dolce diet pdf: Why We Can't Have Nice Things Minh-Ha T. Pham, 2022-08-08 In 2016, social media users in Thailand called out the Paris-based luxury fashion house Balenciaga for copying the popular Thai "rainbow bag," using Balenciaga's hashtags to circulate memes revealing the source of the bags' design. In *Why We Can't Have Nice Things* Minh-Ha T. Pham examines the way social media users monitor the fashion market for the appearance of knockoff fashion, design theft, and plagiarism. Tracing the history of fashion antipiracy efforts back to the 1930s, she foregrounds the work of policing that has been tacitly outsourced to social media. Despite the social media concern for ethical fashion and consumption and the good intentions behind design policing, Pham shows that it has ironically deepened forms of social and market inequality, as it relies on and reinforces racist and colonial norms and ideas about what constitutes copying and what counts as creativity. These struggles over ethical fashion and intellectual property, Pham demonstrates, constitute deeper struggles over the colonial legacies of cultural property in digital and global economies.

dolce diet pdf: Manufacturing Celebrity Vanessa Díaz, 2020-08-14 In *Manufacturing Celebrity* Vanessa Díaz traces the complex power dynamics of the reporting and paparazzi work that fuel contemporary Hollywood and American celebrity culture. Drawing on ethnographic fieldwork, her experience reporting for *People* magazine, and dozens of interviews with photographers, journalists, publicists, magazine editors, and celebrities, Díaz examines the racialized and gendered labor involved in manufacturing and selling relatable celebrity personas. Celebrity reporters, most of whom are white women, are expected to leverage their sexuality to generate coverage, which makes them vulnerable to sexual exploitation and assault. Meanwhile, the predominantly male Latino paparazzi can face life-threatening situations and endure vilification that echoes anti-immigrant rhetoric. In pointing out the precarity of those who hustle to make a living by generating the bulk of celebrity media, Díaz highlights the profound inequities of the systems that provide consumers with 24/7 coverage of their favorite stars.
