the diary of anne frank act 1 answer key: Dublin Nazi No. 1 Gerry Mullins, 2013-04-15 In the 1930s, Dr Adolf Mahr was head of the National Museum of Ireland, where he earned the title 'the father of Irish archaeology'. He was also the head of the Nazi Party in Ireland, and was dubbed 'Dublin Nazi No. 1'. Under pressure from Irish and British military intelligence, he left for Germany shortly before the outbreak of war in 1939, never to return. To this day, he is considered in some circles to have been a spy who used his position at the museum to help prepare Germany's invasion plan of Ireland. During the war, he became director of Irland-Redaktion, the German propaganda radio service that broadcast into neutral Ireland. He was later arrested and tortured by the British, and upon his release tried to return to Ireland, but to no avail. He remains one of the most controversial figures in twentieth-century Irish history.

the diary of anne frank act 1 answer key: Lessons and Legacies I Peter Hayes, 1991-08-01 Nearly half a century after the Nazi massacre of the Jews in Europe, the Holocaust is now moving from the domain of experience to that of history. It is becoming the subject of recorded rather than living memory. Is real comprehension of the development and horror of the Nazi onslaught accessible to us? If so, through what intellectual processes or categories of understanding, and in the face of what temptations or diversions? How can we preserve, expand, and apply our knowledge of why and how barbarity came to prevail? What meaning can present and future generations derive from the catastrophe? These are the vital questions addressed by the essays in this volume.

the diary of anne frank act 1 answer key: The Holocaust, Religion, and the Politics of Collective Memory Ronald J. Berger, 2017-07-05 The program of extermination Nazis called the Final Solution took the lives of approximately six million Jews, amounting to roughly 60 percent of

European Jewry and a third of the world's Jewish population. Studying the Holocaust from a sociological perspective, Ronald J. Berger explains why the Final Solution happened to a particular people for particular reasons; why the Jews were, for the Nazis, the central enemy. Taking a unique approach in its examination of the devastating event, *The Holocaust, Religion, and the Politics of Collective Memory* fuses history and sociology in its study of the Holocaust. Berger's book illuminates the Holocaust as a social construction. As historical scholarship on the Holocaust has proliferated, perhaps no other tragedy or event has been as thoroughly documented. Yet sociologists have paid less attention to the Holocaust than historians and have been slower to fully integrate the genocide into their corpus of disciplinary knowledge and realize that this monumental tragedy affords opportunities to examine issues that are central to main themes of sociological inquiry. Berger's aim is to counter sociologists who argue that the genocide should be maintained as an area of study unto itself, as a topic that should be segregated from conventional sociology courses and general concerns of sociological inquiry. The author argues that the issues raised by the Holocaust are central to social science as well as historical studies.

the diary of anne frank act 1 answer key: *Fathoming the Holocaust* Ronald J. Berger, *Fathoming the Holocaust* represents the culmination of a singular effort to attempt to explain the Final Solution to the Jewish Problem in terms of a general theory of social problems construction. The book is comprehensive in scope, covering the origins and emergence of the Final Solution, wartime reaction to it, and the postwar memory of the genocide. It does so within the framework of a social problems construction, a perspective that treats social problems not as a condition but as an activity that identifies and defines problems, persuades others that something must be done about them, and generates practical programs of remedial action. Berger holds that social problems have a natural history, that is, they evolve through a sequence of stages that entail the development and unfolding of claims about problems and the formulation and implementation of solutions. *Fathoming the Holocaust* is therefore a book that aims to advance sociological understanding of the Holocaust, not simply to describe its history, but to examine its social construction, that is, to understand it as a consequence of concerted human activity. In doing so, Berger hopes to encourage the teaching of the Holocaust in the social scientific curricula of higher education. In contrast to the extensive historical literature on the Holocaust, Berger offers a distinctly sociological approach that examines how the Holocaust was constructed--first as a social policy designed by the Nazis, implemented by functionaries, and resisted by its victims and opponents; later as several varying layers of historical memory. The scope of this book extends from the prewar through the contemporary periods, focusing on the societal issues governing the interpreting of these events in Israel, the German Federal Republic, and the United States. Berger's is a text with both large general interest and essential material for courses in social problems, European history, and Jewish studies. Ronald J. Berger, professor of sociology at the University of Wisconsin-Whitewater, has previously published six books and numerous articles and book chapters. His earlier book on the Holocaust was a sociological account of his father and uncle's survival experiences.
