- **Death and Immortality:** The narrative confronts mortality, hinting at the possibility of eternal consciousness through the spiritual realm. The ghostly presence of the young woman and the spectral nature of the house evoke these themes.

Structural and Stylistic Elements

Aura employs a second-person narrative, immersing readers directly into the protagonist's experience. This choice enhances the intimacy and immediacy of the story. Fuentes' prose is poetic yet precise, laden with symbolism and evocative imagery that invites multiple interpretations.

The writers who emerged in this energized cultural moment--among others, Julio Cortázar (Argentina), Guillermo Cabrera Infante (Cuba), José Donoso (Chile), Carlos Fuentes (Mexico), Gabriel García Márquez (Colombia), Manuel Puig (Argentina), and Mario Varas Llosa (Peru)--experimented with narrative forms that sometimes bore a vexed relation to the changing political situations of Latin America. aura by carlos fuentes pdf: *Robo Sacer* David S. Dalton, 2023-05-15 *Robo Sacer* engages the digital humanities, critical race theory, border studies, biopolitical theory, and necropolitical theory to interrogate how technology has been used to oppress people of Mexican descent—both within Mexico and in the United States—since the advent of the North American Free Trade Agreement

(NAFTA) in 1994. As the book argues, robo-sacer identity emerges as transnational flows of bodies, capital, and technology become an institutionalized state of exception that relegates people from marginalized communities to the periphery. And yet the same technology can be utilized by the oppressed in the service of resistance. The texts studied here represent speculative stories about this technological empowerment. These texts theorize different means of techno-resistance to key realities that have emerged within Mexican and Chicano/a/x communities under the rise and reign of neoliberalism. The first three chapters deal with dehumanization, the trafficking of death, and unbalanced access to technology. The final two chapters deal with the major forms of violence—feminicide and drug-related violence—that have grown exponentially in Mexico with the rise of neoliberalism. These stories theorize the role of technology both in oppressing and in providing the subaltern with necessary tools for resistance. Robo Sacer builds on the previous studies of Sayak Valencia, Irmgard Emmelhainz, Guy Emerson, Achille Mbembe, and of course Giorgio Agamben, but it differentiates itself from them through its theorization on how technology—and particularly cyborg subjectivity—can amend the reigning biopolitical and necropolitical structures of power in potentially liberatory ways. Robo Sacer shows how the cyborg can denaturalize constructs of zoē by providing an outlet through which the oppressed can tell their stories, thus imbuing the oppressed with the power to combat imperialist forces.

aura by carlos fuentes pdf: Selva de fantasmas Eljaiek-Rodríguez, Gabriel, 2017-04-10 Selva de fantasmas examina un segmento de la historia cultural latinoamericana, mediante la llamada tropicalización de lo gótico, un mecanismo de reciclaje y transformación del género gótico. Este dispositivo saca de su contexto a personajes y temas para hacer visibles las dinámicas de construcción del otro y enunciar aquello que es innombrable: la violencia, las desigualdades sociales o los tabúes culturales, como el incesto, según sea el caso. Al proponer la existencia de este mecanismo, el libro rompe —en los estudios literarios, cinematográficos y culturales latinoamericanos— con cadenas de relaciones temáticas y geográficas fijas del gótico, como la tríada vampiro-castillo-Transilvania, y lo reubica en entornos suramericanos, que no se consideraban aptos para el género: la selva del Chaco, la tierra caliente colombiana y la selva urbana de Ciudad de México. A través de un recorrido por los textos de Horacio Quiroga, las películas de Carlos Mayolo, las de Luis Ospina o las mexicanas protagonizadas por El Santo, entre otros, Selva de fantasmas revela los mecanismos con los cuales el género gótico ha adquirido su propia identidad en Latinoamérica.

aura by carlos fuentes pdf: The Politics of Literary Prestige Sarah E.L. Bowskill, 2022-04-07 The Politics of Literary Prestige provides the first comprehensive study of prizes for Spanish American literature. Covering state-sponsored and publisher-run prizes including the Biblioteca Breve Prize - credited with launching the 'Boom' in Spanish American literature - the Premio Cervantes and the Nobel Prize for Literature, this book examines how prizes have underpinned different political agenda. As new political positions have emerged so have new awards and the role of the author in society has evolved. Prizes variously position the winners as public intellectual, spokesperson on the world stage or celebrity in the context of an increasingly globalized literature in Spanish. Drawing on a range of sources, Sarah E.L. Bowskill analyses prizes from the perspective of different stakeholders including states, publishers, authors, judges and critics. In so doing, she untangles the inner workings of literary prizes in Spanish-speaking contexts, proposes the existence of a prizes network and demonstrates that attitudes to cultural prizes are not universal but are culturally determined.

