

hundred years' war on palestine pdf

hundred years' war on palestine pdf has become a phrase that captures the complex and often contentious history of the Israeli-Palestinian conflict, reflecting decades of struggle, resistance, and geopolitical tension. This metaphorical expression draws parallels between the protracted nature of the conflict and the famous Hundred Years' War that took place between England and France from 1337 to 1453. While the phrase is not a formal historical term, it is frequently used in academic, activist, and media circles to emphasize the enduring and cyclical struggles faced by Palestinians and Israelis alike. In this article, we delve into the historical background, key events, and contemporary implications of what some describe as a "hundred years' war" over Palestine, and how resources such as PDFs and online documents contribute to understanding this ongoing conflict.

Understanding the "Hundred Years' War" on Palestine

Historical Context and Origins

The roots of the Israeli-Palestinian conflict can be traced back to the late 19th and early 20th centuries, during the rise of nationalist movements among both Jews and Arabs in the Middle East. The emergence of Zionism, advocating for a Jewish homeland in Palestine, coincided with Arab nationalism, which aimed to establish independence from Ottoman and later European control.

Key historical milestones include:

- The Balfour Declaration (1917): The British government expressed support for a "national home for the Jewish people" in Palestine, then part of the Ottoman Empire.
- The British Mandate (1920-1948): Britain administered Palestine, overseeing increasing Jewish immigration and escalating tensions.
- The 1947 UN Partition Plan: Proposed dividing Palestine into separate Jewish and Arab states, which was accepted by Jewish leaders but rejected by Arab states.

These early events set the stage for decades of conflict, displacement, and territorial disputes that continue to this day.

The Nature of the Conflict as a "Hundred Years' War"

The phrase "hundred years' war" is used metaphorically because the conflict has persisted with little resolution over more than a century. Unlike traditional wars that have clear beginnings and ends, the Israeli-Palestinian struggle is characterized by cycles of violence, peace negotiations, failed agreements, and ongoing settlement expansion.

Elements contributing to this perception include:

- Continuous territorial disputes over Gaza, the West Bank, and East Jerusalem.
- Recurrent outbreaks of violence, including wars, intifadas, and military operations.
- Political stalemates and disagreements over refugee rights, borders, and sovereignty.

The duration and complexity of this conflict have led many observers to describe it as an ongoing, unresolved "war" with deep historical roots.

The Arab-Israeli Wars and Occupation (1950s–1967)

Multiple wars, including the Suez Crisis and the Six-Day War, resulted in Israel occupying the West Bank, Gaza Strip, East Jerusalem, and other territories. These occupations remain central issues in the ongoing conflict.

Intifadas and Peace Attempts (1987–2000s)

Palestinian uprisings (Intifadas) in the late 20th century highlighted popular resistance. Peace processes like the Oslo Accords sought to resolve key issues but ultimately failed to produce a lasting solution.

hundred years war on palestine pdf: The Hundred Years' War on Palestine Rashid Khalidi, 2020-01-28 A landmark history of one hundred years of war waged against the Palestinians from the foremost US historian of the Middle East, told through pivotal events and family history In 1899, Yusuf Diya al-Khalidi, mayor of Jerusalem, alarmed by the Zionist call to create a Jewish national home in Palestine, wrote a letter aimed at Theodore Herzl: the country had an indigenous people who would not easily accept their own displacement. He warned of the perils ahead, ending his note, “in the name of God, let Palestine be left alone.” Thus Rashid Khalidi, al-Khalidi’s great-great-nephew, begins this sweeping history, the first general account of the conflict told from an explicitly Palestinian perspective. Drawing on a wealth of untapped archival materials and the reports of generations of family members—mayors, judges, scholars, diplomats, and journalists—The Hundred Years' War on Palestine upends accepted interpretations of the conflict, which tend, at best, to describe a tragic clash between two peoples with claims to the same territory. Instead, Khalidi traces a hundred years of colonial war on the Palestinians, waged first by the Zionist movement and then Israel, but backed by Britain and the United States, the great powers of the age. He highlights the key episodes in this colonial campaign, from the 1917 Balfour Declaration to the destruction of Palestine in 1948, from Israel’s 1982 invasion of Lebanon to the endless and futile peace process. Original, authoritative, and important, The Hundred Years' War on Palestine is not a chronicle of victimization, nor does it whitewash the mistakes of Palestinian leaders or deny the emergence of national movements on both sides. In reevaluating the forces arrayed against the Palestinians, it offers an illuminating new view of a conflict that continues to this day.

