Beyer's *Just Universities* discusses ways that U.S. Catholic institutions of higher education have embodied or failed to embody Catholic social teaching in their campus policies and practices. Beyer argues that the corporatization of the university has infected U.S. higher education with hyper-individualistic models and practices that hinder the ability of Catholic institutions to create an environment imbued with bedrock values and principles of Catholic Social Teaching such as respect for human rights, solidarity, and justice. Beyer problematizes corporatized higher education and shows how it has adversely affected efforts at Catholic schools to promote worker justice on campus; equitable admissions; financial aid; retention policies; diversity and inclusion policies that treat people of color, women, and LGBTQ persons as full community members; just investment; and stewardship of resources and the environment.

Jensen's vision is a renewal of what life together can look like when we gather in our homes and when we gather in our churches.

african american heritage hymnal pdf: *The Secularization of Baptism* Mark G. McKim, 2025-01-31 Does God actually do anything in baptism? Is it more than just a symbol? Most early Baptists would have answered yes. Most Baptists today would answer no. How and why did this change happen--and does it matter? Providing thorough documentation of the changing understandings of baptism among American, Canadian, and English Baptists from the 1600s to the present day, *The Secularization of Baptism* demonstrates that four factors led to the symbolic-only position becoming dominant. These were suspicion, in reaction to Roman Catholicism, of the idea of God revealing himself through the physical; the influence of the Enlightenment (and embarrassment with claims that God could be acting in the world today); reaction against the Oxford Movement; and reaction against the understanding of baptism advocated by the Disciples of Christ (Campbellites). The now dominant symbolic-only position so focuses attention on what the believer is doing in baptism that God is seen as largely absent from, and doing nothing through, the rite; in effect believers' baptism has been secularized. A carefully reasoned biblical and theological argument is made for a return to the Regular/Particular Baptist view that God is both profoundly spiritually present and active in baptism, while at the same time rejecting the sacramentalist position advocated by a small number of mid-twentieth and twenty-first century Baptists, such as H. Wheeler Robinson, George Beasley-Murray, Stanley K. Fowler, and Anthony R. Cross.