aura by carlos fuentes pdf: Écrire le deuil dans les littératures des XXe-XXIe siècles Bernadette Hidalgo-Bachs, Catherine Milkovitch-Rioux, 2014 Ce volume s'adresse à tout public s'intéressant à la question du deuil. Il rassemble des contributions portant sur des écritures littéraires de genres différents, et s'appuie sur des recherches sociologiques, anthropologiques, psychiatriques et philosophiques portant sur le deuil. La littérature approche, dans son essence, le lieu même de la perte. Elle répond à des interrogations universelles: quelles sont les manifestations physiques ou psychiques qu'engendre l'absence de l'autre? Le deuil porte-t-il avec lui le ressassement, le déni, le refoulement, la volonté d'oublier, ou encore la fusion avec le disparu? Quel sens la mort de l'autre peut-elle prendre? S'inscrit-elle dans l'ordre des choses? Sous quelle forme l'acceptation, voire la sublimation de la mort s'expriment-elles? Les expressions littéraires du deuil dans différentes traditions culturelles sont interprétées tant dans le roman, les récits autobiographiques, le théâtre que dans la poésie. Les contributions abordent les modalités de représentation et de symbolisation qui se font jour dans l'écriture.--P. [4] of cover.

the successful fight to climate change. The interplay between the sustainable UN Agenda 2030 goals is a new interesting ground for the development of intersectorial and multidisciplinary studies. Thanks to University of Camerino which is focused on the contamination between different scientific areas and really engaged in strengthening international research, a group composed by more than forty researchers of ten different nationalities is studying the energy policies and the new phenomenon of energy prosumerism. This book is the first direct result of the research activities granted by University of Camerino under the Programme FAR 2019 in the ECPE Project 'Enabling Consumer to become Prosumer in the Energy transition era' (more details about the project ECPE are available at <https://ecpe.unicam.it/>). The object of this book is to collect and analyze the main barriers to self-consumption and prosumerism. Difficult as it is to discuss all obstacles in a single volume, the book focuses on selected barriers which impede the development of new types of fossil free energy production and consumption. The energy communities could play a central role in the implementation of the energy transition strategies, but legal, social, economic, political and cultural barriers can hinder their spread. To analyze the barriers and to find how to eliminate the obstacles to energy transition policies is pivotal to enhance research activities focused on the new EU Regulatory framework. Most in general it is crucial a multidisciplinary approach focused on the fight to climate change and the implementation of sustainable development. In this book are collected several articles which offer a different perspective on the energy transition barriers from different points of view and under different methodologies. The book is composed of four parties. The first one is dedicated to the analysis of the methodology and the results offered by questionnaires supplied online in two languages (Italian/English). The survey is the basis of the Working Paper which is the deliverable of the ECPE Work Programme n. 2 and which constitutes the ground for a discussion into the research group. The second part of the volume collects the contributions focused on the social and economic barriers to prosumerism, while the third one is dedicated to a description of failure cases of self consumption. Lesson learned by failure experiences in the world could favour a good implementation of the new EU Directive Renewable Energy Directive 2018/2001 (RED II) and Directive on common, rules for the internal market for electricity 2019/944 (IEM) in Italy an European Country which is strategic in the Energy policy of the Foreword 1 Mediterranean area. The last part of the book is composed of the visions and perspectives offered by Italian testimonials engaged as actors in the new energy market with different roles. I am grateful for the generous support given by the editorial staff composed by Gopi Battinemi, Roberto Garetto, Federico Pascucci, Giovanni Russo and Karina Zabrodina, precious collaborators and valid researchers. Thanks also to the Scientific Committee which honoured our work: Marine Cornelis, Francisco Lledó Yagüe and Luis E. Quintero. As editor I am sure you will appreciate the volume which would like to offer an insight on new issues and challenges offered by the energy transition era.

aura by carlos fuentes pdf: El silencio de los contratos civiles Ylona de la Rocha, 2023-10-03 El silencio es una figura enigmática rodeada del misterio que ofrece su ausencia de expresión y las múltiples explicaciones que subyacen tras él, entre lo que se supone que significa y lo que en realidad es. Por haber sido concebido de manera escasa, dubitativa e inconsistente, es necesario que se precise una valoración cierta sobre criterios objetivos en la experiencia dominicana y en la de muchas otras latitudes que comparten la misma incertidumbre. Ante la carencia de un concepto claro y de parámetros para definirlo, el recorrido de este libro de investigación iniciará con las formas en que el silencio se ha concebido tradicionalmente, para culminar con las que se proponen, por entenderlas adecuadas para descifrarlo, con la explicación previa de su concepto jurídico y del proceso para interpretarlo. En el caso particular del silencio contractual —considerado tipología del silencio jurídico—, este se da dentro del contexto de las relaciones entre partes, y su repercusión puede reflejarse al momento de la formación del contrato y durante su ejecución, para determinar si constituye o no una forma de manifestar la voluntad o, al contrario, ausencia de ella. Entonces, es necesario avanzar, de la libre apreciación del juez, hacia la determinación de los criterios objetivos para la interpretación del alcance jurídico del silencio, los cuales se proponen en esta obra para la definición de su concepto y valoración, con la finalidad de que no se encuentren sujetos a circunstancias particulares.

También descuellan algunos temas que han caracterizado su obra, como la presencia del pasado indígena en el relato “Chac Mool” y la pervivencia de algunos fantasmas de la historia nacional en “Tlactocatzine, del jardín de Flandes”. Pero además hay, en este volumen, otras venas menos familiares de Fuentes: algo de ciencia ficción en “El que inventó la pólvora”, algo de delirio tropical y semántico en “Letanía de la orquídea” y mucho de surrealismo en “Por boca de los dioses”.