hundred years war on palestine pdf: *Race and the Question of Palestine* Lana Tatour, Ronit Lentin, 2025-06-17 This book develops from the position that the colonization of Palestine—like other imperial and settler colonial projects—cannot be understood outside the grammar of race. *Race and the Question of Palestine* explores how race operates as a technology of power and colonial rule, a political and economic structure, a set of legal and discursive practices, and a classificatory system. Offering a wide-ranging set of essays by historians, legal scholars, political scientists, sociologists, literary scholars, and race critical theorists, this collection illuminates how race should be understood in terms of its political work, and not as an identity category interchangeable with ethnicity, culture, or nationalism. Essays build on a long-standing tradition of theorizing race in Palestine studies and speak to four interconnected themes—the politics of racialization and regimes of race, racism and antiracism, race and capital accumulation, and Black-Palestinian solidarity. These engagements challenge the exceptionalism of the Palestinian case, and stress the importance of locating Palestine within global histories and present politics of imperialism, settler colonialism, capitalism, and heteropatriarchy. hundred years war on palestine pdf: *Human Rights and the United Nations* Abigail B. Bakan, Yasmeen Abu-Laban, 2025-03-17 This book considers the complex and contradictory role of the United Nations when it comes to human rights around the world. It depicts the United Nations as a global arena in which state and non-state actors continuously contest issues around human rights. This ongoing contestation simultaneously produces both advances and setbacks when it comes to the rights of stateless populations, women, Indigenous peoples, and racialized people, as well as rights related to health and the environment. Since the 1948 Universal Declaration of Human Rights and throughout various subsequent expansions, conventions and declarations, the United Nations has been central to the development and advancement of human rights as a primary, stated goal of global governance. However, there are various inherent contradictory tensions and challenges embedded in the United Nations promise for human rights. This timely collection investigates the United Nations' role as knowledge producer, its relation to non-state actors, and the United Nations' role as a system for grouping sovereign states, where there is uneven buy-in within non-binding agreements and tensions between national sovereignty and human rights. At a time when the world faces existential challenges from climate change to pandemics which disproportionately impact the world's most vulnerable populations, this book addresses future challenges and possibilities for the United Nations. *Human Rights and the United Nations: Paradox and Promise* will be an important read for researchers and students across the fields of human rights, political science, international relations, and global development, as well as for United Nations and governmental policy analysts and advisors.

hundred years war on palestine pdf: *A Short History of the Gaza Strip* Anne Irfan, 2025-08-28 The Gaza Strip is one of the most widely-reported on regions in the world—yet misinformation about its history and its people abound. In this vital book, historian Anne Irfan explains Gaza's outsized political significance through six pivotal moments in its modern history, beginning with Israel's expulsion of the Palestinian people upon its establishment in 1948, when the Gaza region was truncated to the "strip" we know today. As she takes us through Israel's occupation of Gaza, the Palestinian national struggle and formation of the PLO, the first intifada, the creation of the Palestinian Authority and the rise of Hamas, she tackles widespread historical ignorance and untangles contradicting narratives. Drawing on a decade of research, Irfan weaves in the voices of everyday Palestinians, from farmers and teachers to poets and activists. Written with remarkable clarity and compassion, *A Short History of the Gaza Strip* is an indispensable read for anyone seeking to understand Palestine today.

