tau codex pdf: The Apocryphal Sunday Uta Heil, 2023-10-17 A range of apocryphal and

pseudepigraphic texts from Late Antiquity points to the importance of Sunday as a holiday for baptized Christians. First and foremost is the so-called Letter from Heaven, which has experienced a broad and long-lasting reception up to modern times, although it was also criticized as a forgery from its beginning. Unfortunately, these texts have not received sufficient attention so far. This volume presents various versions of the Letter from Heaven, as well as other texts (the pseudepigraphic Acts of the Synod of Caesarea; pseudepigraphic sermons of Eusebius of Alexandria, John Chrysostom, and Basil of Caesarea; passages from the Didascalia or Diataxis of Jesus Christ; the Second Apocryphal Apocalypse of John; the Visio Pauli; a sermon of Sophronius of Jerusalem; and the Apocalypse of Anastasia), together with a translation and commentary. An introduction tells

the story of this letter and integrates it and the other texts into the cultural history of Sunday. It becomes clear that Sunday as a day of rest and a feast day was not in the foreground of the development of an ecclesiastical festival calendar for a long time, although Emperor Constantine enacted a law on holiday rest on Sunday in 321 CE. Sunday, rather, marks the end of the Christianization of time and the calendar, when Easter, Pentecost, Christmas, and martyrs' feasts were already taken for granted. The authors of these texts obviously wanted to accelerate this process, which is why an anonymous person even resorted to presenting Christ himself as the author of this letter. Here, severe punishments are threatened to all who do not observe Sunday, who work as if it were a weekday, and who skip worship. The broad tradition shows that the letter was read and distributed despite all the criticism, and was even turned into an early form of a chain letter.

tau codex pdf: The Oxford Handbook of Textual Criticism of the Bible Sidnie White Crawford, Tommy Wasserman, 2025-11-12 This handbook provides an overview of the disciplines of textual criticism of the Hebrew Bible and the New Testament as practiced in the twenty-first century. The first part deals with overarching issues like the formation of the Jewish and Christian canons; philosophical presuppositions in the methods and goals of textual criticism; the complex relationship between literary criticism and textual criticism; and how the related fields of Book History, New/Material Philology, and paratextual criticism both pose challenges and enrich traditional biblical textual criticism. The second part is concerned with the textual criticism of the books of the Hebrew Bible, a field which has undergone a paradigm shift in the seventy-five years since the discovery of the Judean Desert scrolls. The chapters concern the history of textual criticism, the bodies of textual evidence and their importance for the text-critical task, the three critical edition projects now underway, and the explosion of digital tools in the twenty-first century. This part also includes chapters on the Deuterocanon and Septuagint textual criticism. The final part concerns the textual criticism of the New Testament and provides chapters concerned with the history of the discipline, the Greek manuscripts and the indirect evidence of the text in early versions and citations, as well as past and current methods for evaluating this evidence including the Coherence-Based Genealogical Method (CBGM) which is used to produce the Editio Critica Maior and Nestle-Aland/UBS editions. Notably, this handbook features two chapters devoted to the teaching of textual criticism of the Hebrew Bible and New Testament

Daran hat sich bis heute wenig geändert. Auch der derzeitige Papst Benedikt XVI., der ehemalige Kardinal Ratzinger (von 1981 bis 2005 Vorsitzender - Präfekt - der Kongregation für die Glaubenslehre und damit auch moderner Großinquisitor am Heiligen Stuhl bzw. der vatikanischen Römischen Kurie) hält nicht viel von der toleranten, humanitären Vereinigung der Freimaurer. Warum diese Angst, warum diese Feindschaft? Wie sehen Kirchenfürsten und prominente Freimaurer diese Entwicklungen? Das untersucht Harald Schrefler, promovierter Historiker, Soziologe und Religionswissenschaftler, in dem vorliegenden Buch.

tau codex pdf: Studien zum Text der Apokalypse Marcus Sigismund, Martin Karrer, Ulrich Schmid, 2015-10-29 Derzeit wird die Editio critica maior der Apokalypse vorbereitet, die manche Änderung am Text bringen wird. Die Beiträge des Bandes widmen sich Fragen, die der Edition vorausgehen müssen. Sie prüfen Charakteristika von Handschriften, angefangen bei Marginalien und bis hin zum Ort der Apk in Codices. Sie untersuchen die beiden für die Neuzeit grundlegenden Editionen, den Erasmus-Text samt seinen Auswirkungen auf Apk-Handschriften und den sog. Complutense-Text der Apk. Sie wenden sich exemplarisch für die alten Übersetzungen der Apk, die textgeschichtlich relevant sind, dem Lateinischen, Sahidischen, Äthiopischen und Nubischen zu. Sie sprechen schließlich ein besonderes Problem an: Da die Apk eine semitisierende Rhetorik pflegt, klang sie in der Überlieferung vielleicht manchmal so befremdend, dass sekundäre Schreibfehler als

Grundtext erachtet wurden. Daher ist die semitisierend-griechische Stilistik des Werks zu prüfen, bevor die künftige Edition weiterhin die derzeit große Zahl grammatischer und syntaktischer Verstöße im Text erlaubt. Am Ende des Bandes steht schließlich ein Beitrag zu Text und Illustration der Apk. Alle Beiträge führen die Kenntnis über die Textgeschichte der Apk erheblich weiter.
