Its influence is such that it is studied by students of literature around the world and is often cited as one of the most significant books of modern times. However, its popularity belies its difficulty: many find the novel hard to read, struggling with its structure and occasionally fragmented style. This guide is designed to help readers engage with this complex work and achieve a deeper understanding of its context, the literary strategies it employs, and the various ways in which it has been interpreted since its publication in 1987.

home toni morrison pdf: *Toni Morrison* Adrienne Lanier Seward, Justine Tally, 2014-08-12 Toni Morrison: Memory and Meaning boasts essays by well-known international scholars focusing on the author's literary production and including her very latest works—the theatrical production *Desdemona* and her tenth and latest novel, *Home*. These original contributions are among the first scholarly analyses of these latest additions to her oeuvre and make the volume a valuable addition to potential readers and teachers eager to understand the position of *Desdemona* and *Home* within the wider scope of Morrison's career. Indeed, in *Home*, we find a reworking of many of the tropes and themes that run throughout Morrison's fiction, prompting the editors to organize the essays as they relate to themes prevalent in *Home*. In many ways, Morrison has actually initiated paradigm shifts that permeate the essays. They consistently reflect, in approach and interpretation, the revolutionary change in the study of American literature represented by Morrison's focus on the interior lives of enslaved Africans. This collection assumes black subjectivity, rather than argues for it, in order to reread and revise the horror of slavery and its consequences into our time. The analyses presented in this volume also attest to the broad range of interdisciplinary specializations and interests in novels that have now become classics in world literature. The essays are divided into five sections, each entitled with a direct quotation from *Home*, and framed by two poems: Rita Dove's "The Buckeye" and Sonia Sanchez's "Aaayeee Babo, Aaayeee Babo, Aaayeee Babo."

home toni morrison pdf: Memory Frictions in Contemporary Literature María Jesús Martínez-Alfaro, Silvia Pellicer-Ortín, 2017-10-14 This volume explores the multifarious representational strategies used by contemporary writers to textualise memory and its friction areas through literary practices. By focusing on contemporary narratives in English from 1990 to the present, the essays in the collection delve into both the treatment of memory in literature and the view of literature as a medium of memory, paying special attention to major controversies attending the representation and (re)construction of individual, cultural and collective memories in the literary narratives published during the last few decades. By analysing texts written by authors of such diverse origins as Great Britain, South-Korea, the USA, Cuba, Australia, India, as well as Native-American Indian and African-American writers, the contributors to the collection analyse a good range of memory frictions—in connection with melancholic mourning, immigration, diaspora, genocide, perpetrator guilt, dialogic witnessing, memorialisation practices, inherited traumatic memories, sexual abuse, prostitution, etc.—through the recourse to various disciplines—such as psychoanalysis, ethics, (bio)politics, space theories, postcolonial studies, narratology, gender studies—, resulting in a book that is expected to make a ground-breaking contribution to a field whose possibilities have yet to be fully explored.

home toni morrison pdf: *The Long Road Home* Debra Thompson, 2022-09-06 INSTANT BESTSELLER FINALIST FOR THE HILARY WESTON WRITERS' TRUST PRIZE FOR NONFICTION From a leading scholar on the politics of race comes a work of family history, memoir, and insight

gained from a unique journey across the continent, on what it is to be Black in North America. When Debra Thompson moved to the United States in 2010, she felt like she was returning to the land of her ancestors, those who had escaped to Canada via the Underground Railroad. But her decade-long journey across Canada and the US transformed her relationship to both countries, and to the very idea of home. In *The Long Road Home*, Thompson follows the roots of Black identities in North America and the routes taken by those who have crisscrossed the world's longest undefended border in search of freedom and belonging. She begins in Shrewsbury, Ontario, one of the termini of the Underground Railroad and the place where members of her own family found freedom. More than a century later, Thompson still feels the echoes and intergenerational trauma of North American slavery. She was often the Only One—the only Black person in so many white spaces—in a country that perpetuates the national mythology of multiculturalism. Then she revisits her four American homes, each of which reveals something peculiar about the relationship between American racism and democracy: Boston, Massachusetts, the birthplace of the American Revolution; Athens, Ohio, where the white working class and the white liberal meet; Chicago, Illinois, the great Black metropolis; and Eugene, Oregon, the western frontier. She then moves across the border and settles in Montreal, a unique city with a long history of transnational Black activism, but one that does not easily accept the unfamiliar and the foreign into the fold. *The Long Road Home* is a moving personal story and a vital examination of the nuances of racism in the United States and Canada. Above all, it is about the power of freedom and the dreams that link and inspire Black people across borders from the perspective of one who has deep ties to, critiques of, and hope for both countries.

