemps, libérations, unifications continentales la poursuite méthodique d'ambitions planétaires annoncées. Dans la présentation de la première édition de ce livre, l'auteur notait que cette construction babélique passerait délibérément par des étapes bouleversant les structures politico-économiques des sociétés, bouleversements qui ne seraient pas sans conséquences, notamment militaires. Dans ces événements, la vie humaine comptera peu... Cette nouvelle édition mise à jour et complétée confirme la pertinence de cette analyse lucide..

livres samuel huntington pdf: The Haitian Media System and its Main Characteristics: A Model of the Precarious System of Democratic Transition Wisnique Panier, 2023-06-26 This book presents a new theoretical model of a media system called: the model of the precarious system of democratic transition. The latter is based on fifteen parameters that characterize the Haitian media system and the environment in which it evolves. This is a significant contribution to advancing knowledge in media studies and public communication in general. After carefully analyzing different models of media systems existing in the scientific literature, including the three models proposed by Halin and Mancini (2004), the author concludes that none of them applies to the typical Haitian case. His study confirms the limitations of media system models resulting from Halin and Mancini's comparative studies in the context of Western countries. It is a real reference document that gives an unprecedented reading grid to analyze the media systems of non-Western countries, particularly African or Latin American countries, which have characteristics similar to that of Haiti. Indeed, in his doctoral thesis, the author concluded that the Haitian media system has transformed over the past 60 years under the influence of three sets of factors: linguistics, democratic and technological. Nevertheless, he comes to the conclusion that the changes observed are only in the relations between the actors of the system without leading to a reconfiguration of the system. The main characteristics of the Haitian media system and its environment remained unchanged from 1957 to 2022. So, there is an inertia that keeps the system in an initial state.

livres samuel huntington pdf: Le Serlado Gilles Tolède, 2023-07-04 Quelle est donc la raison pour laquelle une partie des élites et des classes moyennes-supérieures d'Europe continentale déprécie tant l'idée de nation souveraine ? Le livre propose d'expliquer cela par une rupture sociolinguistique commencée dans les années 1970. Consciemment ou non, certaines personnes ont remplacé les espérances autour de la nation par un substitut, qui leur fait accepter et même désirer la supranationalité européenne. Le livre explique ces évolutions sociologiques par le fait que la langue anglaise est devenue la seule langue hyper-centrale de l'histoire de l'humanité et que l'Union européenne et le mondialisme s'adosent à ce phénomène. Ceci, couplé à des raisons géopolitiques et économiques, empêche tout retour à la souveraineté nationale des pays européens. Pour dépasser cet obstacle, le livre propose une alternative globale appelée Serlado, qui agit au plan linguistique, ontologique et géopolitique. Par une différenciation primordiale au niveau linguistique, la diversité

civilisationnelle est réhabilitée, sur le plan temporel, mais aussi sur le plan spirituel. Le mondialisme s'en trouve neutralisé, rendant possible un monde véritablement multipolaire, qui concilie la souveraineté nationale et un nouvel internationalisme. Le livre concrétise cette vision par un scénario géopolitique par étapes, initié depuis les pays latins et qui aboutit au Frexit.

livres samuel huntington pdf: *Crises na democracia* Leonardo Avritzer, Alana Fontenelle, Alem Asmelash Werede, Alexandre Arns, Alexandre Gomes, Alfredo Ramos, Beatriz Franco, Bruno Dias Magalhães, Ciro Resende, Emma Alvarez, Flávia de Paula Duque Brasil, Gabriel Mattos Ornelas, Leonardo Assis, Letícia Birchall Domingues, Lorena Vilarins, Marisa von Bülow, Max Stabile, Pedro Abelin, Priscila D. Carvalho, Teógenes MouraProjeto, 2021-12-15 Este livro trata das crises contemporâneas da democracia tendo como ponto de partida problemas que assolam democracias em países na América do Sul, na África e no Sul da Europa. Os textos do volume dialogam com as recentes teorias que entendem a crise da democracia como processos de erosão das instituições, de valores democráticos e da confiança, ou de expansão da racionalidade neoliberal que estreita o espaço da política e mina relações igualitárias. Os textos identificam potencialidades e limites das teorias que circulam globalmente, contribuindo para a compreensão dos processos de desdemocratização em curso nos países da terceira onda. Sugerem também temas que requerem atenção: as interações entre crise, neoliberalismo e protestos, impactos da crise política (e da crise sanitária) sobre a participação, o papel das instituições judiciais. Há ainda análises sobre impactos da internet sobre a democracia, reflexões sobre a reconstrução de políticas de bem-estar social e as particularidades de como cidadãos entendem o autoritarismo no Brasil contemporâneo.

livres samuel huntington pdf: *Failed States and Fragile Societies* Ingo Tauschweizer, Steven M. Miner, 2014-06-01 Since the end of the Cold War, a new dynamic has arisen within the international system, one that does not conform to established notions of the state's monopoly on war. In this changing environment, the global community must decide how to respond to the challenges posed to the state by military threats, political and economic decline, and social fragmentation. This insightful work considers the phenomenon of state failure and asks how the international community might better detect signs of state decay at an early stage and devise legally and politically legitimate responses. This collection of essays brings military and social historians into conversation with political and social scientists and former military officers. In case studies from the former Yugoslavia, Somalia, Iraq, and Colombia, the distinguished contributors argue that early intervention to stabilize social, economic, and political systems offers the greatest promise, whereas military intervention at a later stage is both costlier and less likely to succeed. Contributors: David Carment, Yiagadeesen Samy, David Curp, Jonathan House, James Carter, Vanda Felbab-Brown, Robert Rotberg, Ken Menkhaus.

