battle hymn of tiger mother pdf: Battle Hymn of the Tiger Mother Amy Chua, 2011-01-11
A lot of people wonder how Chinese parents raise such stereotypically successful kids. They wonder what Chinese parents do to produce so many math whizzes and music prodigies, what it's like inside the family, and whether they could do it too. Well, I can tell them, because I've done it... Amy Chua's daughters, Sophia and Louisa (Lulu) were polite, interesting and helpful, they were two years ahead of their classmates in maths and had exceptional musical abilities. But Sophia and Lulu were never allowed to attend a sleepover, be in a school play, choose their own extracurricular activities, get any grade less than an A, and not be the #1 student in every subject (except gym and drama). And they had to practice their instruments for hours every day, as well as in school breaks and on family holidays. The Chinese-parenting model certainly seemed to produce results. But what happens when you do not tolerate disobedience and are confronted by a screaming child who would sooner freeze outside in the cold than be forced to play the piano? In *Battle Hymn of the Tiger Mother*, Amy Chua relates her experiences raising her children the 'Chinese way', and how dutiful, patient Sophia flourished under the regime and how tenacious, hot-tempered Lulu rebelled. It is a story about a mother, two daughters, and two dogs. It's also about Mozart and Mendelssohn, the piano and the violin, and how they made it to Carnegie Hall. It was supposed to be a story of how Chinese parents are better at raising kids than Western ones. But instead, it's about a bitter clash of cultures, a fleeting taste of glory, and how you can be humbled by a thirteen-year-old. Witty, entertaining and provocative, this is a unique and important book that will transform your perspective of parenting forever.

battle hymn of tiger mother pdf: Sociology David M. Newman, 2018-07-26 This new Brief Sixth Edition of David Newman's text is the streamlined version of *Sociology: Exploring the Architecture of Everyday Life* with the same goal: to be a textbook that, in the author's words, reads like a real book. Newman shows to see the "unfamiliar in the familiar"—to step back and see organization and predictability in their take-for-granted personal experiences. Newman uses the metaphors of "architecture" and "construction," to help students understand that society is not something that exists "out there," independently of themselves; it is a human creation that is planned, maintained, or altered by individuals. Instead of surveying every subfield in sociology, this text focuses on the structural features of society, the social construction of self and identity, and social inequality in the context of social institutions. The new edition includes examples and analysis of contemporary events and trends, including: The changes in our national politics brought about by the 2016 presidential election Increasing societal attention paid to fatal encounters between police and unarmed people of color or incidents of sexual harassment and assault School shootings and the debates over gun ownership The continued dramatic growth of communication technology, particularly social networking sites

battle hymn of tiger mother pdf: Failing Our Future Joshua R. Eyler, 2024-08-27 An indictment of the grading system in American schools and colleges—and a blueprint for how we can change it. One of the most urgent and long-standing issues in the US education system is its obsession with grades. In *Failing Our Future*, Joshua R. Eyler shines a spotlight on how grades inhibit learning, cause problems between parents and children, amplify inequities, and contribute to the youth mental health crisis. Eyler, who runs the Center for Excellence in Teaching and Learning at the University of Mississippi, illustrates how grades interfere with students' intrinsic motivation and perpetuate the idea that school is a place for competition rather than discovery. Grades force students to focus on rewards and distract them from exploring ideas or pursuing interests beyond what they'll be tested on. In fact, grades significantly impede the learning process. They are also significantly affecting children's physical, emotional, and psychological well-being. Rates of anxiety, depression, and suicidal ideation have spiked, and academic stress tied to grades is a leading cause of this escalation. Eyler shares success stories of grading reform efforts that are already under way as an antidote to the harms caused by the practices currently used in educational institutions. Equal parts scathing and hopeful, *Failing Our Future* aims to improve the lives of students by encouraging them to define success on their own terms. Parents, educators, policymakers, and students will find in these pages a rallying cry for change and a blueprint for how to implement reforms in our homes and classrooms.

Livingstone, Alicia Blum-Ross, 2020 In the decades it takes to bring up a child, parents face challenges that are both helped and hindered by the fact that they are living through a period of unprecedented digital innovation. In *Parenting for a Digital Future*, Sonia Livingstone and Alicia Blum-Ross draw on extensive and diverse qualitative and quantitative research with a range of parents in the UK to reveal how digital technologies characterize parenting in late modernity, as parents determine how to forge new territory with little precedent or support. They chart how parents often enact authority and values through digital technologies since screen time, games, and social media have become both ways of being together and of setting boundaries. *Parenting for a Digital Future* moves beyond the panicky headlines to offer a deeply researched exploration of what it means to parent in a period of significant social and technological change.

battle hymn of tiger mother pdf: The Myth of the Perfect Girl Ana Homayoun, 2012-12-31 New insights and practical solutions for overworked and stressed-out girls and their parents. In today's achievement culture, many girls seem to be doing remarkably well—excelling in honors and sports and attending top colleges in ever greater numbers—but beneath the surface, girls are stressed out and stretched too thin as they strive to be “perfect.” In their efforts to juggle schoolwork and extracurriculars, family life and social lives, friends and frenemies, as well as relationships online and IRL (in the real world), many girls begin to lose sight of who they really are, and instead work overtime to please their friends, parents, teachers, and others. With honesty, empathy, and a fresh perspective, *The Myth of the Perfect Girl* presents advice to empower both parents and girls themselves to discover what true success and happiness means to them — and how to work to achieve it.

