gifts of imperfection pdf: Lessons from Grace Uma Girish, 2019-11-05 Lessons from Grace by Uma Girish is a one-of-its-kind book. Here, the author talks about learning mindfulness and the art of living from a toddler. 'All children are born geniuses, and we spend the first six years of their lives degeniusing them.' -- R. Buckminster Fuller When Uma, a forty-something mother of a college sophomore, was asked to nanny her friends' daughter, Grace, little did she know that she was about to begin an extraordinary journey. A baby arrives here as a pure being. Not yet marked by cultural and social conditioning, they bring a sense of sacredness to our lives. This was the author's experience. Through Grace, she is reminded of what is truly important in her life. More importantly, she also learns to navigate an increasingly complex world using the values of simplicity, joy, and presence--as babies do. Watching Grace brings her many lessons, like how the baby surrenders her entire being to a multicolored rattle by living in the present. The author relearns the art of living by aligning with the values this baby teaches her. The sublime prose of this book will shift your world view and encourage you to be present to the magic of everyday life as you reconnect with the simple but profound treasures of curiosity and wonder.

Educators must achieve cultural proficiency to overcome unconscious biases and tap the limitless potential of their school communities. In *The Consciously Unbiased Educator*, cultural proficiency expert and former teacher Huda Essa helps educators uncover and surmount the limitations of unconscious biases—stereotypes that form below the surface of our awareness, making them harder to detect. Although these biases aren't formed with the intent to do harm, if they are not interrupted, they contribute to negative outcomes for students. With warmth and wisdom, Essa urges educators to move past any reflexive defensiveness or shame that comes with facing these biases to take a journey that will ultimately empower and benefit the entire school community. Filled with rich, clarifying insights drawn from Essa's own experience as well as comprehensive research findings, this inspirational resource pushes readers' thinking to new levels. To aid in examining these biases, this thought-provoking yet highly approachable book offers • Practical ideas, strategies, and tools, such as a personal index enabling readers to gather and organize learning in the most resonant, meaningful way possible. • Thoughtful discussion of essential concepts and terms, including the cultural proficiency continuum, privilege, culturally responsive practices, exclusionary behaviors, and more. • Numerous exercises that encourage readers to activate their critical consciousness and use the author's 3Rs (review, reflect, resolve) method to respond to real-life scenarios. • Deep reflection prompts to foster mindful contemplation and gain confidence for engaging in productive discourse about sensitive topics. Editable PDF versions of the prompts and resources within the book are also available to enhance and extend opportunities for reflection and learning. Readers will build the knowledge and skills they need to become their own manual and apply their learning off the page. Educators can change the status quo. gifts of imperfection pdf: We Reap What We Sow Anne W. Nordholm, 2013-07 As anyone who lives, works, or spends any time with teenagers knows, adolescence can be both the best of times and the worst of times. Teenagers are undergoing miraculous, world-altering shifts. In light of these changes, how can society help adolescents move safely from teen to adult? How can adults and adolescents engage with each other in ways that are positive and mutually beneficial to one another's journeys? In *We Reap What We Sow*, author Dr. Anne W. Nordholm blends philosophical and educational approaches to demonstrate how you can cocreate an abundant future and help you guide a young person toward an engaging and meaningful adult life. She first describes what it means to know ourselves and the difference that knowledge can make. She then offers strategies that, when modeled by adults, adolescents absorb not from what we say but how we behave. Every person must figure out a life that is individual, is connected to a community, and has a particular historical context. This guide explores how we know and connect to our communities and how historical consciousness assists us in finding and creating meaningful work. It also considers how we can be better guides to the next generation via skilled and disciplined communication and reconsiders the institutions we've established for adolescent learning to better reflect what we understand as effective adult maturation. Through the strategies presented in *We Reap What We Sow*, adults can help youth navigate adolescence to become healthy, thriving human beings.

gifts of imperfection pdf: The Myth of the Perfect Girl Ana Homayoun, 2012-12-31 New insights and practical solutions for overworked and stressed-out girls and their parents. In today's achievement culture, many girls seem to be doing remarkably well—excelling in honors and sports and attending top colleges in ever greater numbers—but beneath the surface, girls are stressed out and stretched too thin as they strive to be “perfect.” In their efforts to juggle schoolwork and extracurriculars, family life and social lives, friends and frenemies, as well as relationships online and IRL (in the real world), many girls begin to lose sight of who they really are, and instead work overtime to please their friends, parents, teachers, and others. With honesty, empathy, and a fresh perspective, *The Myth of the Perfect Girl* presents advice to empower both parents and girls themselves to discover what true success and happiness means to them — and how to work to achieve it.
