jazz band warm ups pdf: Elegant People Curt Bianchi, 2021-06-15 Elegant People is the definitive history of Weather Report, the premier fusion band of the 1970s and beyond. Founded in late 1970 by three stars of the jazz world—keyboardist Joe Zawinul, saxophonist Wayne Shorter, and bassist Miroslav Vitouš—Weather Report went on to become the most unique and enduring jazz band of its era, with a style of music wholly its own. Now, on the fiftieth anniversary of Weather Report's first album release, comes Elegant People: A History of the Band Weather Report, the first book to tell the band's story in detail. Based on years of research and dozens of interviews with musicians, engineers, managers, and support personnel, Elegant People is written from an insider's perspective, describing Weather Report's transformation from a freewheeling, avant-garde jazz band whose ethos was We always solo and we never solo to a grooving juggernaut that combined elements of jazz, funk, Latin, and rhythm and blues. Fueled by Zawinul's hit tune Birdland and the charismatic stage presence of legendary electric bass player Jaco Pastorius, Weather Report took on the aura of rock stars. By the time Zawinul and Shorter mutually agreed to part ways in 1986, Weather Report had produced sixteen albums, a body of work that ranks among the most significant in jazz and continues to resonate with musicians and fans today.

jazz band warm ups pdf: Daily Warm-Up Exercises for Jazz Ensemble, Vol 2 Mike Lewis, Jack Bullock, 1987-10 Daily Warm-Up Exercises for Jazz Ensemble was written as a series of studies to aid the jazz group in performance. It is published in two volumes, Volume I for the young or beginning ensemble, and Volume II for the more advanced group. All musical groups need a short period of time during the beginning of a rehearsal to reacquaint their body functions with the needs of making music. Even though individuals warm-up by themselves in preparation for performance, the group as a whole needs to experience basic musical qualities -- blend, balance, precision, intonation -- together to ensure good ensemble performance. Hopefully, this series will provide the jazz ensemble with materials organized in a logical manner to accomplish these goals.
