death of salesman pdf: Losing It Dorothy Chansky, 2023-08-09 This monograph is a study of American (U.S.) stage representations of dementia mounted between 1913 and 2019. Its imbricated strands are playtexts; audiences as both the targets of the productions (artifacts in the marketplace) and as anticipated determinants of legibility; and medical science, both as has been (and is) known to researchers and, more importantly, as it has been (and is) known to educated general audiences. As the Baby Boom generation finds itself solidly in the category of "Senior," interest in plays that address personal and social issues around cognitive decline as a potentially frightening and expensive experience, no two iterations of which are identical, have, understandably, burgeoned. This study shines a spotlight on eleven dementia plays that have been produced in the United States over the past century, and seeks, in the words of medical humanities scholar Anne Whitehead, to "open up, and to hold open, central ethical questions of responsiveness, interpretation, responsibility, complicity and care."

death of salesman pdf: The Sinking Middle Class David Roediger, 2022-06-21 The Sinking Middle Class challenges the "save the middle class" rhetoric that dominates our political imagination. The slogan misleads us regarding class, nation, and race. Talk of middle class salvation reinforces myths holding that the US is a providentially middle class nation. Implicitly white, the middle class becomes viewed as unheard amidst supposed concerns for racial justice and for the poor. Roediger shows how little the US has been a middle class nation. The term seldom appeared in US writing before 1900. Many white Americans were self-employed, but this social experience separated them from the contemporary middle class of today, overwhelmingly employed and surveilled. Today's highly unequal US hardly qualifies as sustaining the middle class. The idea of the US as a middle class place required nurturing. Those doing that ideological work—from the business

press, to pollsters, to intellectuals celebrating the results of free enterprise—gained little traction until the Depression and Cold War expanded the middle class brand. Much later, the book's sections on liberal strategist Stanley Greenberg detail, "saving the middle class" entered presidential politics. Both parties soon defined the middle class to include over 90% of the population, precluding intelligent attention to the poor and the very rich. Resurrecting radical historical critiques of the middle class, Roediger argues that middle class identities have so long been shaped by debt, anxiety about falling, and having to sell one's personality at work that misery defines a middle class existence as much as fulfillment.

death of salesman pdf: The Rhetoric of Intention in Human Affairs Gary C. Woodward, 2013-09-12 The Rhetoric of Intention in Human Affairs is an insightful account of the rhetorical and psychological habits we exhibit when we must explain the reasons others act. The assumption that we can know what motivates another person is fed by more hope than certainty, and yet it is evidence of a very human impulse. Beginning with a clear template for defining various tiers of motives-talk, this innovative and accessible study moves through a series of chapters exploring the unique demands imposed by different circumstances. These sections cut a wide swath of analysis across a diverse range of human actors including: conspiracy theorists who find the designs of coordinated agents behind random events, theater performers creating "backstories" for their characters, journalists grasping to name the motives of newsmakers, prosecutors who must establish another's intent in order to prove a criminal act, and the devout who grapple with what divine intervention can mean in a cruel world. Readers will recognize themselves in these pages, gaining an appreciation for the rhetorical analysis of human behavior.

death of salesman pdf: John Berger Iona Heath, 2024-07-13 Iona Heath relates the importance that John Berger's work and friendship had on her working life as a GP. It includes extracts from letters that span 20 years of her correspondence with John Berger. In this book, Iona Heath writes about reading John Berger's writing over more than 50 years and her friendship and correspondence with him over the best part of 20 years. Dr Heath found that both of these interacted profoundly with her work as a general practitioner in a deprived urban area in London. For Iona Heath, general practice is a quite extraordinary undertaking: every working day, sitting with a succession of unique individuals, each worried about some aspect of their health or life circumstances, many burdened by unspoken fears, and each seeking some form of answer. Starting with *A Fortunate Man*, when she was an ignorant but hopeful undergraduate medical student, she found reading John Berger on any subject had something new to tell her about the aspirations and detail of her work: clues about how to look and how to listen and much else. Later when they started to correspond, Iona Heath found herself in the privileged position of being able to check her understanding directly with the writer and on each occasion found deeper levels of awareness and insight. She is convinced that reading John Berger made her a better doctor.

