young frankenstein script: *Madeline Kahn* William V. Madison, 2015-04-29 Best known for her Oscar-nominated roles in the smash hits *Paper Moon* and *Blazing Saddles*, Madeline Kahn (1942-1999) was one of the most popular comedians of her time—and one of the least understood. In private, she was as reserved and refined as her characters were bold and bawdy. Almost a Method actor in her approach, she took her work seriously. When crew members and audiences laughed, she asked why—as if they were laughing at her—and all her life she remained unsure of her gifts. William V. Madison examines Kahn's film career, including not only her triumphs with Mel Brooks and Peter Bogdanovich, but also her overlooked performances in *The Adventure of Sherlock Holmes' Smarter Brother* and *Judy Berlin*, her final film. Her work in television—notably her sitcoms—also

comes into focus. New York theater showered her with accolades, but also with remarkably bad luck, culminating in a disastrous outing in *On the Twentieth Century* that wrecked her reputation on Broadway. Only with her Tony-winning performance in *The Sisters Rosensweig*, fifteen years later, did Kahn regain her standing. Drawing on new interviews with family, friends, and such colleagues as Lily Tomlin, Carol Burnett, Gene Wilder, Harold Prince, and Eileen Brennan, as well as archival press and private writings, Madison uncovers Kahn's lonely childhood and her struggles as a single woman working to provide for her erratic mother. Above all, Madison reveals the paramount importance of music in Kahn's life. A talented singer, she entertained offers for operatic engagements long after she was an established Hollywood star, and she treated each script as a score. As Kahn told one friend, her ambition was "to be the music."

young frankenstein script: Theatrical Liberalism Andrea Most, 2013-05-20 "Makes new sense of aspects of popular culture we have all grown up with and thought we knew only too well. Most bridges religious studies and theater, political theory and American studies, high criticism and middlebrow performance. Her book will help us see better how Jews and their Jewishness did not merely 'enter' American popular culture, but did so much to invent it."—Jonathan Boyarin Leonard and Tobee Kaplan Distinguished Professor of Modern Jewish Thought, University of North Carolina For centuries, Jews were one of the few European cultures without any official public theatrical tradition. Yet in the modern era, Jews were among the most important creators of popular theater

and film—especially in America. Why? In *Theatrical Liberalism*, Andrea Most illustrates how American Jews used the theatre and other media to navigate their encounters with modern culture, politics, religion, and identity, negotiating a position for themselves within and alongside Protestant American liberalism by reimagining key aspects of traditional Judaism as theatrical. Discussing works as diverse as the Hebrew Bible, *The Jazz Singer*, and *Death of a Salesman*—among many others—Most situates American popular culture in the multiple religious traditions that informed the worldviews of its practitioners. Offering a comprehensive history of the role of Judaism in the creation of American entertainment, *Theatrical Liberalism* re-examines the distinction between the secular and the religious in both Jewish and American contexts, providing a new way of understanding Jewish liberalism and its place in a pluralist society. With extensive scholarship and compelling evidence, *Theatrical Liberalism* shows how the Jewish worldview that permeates American culture has reached far beyond the Jews who created it.