livres samuel huntington pdf: *Colonialité* Michel Cahen, 2024-04-25 La colonialité fut et est un phénomène mondial, lié à l'expansion du système-monde capitaliste moderne depuis le xve siècle. Elle n'est pas uniforme puisque liée aux historicités de chaque territoire, imposant néanmoins des rapports sociaux de type colonial indépendamment du statut du territoire concerné. La colonialité est un concept fondamental dans les approches postcoloniales et décoloniales et de sa définition découlent celles d'autres concepts liés : post-colonial et postcolonial, décolonial, décolonialité, subalternité, universalisme, pluriversalisme, « sud global »... Les colonialités du savoir, de la nature, de l'être, sont désormais plus étudiées et dénoncées que la colonialité du pouvoir dont découle pourtant tous les autres aspects de la colonialité. Ce tournant épistémique donne au décolonial une forte orientation idéaliste : c'est de la « déprise » mentale avec l'« Occident » et la « Modernité » que viendrait l'émancipation des subalternes. Or, jamais les mouvements sociaux réels ne séparent ainsi l'ontologie de la vie socio-économique. Ce décolonial, de fait idéaliste, réifie l'« Occident » et la « Modernité » en un orientalisme à rebours, survalorise considérablement l'expérience hispano-américaine sans accorder d'importance à l'expansion portugaise vers l'Asie, tout aussi productrice de système-monde et plus rentable, au départ, que l'Amérique. Ce latino centrisme s'écarte, chez nombre d'auteurs, de la critique du capitalisme globalisé et pointe l'« Occident », sans

jamais le définir précisément, comme l'ennemi. Il dessine un « campisme anti-occidental » qui met souvent ces auteurs en fâcheux voisinage, comme l'ont montré des prises de positions bienveillantes, envers la Russie dans sa guerre de conquête de l'Ukraine. Contre le décolonial idéaliste, Michel Cahen prône un décolonial matérialiste et ne « jette pas le bébé avec l'eau du bain ».

Huntington, 1957-04 An exploration of Huntington's conception of the officer corps as a professional body in the same sense as the bar or the clergy, acknowledging a responsibility to society as a whole and possessing a sense of corporateness which excludes outsiders. These give it a distinct outlook and role which create the problem of civil-military relations.

livres samuel huntington pdf: Francomanie, francophilie, francophobie Richard Laurent Omgba, Raymond Mbassi Atéba, Jean Claude Abada Medjo, 2013 Qu'André-Marie Ntsobé reste et demeure le modèle du Doyen de la Faculté des Arts, Lettres et Sciences Humaines, est un fait qui ne doit rien au hasard : cette rencontre sur une table de dissection entre un dé à coudre et un parapluie, selon la belle formule de Salvador Dali. Non seulement il est resté le plus longtemps en fonction mais il est encore celui qui a donné son inflexion à la fonction. Le Recteur érige. Le Doyen décan. Le Recteur dirige. Le Doyen moyenne. Il me plaît assez que ce soit dans la moyenne et le décanat qu'il faille situer André-Marie Ntsobé. Une sorte de mémoire et de boussole pour comprendre l'histoire des disciplines. On pourrait donc comprendre pourquoi la thématique qui a été choisie pour célébrer la sortie de scène de ce Grand Maître est construite autour du concept de francophonie. Incontestablement, le Professeur André-Marie Ntsobé a été un défenseur de la culture francophone, il a été un véritable francophile, en tant qu'il n'a pas perçu la langue française comme un facteur d'aliénation mais comme un héritage historique capable de garantir notre ouverture au monde. C'est cette francophonie, porteuse d'un humanisme de la différence, respectueuse de la diversité culturelle de ses peuples et fondée sur les principes de solidarité et de partage qu'il s'est engagé à défendre durant toute sa carrière. C'est ce qu'il nous laisse en héritage avec, cependant, un appel à la distance critique, à la vigilance, afin que l'on ne soit pas happé par l'Autre.--P. [4] of cover.

livres samuel huntington pdf: O Sistema Político - Em tempo de erosão da democracia representativa Carlos Blanco de Moraes, 2023-08-01 O sistema político foi e será sempre um terreno de disputa entre o Direito Constitucional e a Ciência Política. O presente livro é fruto das

inquietações de um constitucionalista que intenta harmonizar o tratamento dogmático de um pilar da Constituição material, com realidades movediças da prática política contemporânea que abalam a estabilidade do Direto do Estado. Será possível que o Direito se socorra apenas de um método descritivo e estático no estudo dos sistemas políticos democráticos, sem atender a variáveis como o desgaste da democracia representativa frente aos impactos das democracias deliberativa e referendária? À deslegitimação das lideranças pela democracia digital? À captura do poder político pelo poder económico no contexto de uma sociedade líquida e globalizada? À desestruturação dos sistemas de partidos pelo populismo? E à desatualização das míticas leis Duverger que alicerçam o triângulo sistema eleitoral/sistema de partidos/sistema político?
