camp of the saints pdf: Dangerous Fictions Lyta Gold, 2025-10-14 In a political moment when social panics over literature are at their peak, *Dangerous Fictions* is a mind-expanding treatise on the nature of fictional stories as cultural battlegrounds for power. Fictional stories have long held an uncanny power over hearts and minds, especially those of young people. In *Dangerous Fictions*, Lyta Gold traces arguments both historical and contemporary that have labeled fiction as dark, immoral, frightening, or poisonous. Within each she asks: How "dangerous" is fiction, really? And what about it provokes waves of moral panic and even censorship? Gold argues that any panic about art is largely a disguised panic about power. There have been versions of these same fights over fiction for centuries. By exposing fiction as a social danger and a battleground of immediate public concern, we can see what each side really wants—the right to shape the future of a world deeply in flux and a distraction from more pressing material concerns about money, access, and the hard work of politics. From novels about people driven insane by reading novels to "copaganda" TV shows that influence how viewers regard the police, Gold uses her signature wit, research, and fearless commentary to point readers toward a more substantial question: Fiction may be dangerous to us, but aren't we also dangerous to it?

camp of the saints pdf: Open Borders Inc. Michelle Malkin, 2019-09-10 Michelle Malkin's latest book is required reading for anyone wishing to understand the forces and interests behind the open borders and mass migration lobby. —Pawel Styrna, *ImmigrationReform.com* Follow the money, find the truth. That's Michelle Malkin's journalistic mantra, and in her stunning new book, *Open Borders Inc.*, she puts it to work with a shocking, comprehensive exposé of who's behind our immigration crisis. In the name of compassion—but driven by financial profit—globalist elites, Silicon Valley, and the radical Left are conspiring to undo the rule of law, subvert our homeland security, shut down free speech, and make gobs of money off the backs of illegal aliens, refugees, and low-wage guest workers. Politicians want cheap votes or cheap labor. Church leaders want pew-fillers and collection plate donors. Social justice militants, working with corporate America, want to silence free speech they deem "hateful," while raking in tens of millions of dollars promoting mass, uncontrolled immigration both legal and illegal. Malkin names names—from Pope Francis to George Clooney, from George Soros to the Koch brothers, from Jack Dorsey to Tim Cook and Mark Zuckerberg. Enlightening as it is infuriating, *Open Borders Inc.* reveals the powerful forces working to erase America.

Doan, 2019-06-04 *Utopia and Dystopia in the Age of Trump: Images from Literature and Visual Arts* treats literature, film, television series, and comic books dealing with utopian and dystopian worlds reflecting on or anticipating our current age. From Henry James's dreamlike utopia of "The Great Good Place" to the psychotic world of Brett Easton Ellis's *American Psycho*, from science fiction and recent horror films, television adaptations of books such as Margaret Atwood's *The Handmaid's Tale*, and new series such as *Black Mirror* to the repressive Hitlerian dystopia of Katherine Burdekin's *Swastika Night*, the contributors examine the development of scenarios that

either prefigure the rise of individuals such as Donald J. Trump or suggest alternatives to them. Focusing on the United States, Europe, and Asia, the authors examine the demographic dimensions of political conflict and the societal changes driven by aging populations and decreasing fertility rates. These regions, at the forefront of unprecedented demographic transitions, reveal how population trends have been co-opted to serve political agendas that transform population debates into battlegrounds for broader ideological struggles.

camp of the saints pdf: Homegrown Hate Sara Kamali, 2022-04-19 Why are American citizens--white nationalists and militant Islamists--committing acts of terrorism against their own country? By examining the self-described grievances, beliefs, and rationales of the individuals who subscribe to these ideologies and detailing their respective organizational structures, scholar and activist Sara Kamali provides compelling insight into the true threat to homeland security: American citizens who are targeting the United States in accordance with their respective narratives of holy war. She expertly explains what can be done, lucidly providing hope in uncertain and divisive times. Innovative and engaging, *Homegrown Hate* is an indispensable resource for students, policy makers, and anyone who cares about the future of the United States--.