battle hymn of tiger mother pdf: Transcendent Parenting Sun Sun Lim, 2020 Whether members of the family are headed to school or work, smartphones accompany family members throughout the day. The growing sophistication of mobile communication has unleashed a proliferation of apps, channels, and platforms that link parents to their children and the key institutions in their lives. While parents may feel empowered by their ability to provide their children assistance with a click on their smartphone, they may also feel pressured and overwhelmed by this need to always be on call for their children. This book focuses on the phenomenon of transcendent parenting, where parents actively use technology to go beyond traditional, physical practices of parenting. In drawing on the experiences of intensely digitally-connected families in Singapore to tell a global story, Sun Sun Lim argues how transcendent parenting can embody and convey, intentionally or not, the parenting priorities in these households. Chapters outline how parents exploit mobile connectivity to transcend the physical distance between themselves and their children, the online and offline social interaction environments, and the timelessness of seemingly ceaseless parenting. *Transcendent Parenting* further explores how mobile communication allows

parents to be more involved than ever in their children's lives, leaving readers to question whether or not parents have become too involved as a result. With its clear discussions of the effects of transcendent parenting on parents' wellbeing and children's personal development, Transcendent Parenting will appeal to a broad audience of readers, from scholars, educators and policy makers to parents and young people across the globe.

battle hymn of tiger mother pdf: Comparative Legal Frameworks for Pre-Implantation Embryonic Genetic Interventions Pin Lean Lau, 2019-08-01 This book discusses the possibilities for the use of international human rights law (and specifically, international biomedical laws related to the protection of human rights and the human genome) to provide a guiding framework for the future regulation of genetic modifications applied to human embryos and other precursor materials, when these are made with the aim of implanting a genetically altered embryo in a woman. The significance and timeliness of the work derives from the recent availability of CRISPR/Cas9 and other gene editing tools, and from lacunae in international law regarding the legality of embryo modification with these tools and appropriate governance structures for the oversight of resulting practices. The emergence of improved genome editing tools like CRISPR/Cas9, holds the promise of eradicating genetic diseases in the near future. But its possible future applications with Pre-Implantation Genetic Diagnosis (PGD) raises a plethora of legal and ethical concerns about remaking future human beings. The work aims to address an urgent call, to embed these rising concerns about biomedical advancements into the fundamental tailoring of legal systems. Suitable regulatory approaches, coupled with careful reflection of global biomedical laws and individual constitutional systems must be explored. The Book analyzes the impact of reproductive biomedical technologies on the legal and ethical dimensions of regulatory frameworks in selected constitutional systems like the US, the UK, Australia, Malaysia and Thailand. Employing a comparative law methodology, the work reveals a dynamic intersection between legal cultures, socio-philosophical reasoning and the development of a human rights-based framework in bio-political studies. Navigating towards a truly internationalized biomedical approach to emerging technologies, it presents an understanding why a renegotiation and reinvigoration of a contemporary and new universal shared values system in the international human rights discourse is now necessary.

battle hymn of tiger mother pdf: Asian Migration and Education Cultures in the Anglosphere Megan Watkins, Christina Ho, Rose Butler, 2019-03-27 Asian migration and mobilities are transforming education cultures in the Anglosphere, prompting mounting debates about 'tiger

mothers' and 'dragon children', and competition and segregation in Anglosphere schools. This book challenges the cultural essentialism which prevails in much academic and popular discussion of 'Asian success' and in relation to Asian education mobilities. As anxiety and aspiration within these spaces are increasingly ethnicised, the children of Asian migrants are both admired and resented for their educational success. This book explores popular perceptions of Asian migrant families through in-depth empirically informed accounts on the broader economic, social, historical and geo-political contexts within which education cultures are produced. This includes contributions from academics on global markets and national policies around migration and education, classed trajectories and articulations, local formations of 'ethnic capital', and transnational assemblages that produce education and mobility as means for social advancement. At a time when our schooling systems and communities are undergoing rapid transformations as a result of increasing global mobility, this book is a unique and important contribution to an issue of pressing significance. This book was originally published as a special issue of the Journal of Ethnic and Migration Studies.

battle hymn of tiger mother pdf: Condition or Process? Researching Race in Education
Adrienne D. Dixon, Gloria J. Ladson-Billings, Cecilia E. Suarez, William T. Trent, James D. Anderson, 2021-01-18 The question of why we need to think about how we research race demands a conceptualization of race that captures both its social construction and its temporal evolution. We need both an understanding of race and clarity about how we talk about it in our design and conduct of research, and in how we interpret and apply it in our findings. As a field, we can use research on race and racism in education to help construct social change. Our purpose with this volume is to underscore the persistence of the discriminatory actions—processes—and the normalization of the use of race (and class)—conditions—to justify the existing and growing disparity between the quality of life and opportunity for middle-class and more affluent Whites and that for people of color and people of color who live in poverty. As editors of this volume, we wonder what more we could learn and understand about the process and condition of race if we dare to ask bold questions about race and racism and commit to methods and analyses that respect the experiences and knowledges of our research participants and partners.