hundred years war on palestine pdf: *Iran and Global Decolonisation* Robert Steele, Firoozeh Kashani-Sabet, 2024-04-03 A presentation of scholarly work that investigates Iran's experiences with colonialism and decolonization from a variety of perspectives. How did Iran's

unique position in the world affect and define its treatment of decolonization? During the final decades of Pahlavi rule in the late 1970s, the country sought to establish close relationships with newly independent counterparts in the Global South. Most scholarly work focused on this period is centered around the Cold War and Iran's relations with the United States, Russia, and Europe. Little attention has been paid to how the country interacted with other regions, such as Africa, Asia, and the Americas. Adding to an important and growing body of literature that discusses the profound and lasting impact of decolonization, *Iran and Global Decolonisation* contributes to the theoretical debates around the re-shaping of the world brought about by the end of an empire. It considers not only the impact of global decolonization on movements and ideas within Iran but also how Iran's own experiences of imperialism shaped how these ideas were received and developed.

hundred years war on palestine pdf: *On the Semicivilized* Julia Elyachar, 2025-04-18 *On the Semicivilized* by Julia Elyachar is a sweeping analysis of the coloniality that shaped—and blocked—sovereign futures for those dubbed barbarian and semicivilized in the former Ottoman Empire. Drawing on thirty years of ethnographic research in Cairo, family archives from Palestine and Egypt, and research on Ottoman debt and finance to rethink catastrophe and potentiality in Cairo and the world today, Elyachar theorizes a global condition of the “semicivilized” marked by nonsovereign futures, crippling debts, and the constant specter of violence exercised by those who call themselves civilized. Originally used to describe the Ottoman Empire, whose perceived “civilizational differences” rendered it incompatible with a Western-dominated global order, semicivilized came to denote lands where unitary territorial sovereignty was stymied at the end of WWI. Elyachar's theorizing offers a new analytic vocabulary for thinking beyond territoriality, postcolonialism, and the “civilized/primitive” divide. Looking at the world from the perspective of the semicivilized, Elyachar argues, allows us to shift attention to embodied infrastructures, collective lives, and practices of moving and acting in common that bypass lingering assumptions of territorialism and unitary sovereign rule.

hundred years war on palestine pdf: *Reclaiming Colonial Architecture* Tania Sengupta, Stuart King, 2024-12-23 Our world is full of lands, cities, buildings and artefacts, many of which are deposits and residues of colonial times and, more pervasively, colonial processes. *Reclaiming Colonial Architecture* unpacks the built inheritances of colonialism and re-thinks how we might understand, narrate, intervene in or act upon them as architects. Offering historical background, unpacking key concepts and presenting thematically organised and multi-scalar urban and architectural case studies, this accessible publication showcases how legacies of colonialism are being dealt with in real-world instances. Case studies involve works and actions by built environment professionals such as architects and heritage practitioners, as well as community initiatives and activism. The book aims to build confidence in practitioners, students and communities grappling with a seemingly vast and complex terrain of debates and approaches around colonial landscapes, urban areas, buildings, monuments and material culture. It also aims to be a helpful resource for architecture schools or critical heritage studies departments and organisations. Its content will provide a point of departure for graduate student inquiry and its accessible nature will help introduce undergraduate students to the concepts and questions of colonial built-environments.