camp of the saints pdf: Merchants of Labor Philip Martin, 2017-07-21 Some 10 million migrant workers cross national borders each year and, if they pay an average \$1,000 to recruiters, moving workers over borders is a \$10 billion a year business. *Merchants of Labor* examines the businesses that move low-skilled workers over national borders, asking how much they collect from migrant workers and what can be done to reduce worker-paid migration costs. For-profit recruiters are likely to be an enduring feature of international labor migration, which makes developing tools to improve the management of their activities ever more crucial. The UN recognized in the Sustainable Development Goals for 2030 the need to measure what workers pay to get jobs in other countries with the goal of reducing worker-paid costs so that workers and their families can benefit more from international labor migration. Using cost data from over 3,000 workers, *Merchants of Labor* examines the often murky world of labor brokers, travel agents, and others who move low-skilled workers from one country to another in order to explore lower worker-paid migration costs. It explains the three core functions of labor markets— recruitment, remuneration, and retention— and shows how national borders increase recruitment costs. New data on what workers pay to get jobs in other countries are presented, and incentives to complement enforcement are explored as a way to induce recruiters to protect migrant workers.

camp of the saints pdf: Natives against Nativism Olivia C. Harrison, 2023-04-04 Examining

the intersection of Palestine solidarity movements and antiracist activism in France from the 1970s to the present. For the past fifty years, the Palestinian question has served as a rallying cry in the struggle for migrant rights in postcolonial France, from the immigrant labor associations of the 1970s and Beur movements of the 1980s to the militant decolonial groups of the 2000s. In *Natives against Nativism*, Olivia C. Harrison explores the intersection of anticolonial solidarity and antiracist activism from the 1970s to the present. *Natives against Nativism* analyzes a wide range of texts—novels, memoirs, plays, films, and militant archives—that mobilize the twin figures of the Palestinian and the American Indian in a crossed critique of Eurocolonial modernity. Harrison argues that anticolonial solidarity with Palestinians and Indigenous Americans has been instrumental in developing a sophisticated critique of racism across imperial formations—in this case, France, the United States, and Israel. Serving as the first relational study of antiracism in France, *Natives against Nativism* observes how claims to indigeneity have been deployed in multiple directions, both in the ongoing struggle for migrant rights and racial justice, and in white nativist claims in France today.

camp of the saints pdf: The Oxford Handbook of Illiberalism Marlène Laruelle, 2024 From the rise of populist leaders and the threat of democratic backsliding to polarizing culture wars and the return of great power competition, the backlash against the political, economic, and social liberalism is increasingly labeled illiberal. Yet, despite the increasing importance of these phenomena, scholars still lack a firm grasp on illiberalism as a conceptual tool for understanding societal transformations. The *Oxford Handbook of Illiberalism* addresses this gap by establishing a theoretical foundation for the study of illiberalism and showcasing state-of-the-art research on this phenomenon in its varied scripts—political, economic, cultural, and geopolitical. Bringing together the expertise of dozens of scholars, the *Oxford Handbook of Illiberalism* offers a thorough overview that characterizes the current state of the field and charts a path forward for future scholarship on this critical and quickly developing concept.

camp of the saints pdf: Hate Crimes Barbara Perry, 2009-03-05 This book offers a comprehensive approach to understanding hate crime, its causes, consequences, prevention, and prosecution. Hate crimes continue to be a pervasive problem in the United States. The murder of Matthew Shepard, the lynching of James Byrd, the murderous rampage of Benjamin Smith, and anti-Muslim violence remind us that incidence of deadly bigotry is not only a recurring chapter in U.S. history, but also a part of our present-day world. Contrary to common belief, hate mongers who commit crimes are rarely members of the Ku Klux Klan or a skinhead group. In fact, fewer than 5 percent of identifiable offenders are members of organized hate groups. Yet rather than being an individual crime, hate crime represents an assault against all members of stigmatized and marginalized communities. To fully understand the phenomenon of hate crime and reduce its incidence, it is necessary to clearly define the term itself, to examine the victims and the offenders, and to evaluate the consequences and harms of hate crimes. This comprehensive five-volume set carefully addresses the disturbing variety and incidence of hate crimes, exposing their impacts on the broader realms of crime, punishment, individual communities, and society. The contributing authors and editors pay critical attention to cutting-edge topics such as online hate crimes, hate-based music, anti-Latino hostilities, Islamophobia, hate crimes in the War on Terror, school-based anti-hate initiatives, and more. The final volume of *Hate Crimes* provides valuable food for thought on possible legislative, educational, social policy, or community organizational responses to the varied forms of hate crime.

