sisedgenuity: Algorithmic Rights and Protections for Children Mizuko Ito, Remy Cross, Karthik Dinakar, Candice Odgers, 2023-06-27 Essays on the challenges and risks of designing algorithms and platforms for children, with an emphasis on algorithmic justice, learning, and equity. One in three Internet users worldwide is a child, and what children see and experience online is increasingly shaped by algorithms. Though children's rights and protections are at the center of debates on digital privacy, safety, and Internet governance, the dominant online platforms have not been constructed with the needs and interests of children in mind. The editors of this volume, Mizuko Ito, Remy Cross, Karthik Dinakar, and Candice Odgers, focus on understanding diverse children's evolving relationships with algorithms, digital data, and platforms and offer guidance on how stakeholders can shape these relationships in ways that support children's agency and protect them from harm. This book includes essays reporting original research on educational programs in AI relational robots and Scratch programming, on children's views on digital privacy and artificial intelligence, and on discourses around educational technologies. Shorter opinion pieces add the perspectives of an instructional designer, a social worker, and parents. The contributing social, behavioral, and computer scientists represent perspectives and contexts that span education, commercial tech platforms, and home settings. They analyze problems and offer solutions that elevate the voices and agency of parents and children. Their essays also build on recent research examining how social media, digital games, and learning technologies reflect and reinforce unequal childhoods. sisedgenuity: Navigating The Digital Shift: Implementation Strategies for Blended and Online Learning John Bailey, Carri Schneider, Tom Vander Ark, 2013-10-09 Our nation's schools stand at an important "inflection point" in the history of education. Taken together, the implementation of common college and career standards, the shift to next generation assessments, the availability of affordable devices, and the growing number of high-quality digital instructional tools create an unprecedented opportunity to fundamentally shift the education system to personalize learning around the individual needs of every student. Digital Learning Now! (DLN), a national initiative under the Foundation for Excellence in Education (ExcelinEd), in association with Getting Smart, brings "Navigating the Digital Shift: Implementation Strategies for Blended and Online Learning" to readers interested in exploring the implementation challenges at the intersection of these shifts. Co-authored by John Bailey, Carri Schneider, and Tom Vander Ark,

"Navigating the Digital Shift" offers updated versions of the eight papers originally released in the "DLN Smart Series" including contributions from 11 additional co-authors representing leading organizations such as Public Impact, the International Association for K-12 Online Learning (iNACOL) and The Learning Accelerator. Topics include: blended learning implementation, teaching conditions and careers, competency-based learning, student data, online learning myths, and student-based funding. Jeb Bush, Governor of Florida from 1999-2007 and Chairman of ExcelinEd, contends that the book "provides policymakers and education leaders the tools they need to use digital learning as a catalyst for improved student achievement." AASA 2013 Superintendent of the Year Dr. Mark Edwards believes the collection "provides meaningful, practical, and poignant advice as well as commentary regarding the move to college and career ready standards associated with the shift to personal online learning and digital resources." Rhode Island's Commissioner of Elementary and Secondary Education Deborah Gist describes the book as an "invaluable resource that will help educators re-imagine what our schools can look like and what our students can accomplish."

sisedgenuity: Educational Entrepreneurship Frederick M. Hess, 2006 This lively and provocative book introduces this burgeoning field for readers concerned with K-12 education in the United States--and with efforts to reform and improve it. Entrepreneurship has emerged in recent years as an unprecedented and influential force in U.S. K-12 education. Yet the topic has received surprisingly little serious or systematic attention. Educational Entrepreneurship aims to fill this gap. This timely volume addresses a number of central questions: What is educational entrepreneurship and what does it look like? Who are the educational entrepreneurs and what motivates them? What tools do entrepreneurs need to be successful? What policies or practices enable or impede entrepreneurship? What would it mean to open up the education sector to more entrepreneurial activity? An interesting and admirable range of contributors offers clusters of articles on the nature of educational entrepreneurship; the political, policy, and legal contexts that face educational entrepreneurs; various models of entrepreneurial activity; the role of for-profit organizations in K-12 education; and possible future directions for educational entrepreneurs.

sisedgenuity: Sister From the Other Side: Book One of the Restoration Series Nancy Gooding, 2019-12-03 They were more than sisters. They were best friends. War led them to face choices they never thought they would have to make. Etta Sue Compton and Jennifer Bolinger were

more than sisters; they were best friends. Family meant everything to them. They were confident that nothing could ever change their loyalty. This confidence was soon to be challenged in ways they could not have imagined. The war at their doorstep forces them to face conflicts that alter their political conviction, challenge their religious beliefs, and strain their faith. Unsure of what they believe, each sister is faced with a dilemma. Circumstances demand they make decisions that are life or death. Should their loyalty be to Lincoln and the Union or Jefferson Davis and the Confederacy? Peace only comes as they abide in the moral law of love that is higher than any earthly government. Not knowing if these decisions will end in death, prison, or freedom, they both follow their heart and trust in God.

sisedgenuity: *Dear Sis* Latosha Burch, 2024-10 As women, we find ourselves wearing many hats and perhaps stretched too thin. Great expectations are placed on us by others and even ourselves. So much so, we are pushed to be better than the man-made standards in life. You may be the glue for family ties, problem-solver or decision-maker, the moral compass, advisor or counselor, mentor, strong enough for everyone, protector, more sensitive, earthly savior, and more. These are in addition to roles as mothers, wives, partners, sisters, friends, confidantes, businesswomen, leaders, organizers, sex symbols, beauty queen, critical thinkers, intuitive beings, the cook, and servant leaders; the list goes on. *Dear Sis: Letters to a Queen* is a book of letters to all women described as sisters and queens followed by a few exercises for reflection. Every word is based on real-life and relatable situations and offers direction, hope, wisdom, lessons, prayer, celebration, and more.

sisedgenuity: *Dear Sis, You Can Live Free* Tiheasha Denise Beasley, 2023-11-03 Dear Sis, I wish I could look you in the eyes and tell you, sis, I see you! You are somewhere in between, I am going to go hard for Christ, love myself, love my tribe, and glow up... and on your mentally exhausting days you're beating yourself up for past and current failures that have somehow convinced you that your glorious redeem life is a lie, and one day you will be exposed! These tormenting thoughts have tried to take you out, and every little thing triggers you. Your mood changes from minute to minute, you spend half of your week at times combating thoughts of inadequacy, impostor syndrome, and low-self worth. Why? Because the devil, your adversary, is truly checking for you. And I have learned over the last few years that the increased battles spiritually, mentally, and emotionally happen in your life for one reason: The enemy is terrified of the redeemed you. Your purpose, your gifts, your calling, and the lives you will impact. The enemy keeps your mind busy with the worse version of yourself so that you can stay distracted and confused about the purpose God has for your life. But he is A LIAR! Through Christ, you can get back up, adjust your crown, and walk in true freedom!

that Delitha would live her young life as a servant. But few would guess at the darkness surrounding her family. Sister Sunday follows the life of Georgia born and bred Delitha in the 1920s. She desires to know life apart from grueling work and abuse. Finally finding it in New York City with an adoring and independent aunt, Delitha has freedom to let go of bitterness and learn about life as she could live it. But never could Delitha have planned that her path to forgiveness and love would lead back home to Georgia. Sister Sunday shows how strength is cultivated through endurance, how life is beautiful when simple, and that mercy and grace change everything.
