Drawing on their extensive experience with enterprise clients, Catherine Juon and Dunrie Greiling show how to implement a more iterative, measurable, and repeatable approach to Internet marketing, gain better information about which online strategies are working best, deliver better-qualified leads to sales, build an online sales engine to track every customer relationship from the very outset - and, above all, grow profits. Rather than covering

individual Internet marketing tools in isolation, they show how to integrate the full strategic toolkit: social media, pay-per-click, Google AdWords, SEO, site usability, Google Analytics, audience analysis, CRM, lead generation, site navigation optimization, and more. Readers learn how to use metrics and data analysis far more effectively to inform adjustments in both long-term strategy and short-term tactics. Along the way, the authors offer new solutions to challenges discussed in no other book - including the challenges of marketing, advertising, and pricing when Google flattens all channels and geographies into a single gigantic marketplace