death of salesman pdf: Identity and Theatre Translation in Hong Kong Shelby Kar-yan Chan, 2015-04-14 In this book, Shelby Chan examines the relationship between theatre translation and identity construction against the sociocultural background that has led to the popularity of translated theatre in Hong Kong. A statistical analysis of the development of translated theatre is presented, establishing a correlation between its popularity and major socio-political trends. When the idea of home, often assumed to be the basis for identity, becomes blurred for historical, political and sociocultural reasons, people may come to feel homeless and compelled to look for alternative

means to develop the Self. In theatre translation, Hongkongers have found a source of inspiration to nurture their identity and expand their home territory. By exploring the translation strategies of various theatre practitioners in Hong Kong, the book also analyses a number of foreign plays and their stage renditions. The focus is not only on the textual and discursive transfers but also on the different ways in which the people of Hong Kong perceive their identity in the performances.

death of salesman pdf: *El Curso de la Raza* Thomas Ray Garcia, Aurelio Montemayor, 2023-12-14 *El Curso de la Raza: The Education of Aurelio Manuel Montemayor* tells the story of Chicano activist and self-described fronterizo Aurelio Manuel Montemayor, whose dual identities as an educator and political organizer informed his hitherto little-known role in developing a course, or curso, that cultivated Chicano leadership from the barrios. This memoir follows Montemayor during the formative periods of his life—his education, his teaching career, his political awakening—to describe the development of his critical consciousness in 1960s America. The book combines the personal and the political, leading readers along a journey of self-discovery that results in Montemayor's most consequential, yet relatively unknown, contribution to el movimiento, the Curso de la Raza. Along the way, Montemayor grapples with his Mexican and American identities, foregoes his literary pursuits in favor of uplifting la raza, and navigates the pitfalls of movement politics. From marching with the Mexican American Youth Organization to cofounding the first independent Chicano college, Colegio Jacinto Treviño, he recounts lesser-known events and projects of Chicano activism in South Texas. In doing so, he provides a more complete portrait of the Chicano movement through the lens of an educator-turned-activist from the borderlands. In *El Curso de la Raza*, Montemayor contextualizes his critical consciousness for twenty-first-century audiences. Much like the goals of the Curso, the book aims to educate readers about deriving pedagogy from oppression, historicity from personality, and contemporary insights from past shortcomings.

death of salesman pdf: *Staging Technology* Craig N. Owens, 2021-01-28 Through an examination of a range of performance works ranging from Jean Cocteau's ballet *The Eiffel Tower Wedding Party* (1921) to Julie Taymor's monumental production of *Spider-Man: Turn off the Dark* (2010) and Mexican playwright Isaac Gomez's *La Ruta* (2018), *Staging Technology* asks what becomes visible when we encounter plays, operas, and musicals that are themselves about fraught human/machine interfaces. What can theatrical production tell us about the way technology functions as an element of ideology and power in narrative drama? About the limits of the human? *Staging Technology* bridges the divide between the technical practices of theatre production and critical, theoretical approaches to interpreting drama to examine the way dramatic theatre's technologies are shaped by larger historical, ideological, and economic forces. At the same time, it examines how those technologies themselves have influenced 20th and 21st-century playwrights', composers', and librettists' choice of subject matter for staged representation. Examining performance works from the modernist and post-modern European and American canon of drama,

opera, and performance art including works by Eugène Ionesco, Samuel Beckett, Heiner Müller, Sophie Treadwell, Harold Pinter, Tristan Tzara, Jean Cocteau, Arthur Miller, Robert Pinsky, John Adams and Alice Goodman, Staging Technology transforms how we think about the interrelationship between theatre practice, performance, narrative drama, and text. In it Craig N. Owens synthesizes approaches to interpretation and practice from disparate realms, offering insights into over-arching ways of making meaning that are illustrated through focused and innovative readings of individual works for the dramatic stage. Staging Technology provides a new and transformative paradigm for thinking about dramatic literature, the practices of representational theatre production, and the historical and social contexts they inhabit.