camp of the saints pdf: Fortress Europe Matthew Carr, 2016-01-12 Singled out by Foreign Affairs for its reporting on “the brutal frontiers of new Europe,” *Fortress Europe* is the story of how the world's most affluent region—and history's greatest experiment with globalization—has become an immigration war zone, where tens of thousands have died in a humanitarian crisis that has galvanized the world's attention. Journalist Matthew Carr brings to life remarkable human dramas, based on extensive interviews and firsthand reporting from the hot zones of Europe's immigration battles, in a narrative that moves from the desperate immigrant camps at the mouth of the Channel

Tunnel in Calais, France, to the chaotic Mediterranean sea, where African migrants have drowned by the thousands. Speaking with key European policy makers, police, soldiers on the front lines, immigrant rights activists, and an astonishing range of migrants themselves, Carr offers a lucid account both of the broad issues at stake in the crisis and its exorbitant human costs. The paperback edition includes a new afterword by the author, which offers an up-to-the-minute assessment of the 2015 crisis and a searing critique of Europe's response to the new waves of refugees.

camp of the saints pdf: Understanding Migrant Decisions Belachew Gebrewold, Tendayi Bloom, 2016-06-10 Examining how changing conditions in the Mediterranean Region have affected the decisions of those considering migrating from Sub-Saharan Africa to or through the Region, this book represents an important and overdue contribution to international policy-making and academic discourse. In current discussions relating to this migration phenomenon, the complexity of individual decision-making is often left unacknowledged, so that subsequent policy responses draw upon simplified models. In this volume, individual decision-making takes central stage by bringing together chapters that demonstrate very different types of decision-making frameworks. In this project, it is highlighted that people move for a variety of reasons such as being affected by conflict and insecurity, by economic pressures, and by desire for other forms of enrichment. Throughout, the book's contributors find that events in the Mediterranean cannot be considered alone in understanding migration decision-making from Sub-Saharan Africa, but as part of an increasingly complicated global system not encompassed by one simplified theory or by looking at one regional context in isolation. Knowing why individual people are moving and how they decide upon which routes to take can help to ensure policy that promotes safer travel options, or makes genuine alternatives to migration available.

camp of the saints pdf: Religion and the Populist Radical Right: Secular Christianity and Populism in Western Europe Nicholas Morieson, 2021-07-06 In Western Europe, populist radical right parties are calling for a return to Christian or Judeo-Christian values and identity. The growing electoral success of many of these parties may suggest that, after decades of secularisation, Western Europeans are returning to religion. Yet these parties do not tell their supporters to go to church, believe in God, or practise traditional Christian values. Instead, they claim that their respective national identities and cultures are the product of a Christian or Judeo-Christian tradition which either encompasses—or has produced—secular modernity. This book poses the question: if Western European politics is secular, why has religious identity become a core element of populist radical right discourse? To answer this question, Morieson examines the discursive use of religion by two of the most powerful and influential populist radical right parties: The French National Front and the Dutch Party for Freedom. Based on this examination, he argues that the populist radical right has capitalised on a cultural shift engendered by the increasing visibility of Islam in Europe. Western Europeans' encounter with Islam has revealed the non-universal nature of Western European secularism to Europeans, and demonstrated the secularisation of Christianity into Western European 'culture.' This, in turn, has allowed secular French and Dutch citizens to identify themselves—as well as their nation and, ultimately, Western civilisation—as Christian or Judeo-Christian. Seizing on this cultural shift, the author contends that the National Front and Party for Freedom have built successful and similar brands of reactionary politics based on the notion that contemporary secularism is a product of Europe's Christian heritage and values, and that therefore Muslim immigration is an existential threat to the core values of European politics, including the differentiation of politics and religion, and of church and state. 'Religion and the Populist Radical Right: Secular Christianity and Populism in Western Europe' will be of interest to scholars and researchers working on the intersections of Political Science, Sociology, and Religion. It will also appeal to the general audience interested in the relationship between populism in Western Europe and religious identity as it is written in an accessible style.

