house of the spirits pdf: Satan's Counterfeit Healing Lawrence E. Burkholder, 2019-09-30
"The Christian church worldwide has been taken prisoner by Satan's counterfeit healing." This statement is based on the author's personal experience, modest exposure to the Toronto Blessing, observation of parachurch healing ministries, and extensive historical reconstructions. Satan's Counterfeit Healing presents and evaluates Satan's supernatural healing from the Paleolithic period (ca. 45000 BCE) to the contemporary church. The guiding thesis is that Satan and his demonic surrogates perform miracles which are evident as psi paranormal phenomena. These manifestations include physical and exorcistic supernatural healings. Paleolithic and Neolithic periods produced Great Mother goddess worship and healing, which have persisted ever since. These idolatries, combined with OT nature gods, were a backdrop to Jesus' true miracles. For two thousand years of church history there's been a tug-of-war between true and false healing. Mother goddess as Mariological shrine healing joined with natural and demonic magic, and esoteric energy psi. Alongside these the Holy Spirit has raised up genuine healers and their ministries. Modern healing is marked by energy counterfeits and faith healing, the latter especially accompanied by trance, false prophecy, and psi transformations. True divine healing can be recovered when Christians repudiate nature gods, reject false prophecy, and restore proper eschatology.

house of the spirits pdf: "Hours like bright sweets in a jar" Sonia Front, Alicja Bemben, 2014-10-16 The papers gathered in the present collection investigate time and temporality from a number of interdisciplinary perspectives: literary or film studies, postcolonial theory, physics, philosophy, psychology, urban studies, history and gender studies. This wide spectrum of scholarly approaches encompasses chapters dealing with the convergences of time and the human psyche; time and the body; time and memory; time and trauma; time and change; time and cultural reproduction; time and language; time and the city; and time and identity. It transpires that the imaginary refigurations of time more often than not constitute resistance against the linearity of chronometric time, represented by institutions, capitalism, government and power, and attempts to colonize the human psyche. In attempting to assault this hegemony of linear time, literary, cinematographic and cultural practice enacts exploding temporalities to reflect the multifacetedness and multidirectionality of the human experience of time.
