the chariots of the gods pdf: Chariots of the Gods Erich Von Daniken, 1999-01-01 THE SEVEN MILLION COPY BESTSELLER AS SEEN ON ANCIENT ALIENS • The groundbreaking classic that introduced the theory that ancient Earth established contact with aliens. Immediately recognized as a work of monumental importance, Chariots of the Gods endures as proof that Earth has been visited repeatedly by advanced aliens from other worlds. Here, Erich von Däniken examines ancient ruins, lost cities, spaceports, ufos, and a myriad of hard scientific facts that point to extraterrestrial intervention in human history. Most incredible of all, however, is von Däniken's theory that we are the descendants of these galactic pioneers—and he reveals the archeological discoveries that prove it... The dramatic discoveries and irrefutable evidence: • An alien astronaut preserved in a pyramid • Thousand-year-old spaceflight navigation charts • Computer astronomy from Incan and Egyptian ruins • A map of the land beneath the ice cap of Antarctica • A giant spaceport discovered in the Andes Includes remarkable photos that document mankind's first contact with aliens at the dawn of civilization.

the chariots of the gods pdf: Judas and the Twins Henry Berg, 2025-02-12 To question if Jesus really was born in Bethlehem is actually quite common, because it is suspected that the early church wanted him to be born in the same town as the legendary King David. On the other hand, it is quite unusual to doubt that Jesus died in Jerusalem, so putting his death to Rome on the Capitoline Hill (named after the skull of Tolus) is almost pathetic... but if art can be defined as something that makes something pathetic less pathetic, then maybe that's exactly what this book does. It's not to be overlooked that this is a book for people who like to take on a challenge... and in that sense this is also a crime novel.

the chariots of the gods pdf: The Strong Delusion John W. Milor, 2017-02-20 John Milors fascinating work is based on the Bible telling of a powerful deception that will overshadow the Earth, a deception so intense that only those with a genuine love relationship with God will be able to endure it. Events from the authors own life, including a series of supernatural encounters, have revealed some key components of this strong delusion, which he believes will initiate a grand display of open contact with extraterrestrials. It will also involve the global rise of Islam. Its no mistake that the faiths of four billion people (Christians and Muslims) include two versions of prophetic visions that are nearly identical, yet they represent opposite sides of a global conflict that will end in the Battle of Armageddon. This book delves into myriad topics, including: Encounters with angels, otherworldly beings, and Jesus Christ; Encounters with demons, ghosts, nephilim, jinns, and mythical creatures; The Bibles explanation of ET good guys and bad guys; The Quran and Hadiths ET connection: Was Muhammad abducted as a boy, and operated on? Was the angel that abducted Muhammad really Gabriel? Were the mysterious jinns of Islam actually surviving nephilim? Is the Quran and Hadiths ideology specifically tailored for the Antichrist? These and other topics harken to ancient times and peer into a not-too-distant future, when the author believes we will see a return to the days of Noah, as prophesied by Jesus.

the chariots of the gods pdf: From Eden to Exile Eric H. Cline, 2012-12-04 Eric H. Cline uses the tools of his trade to examine some of the most puzzling mysteries from the Hebrew Bible and, in the process, to narrate the history of ancient Israel. Combining the academic rigor that has won the respect of his peers with an accessible style that has made him a favorite with readers and students alike, he lays out each mystery, evaluates all available evidence—from established fact to arguable assumption to far-fetched leap of faith—and proposes an explanation that reconciles Scripture, science, and history. Numerous amateur archaeologists have sought some trace of Noah's Ark to meet only with failure. But, though no serious scholar would undertake such a literal search, many agree that the Flood was no myth but the cultural memory of a real, catastrophic inundation, retold and reshaped over countless generations. Likewise, some experts suggest that Joshua's storied victory at Jericho is the distant echo of an earthquake instead of Israel's sacred trumpets—a fascinating, geologically plausible theory that remains unproven despite the best efforts of scientific research. Cline places these and other Biblical stories in solid archaeological and historical context, debunks more than a few lunatic-fringe fantasies, and reserves judgment on ideas that cannot yet be confirmed or denied. Along the way, our most informed understanding of ancient Israel comes alive with dramatic but accurate detail in this groundbreaking, engrossing, entertaining book by one of the rising stars in the field.