home toni morrison pdf: Goodness and the Literary Imagination Toni Morrison, 2019-10-01 What exactly is goodness? Where is it found in the literary imagination? Toni Morrison, one of American letters' greatest voices, pondered these perplexing questions in her celebrated Ingersoll Lecture, delivered at Harvard University in 2012 and published now for the first time in book form. Perhaps because it is overshadowed by the more easily defined evil, goodness often escapes our attention. Recalling many literary examples, from Ahab to Coetzee's Michael K, Morrison seeks the essence of goodness and ponders its significant place in her writing. She considers the concept in relation to unforgettable characters from her own works of fiction and arrives at conclusions that are both eloquent and edifying. In a lively interview conducted for this book, Morrison further elaborates on her lecture's ideas, discussing goodness not only in literature but in society and history—particularly black history, which has responded to centuries of brutality with profound creativity. Morrison's essay is followed by a series of responses by scholars in the fields of religion, ethics, history, and literature to her thoughts on goodness and evil, mercy and love, racism and self-destruction, language and liberation, together with close examination of literary and theoretical expressions from her works. Each of these contributions, written by a scholar of religion, considers the legacy of slavery and how it continues to shape our memories, our complicities, our outcries, our lives, our communities, our literature, and our faith. In addition, the contributors engage the religious orientation in Morrison's novels so that readers who encounter her many memorable characters such as Sula, *Beloved*, or Frank Money will learn and appreciate how Morrison's notions of goodness and mercy also reflect her understanding of the sacred and the human spirit.

home toni morrison pdf: Literary Geography Lynn M. Houston, 2019-08-02 This reference investigates the role of landscape in popular works and in doing so explores the time in which they were written. *Literary Geography: An Encyclopedia of Real and Imagined Settings* is an authoritative guide for students, teachers, and avid readers who seek to understand the importance of setting in interpreting works of literature, including poetry. By examining how authors and poets shaped their literary landscapes in such works as *The Great Gatsby* and *Nineteen Eighty-Four*, readers will discover historical, political, and cultural context hidden within the words of their favorite reads. The alphabetically arranged entries provide easy access to analysis of some of the most well-known and frequently assigned pieces of literature and poetry. Entries begin with a brief introduction to the featured piece of literature and then answer the questions: How is literary landscape used to shape

the story?; How is the literary landscape imbued with the geographical, political, cultural, and historical context of the author's contemporary world, whether purposeful or not? Pop-up boxes provide quotes about literary landscapes throughout the book, and an appendix takes a brief look at the places writers congregated and that inspired them. A comprehensive scholarly bibliography of secondary sources pertaining to mapping, physical and cultural geography, ecocriticism, and the role of nature in literature rounds out the work.

In this lyrical debut, Ryan Berg immerses readers in the gritty, dangerous, and shockingly underreported world of homeless LGBTQ teens in New York. As a caseworker in a group home for disowned LGBTQ teenagers, Berg witnessed the struggles, fears, and ambitions of these disconnected youth as they resisted the pull of the street, tottering between destruction and survival. Focusing on the lives and loves of eight unforgettable youth, *No House to Call My Home* traces their efforts to break away from dangerous sex work and cycles of drug and alcohol abuse, and, in the process, to heal from years of trauma. From Bella's fervent desire for stability to Christina's irrepressible dreams of stardom to Benny's continuing efforts to find someone to love him, Berg uncovers the real lives behind the harrowing statistics: over 4,000 youth are homeless in New York City -- 43 percent of them identify as LGBTQ. Through these stories, Berg compels us to rethink the way we define privilege, identity, love, and family. Beyond the tears, bluster, and bravado, he reveals the force that allows them to carry on -- the irrepressible hope of youth.

home toni morrison pdf: Bringing Law Home Katherine Eva Maich, 2025-08-05 The personal nature of domestic labor, and its location in the privacy of the employer's home, means that domestic workers have long struggled for equitable and consistent labor rights. The dominant

discourse regards the home as separate from work, so envisioning what its legal regulation would look like is remarkably challenging. In *Bringing Law Home*, Katherine Eva Maich offers a uniquely comparative and historical study of labor struggles for domestic workers in New York City and Lima, Peru. She argues that if the home is to be a place of work then it must also be captured in the legal infrastructures that regulate work. Yet, even progressive labor laws for domestic workers in each city are stifled by historically entrenched patterns of gendered racialization and labor informality. Peruvian law extends to household workers only half of the labor protections afforded to other occupations. In New York City, the law grants negligible protections and deliberately eschews language around immigration. Maich finds that coloniality is deeply embedded in contemporary relations of service, revealing important distinctions in how we understand power, domination, and inequality in the home and the workplace.