camp of the saints pdf: Europe: Continent of Conspiracies Andreas Önnarfors, André Krouwel, 2021-04-29 This edited volume investigates for the first time the impact of conspiracy theories upon the understanding of Europe as a geopolitical entity as well as an imagined political and cultural space. Focusing on recent developments, the individual chapters explore a range of conspiratorial positions related to Europe. In the current climate of fear and threat, new and old imaginaries of conspiracies such as Islamophobia and anti-Semitism have been mobilised. A dystopian or even apocalyptic image of Europe in terminal decline is evoked in Eastern European and particularly by Russian pro-Kremlin media, while the EU emerges as a screen upon which several narratives of conspiracy are projected trans-nationally, ranging from the Greek debt crisis to migration, Brexit and the COVID-19 pandemic. The methodological perspectives applied in this volume range from qualitative discourse and media analysis to quantitative social-psychological approaches, and there are a number of national and transnational case studies. This book will be of great interest to students and researchers of extremism, conspiracy theories and European politics.

camp of the saints pdf: Global Heating and the Australian Far Right Imogen Richards, Gearóid Brinn, Callum Jones, 2023-12-01 *Global Heating and the Australian Far Right* examines the environmental politics of far-right actors and movements in Australia, exploring their broader political context and responses to climate change. The book traces the development of far-right pseudo-environmentalism and territorial politics, from colonial genocide and Australian nationalism to extreme-right political violence. Through a critical analysis of news and social media, it reveals how denialist and resignatory attitudes towards climate change operate alongside extreme right accelerationism, in a wider Australian political context characterised by reactionary fossil fuel politics and neoliberal New Right climate change agendas. The authors scrutinise the manipulation of environmental politics by contemporary Australian far- and extreme-right actors in cross-national online media. They also assess the political-ideological context of the contemporary far right, addressing intergovernmental approaches to security threats connected to the far right and climate change, and the emergence of radical environmentalist traditions in 'New Catastrophism' literature. The conclusion synthesises key insights, analysing the mainstreaming of ethnonationalist and authoritarian responses to global heating, and potential future trajectories of far-right movements exploiting the climate crisis. It also emphasises the necessity for radical political alternatives to counter the far right's exploitation of climate change. This book will be of interest to researchers of climate change, the far right, neoliberal capitalism, extremism and Australian politics.

camp of the saints pdf: Bird on Fire Andrew Ross, 2011-10-27 Phoenix, Arizona is at once one of America's fastest growing cities and its least sustainable one. A sprawling megalopolis of more than five million souls, it is parched-the result of minimal rainfall and scorching heat. Yet historically, its population has been hostile to both placing limits on growth and restricting property

rights. In *Bird on Fire*, noted chronicler of contemporary social life Andrew Ross relies on Phoenix's to perform a paradoxical task: explain how we can establish sustainable urban living in this most unsustainable of cities. The vast majority of authors writing on sustainable cities focus on places like Portland, New York, and various west European cities that have excellent public transit systems and high density. Ross does the opposite, and contends that if we can't make fast-growing cities like Phoenix sustainable, then the whole movement is has a major problem. In the course of tracing how it grew and explaining why it is so unsustainable, he considers how it might become sustainable. He contends that if Phoenix is to achieve this goal, it will occur primarily through political and social change--greater civic engagement, democratic inclusion, and socially just policies--rather than through technological fixes. Technological fixes are not unimportant, but for them to work we first must rearrange our social and political arrangements. In sum, *Bird on Fire* provides a truly fascinating window into one of the pressing social issues of our time--finding pathways to sustainability in an era of increasing energy consumption and sprawl.