home toni morrison pdf: Contemporary Historical Fiction, Exceptionalism and Community Susan Strehle, 2020-10-19 This book analyzes a significant group of contemporary historical fictions that represent damaging, even catastrophic times for people and communities; written “after the wreck,” they recall instructive pasts. The novels chronicle wars, slavery, racism, child abuse and genocide; they reveal damages that ensue when nations claim an exalted, exceptionalist identity and violate the human rights of their Others. In sympathy with the exiled, writers of these contemporary historical fictions create alternative communities on the state’s outer fringes. These fictive communities include where the state excludes; they foreground relations of debt and obligation to the group in place of individualism, competition and private property. Rather than assimilating members to a single identity with a unified set of views, the communities open multiple possibilities for belonging. Analyzing novels from Britain, Australia and the U.S., along with additional transnational examples, Susan Strehle explores the political vision animating some contemporary historical fictions.

home toni morrison pdf: Home Rule Nandita Sharma, 2020-02-14 In *Home Rule* Nandita Sharma traces the historical formation and political separation of Natives and Migrants from the nineteenth century to the present to theorize the portrayal of Migrants as “colonial invaders.” The imperial-state category of Native, initially a mark of colonized status, has been revitalized in what Sharma terms the Postcolonial New World Order of nation-states. Under postcolonial rule, claims to autochthony—being the Native “people of a place”—are mobilized to define true national belonging. Consequently, Migrants—the quintessential “people out of place”—increasingly face exclusion, expulsion, or even extermination. This turn to autochthony has led to a hardening of nationalism(s). Criteria for political membership have shrunk, immigration controls have intensified, all while practices of expropriation and exploitation have expanded. Such politics exemplify the postcolonial politics of national sovereignty, a politics that Sharma sees as containing our dreams of decolonization. *Home Rule* rejects nationalisms and calls for the dissolution of the ruling categories of Native and Migrant so we can build a common, worldly place where our fundamental liberty to stay and move is realized.

home toni morrison pdf: When Chickenheads Come Home to Roost Joan Morgan, 2017-04-25 “Morgan has given an entire generation of Black feminists space and language to center their pleasures alongside their politics.” —Janet Mock, New York Times bestselling author of *Redefining Realness* “All that and then some, *Chickenheads* informs and educates, confronts and charms, raises the bar high by getting down low, and, to steal my favorite Joan Morgan phrase, bounced me out of the room.” —Marlon James, Man Booker Prize-winning author of *A Brief History of Seven Killings* Still as fresh, funny, and ferociously honest as ever, this piercing meditation on the fault lines between hip-hop and feminism captures the most intimate thoughts of the post-Civil Rights, post-feminist, post-soul generation. Award-winning journalist Joan Morgan offers a provocative and powerful look into the life of the modern Black woman: a complex world in which feminists often have not-so-clandestine affairs with the most sexist of men, where women who treasure their independence frequently prefer men who pick up the tab, where the deluge of baby mothers and babyfathers reminds Black women who long for marriage that traditional nuclear families are a

reality for less than forty percent of the population, and where Black women are forced to make sense of a world where truth is no longer black and white but subtle, intriguing shades of gray.

home toni morrison pdf: *Ethics and Aesthetics in Toni Morrison's Fiction* Mariangela Palladino, 2018-01-22 Ethics and Aesthetics in Toni Morrison's Fiction investigates Morrison's aesthetics in terms of narrative's ethical import. Morrison's writing is concerned with ethically debatable issues and it offers a problematic representation of human experiences in African American history. Whilst previous critical studies consider ethics in relation to events in the story, Palladino explores its intersection with aesthetics. Narrativizing the moral law, Morrison's imperative is to relate the past, and to find ways to tell what is often unspeakable. The quest for ways to narrate horrific facts is a quest for an aesthetics which includes an appeal to the reader and thus necessarily engages with the ethical. This study foregrounds the equivocal as a key feature of narrative ethics.

home toni morrison pdf: *War & Homecoming* Travis L. Martin, 2022-07-26 In *War & Homecoming: Veteran Identity and the Post-9/11 Generation*, Travis L. Martin explores how a new generation of veterans is redefining what it means to come home. More than 2.7 million veterans served in Iraq and Afghanistan. Their homecomings didn't include parades or national celebrations. Instead, when the last US troops left Afghanistan, American veterans raised millions of dollars for the evacuation of Afghan refugees, especially those who'd served alongside them. This brand of selflessness is one reason civilians regard veterans with reverence and pride. The phrase thank you for your service is ubiquitous. Yet, one in ten post-9/11 veterans struggles with substance abuse. Fifteen to twenty veterans die by suicide every day. Veterans aged eighteen to thirty-four die at the highest rates, leading advocates to focus on concepts like moral injury and collective belonging when addressing psychic wounds. Martin argues that many veterans struggle due to decades of stereotyping and a lack of healthy models of veteran identity. In the American unconscious, veterans are treated as either the superficially praised hero or the victimized wounded warrior, forever defined by past accomplishments. They are often appropriated as symbols in competing narratives of national identity. *War & Homecoming* critically examines representations of veterans in patriotic rhetoric, popular media, literature, and the lives of those who served. From this analysis, a new veteran identity emerges—veterans as storytellers who reject stereotypes, claim their symbolic authority, and define themselves through literature, art, and service.