hundred years war on palestine pdf: *The Theory-Story Reader for Social Studies* Bretton A. Varga, Erin C. Adams, 2024 Theory holds the capacity to help educators see the world differently, challenge problematic assumptions and practices that cultivate harm, and illuminate pathways towards access, equity, justice, joy, and love. While it is easy to underestimate the role of theory in such pursuits throughout social studies education, this book shows that theory is always-already present in all productions of teaching and learning. In this collection, well-established scholars highlight a broad range of theories that are currently being used to alter the landscape of social studies instruction. Important to these efforts is the position that theory does not exist in a vacuum but rather is the reflection of a certain set of concepts and the relationship that one holds to those ideas. Taking this further, each chapter author employs storytelling as a means to share their

personal history and unpack how they came to understand their selected theoretical topic. They address a breadth of concepts, such as Black feminism, psychoanalysis, racial capitalism, settler colonialism, sustainability, and technoskepticism. Book Features: The only resource of its kind that pairs storying with a far-reaching range of theories actively being used by scholars in the field of social studies education and research. Brief chapters, arranged alphabetically by concept, provide structure while also staying true to the book's framing of theory as being curious, fragmented, nomadic, and discursive. Embedded connections within each chapter meant to help readers understand the relational and entangled nature of theory. Contributors include Sohyun An, Kristen Duncan, Jillian Ford, Jim Garrett, Wayne Journell, Noreen Naseem Rodriguez, Muna Saleh, Sandra Schmidt, Sarah Shear, Cathryn van Kessel, and Amanda Vickery.

hundred years war on palestine pdf: *The Middle East* Keshav Bhattarai, Mahmoud Yousef, 2025-03-10 The Middle East and North Africa (MENA) region stands as a remarkable crossroads of tradition and modernity, shaped by millennia of history under empires, colonial powers, and global influences. This book unpacks the intricate dynamics of the region, examining how historical resource exploitation, border manipulation, and cultural impositions have profoundly impacted its languages, traditions, and geopolitical identity. The rich tapestry of Arabic, Farsi, Kurdish, and regional dialects reflects a deep cultural resilience that has resisted globalization, often fueled anti-Western sentiments and prioritized the preservation of heritage over rapid economic development. Central to the region's geopolitical importance is its vast oil wealth, which has positioned MENA as a cornerstone of the global energy market and a continuous focus of Western interest. This book explores how oil exploitation has economically empowered the region while simultaneously fostering political tension, external interventions, and instability. As the global shift toward green technologies accelerates, the book examines how this transition might redefine MENA's role in the global energy market, offering both challenges and opportunities for transformation. These dynamics unfold against the backdrop of water scarcity and a scorching, inhospitable climate that further complicates the region's path forward. Grounded in real-life case studies and an interdisciplinary blend of historical, cultural, and economic analysis, this book offers an unparalleled exploration of the MENA region's past, present, and future in the context of advanced technological development. Co-authored by a Palestinian native, it brings a unique perspective by dissecting ongoing identity crises through unbiased insights and true-life conversations with individuals who have embraced diverse religious and political ideologies. By intertwining these narratives with the region's deeply rooted cultural practices, the book presents a compelling human lens to understand MENA's complexities. This rare and thought-provoking study seamlessly balances traditional and modern perspectives, emphasizing the MENA region's pivotal role at the intersection of Western powers and the Global South. For readers seeking to grasp the intricate dynamics of a region that continues to influence and adapt to an ever-changing global order, this book serves as an indispensable resource.

hundred years war on palestine pdf: *Religion, Sustainability, and Place* Steven E. Silvern,

Edward H. Davis, 2020-12-14 This book explores how religious groups work to create sustainable relationships between people, places and environments. This interdisciplinary volume deepens our understanding of this relationship, revealing that the geographical imagination—our sense of place—is a key aspect of the sustainability ideas and practices of religious groups. The book begins with a broad examination of how place shapes faith-based ideas about sustainability, with examples drawn from indigenous Hawaiians and the sacred texts of Judaism and Islam. Empirical case studies from North America, Europe, Central Asia and Africa follow, illustrating how a local, bounded, and sacred sense of place informs religious-based efforts to protect people and natural resources from threatening economic and political forces. Other contributors demonstrate that a cosmopolitan geographical imagination, viewing place as extending from the local to the global, shapes the struggles of Christian, Jewish and interfaith groups to promote just and sustainable food systems and battle the climate crisis.

hundred years war on palestine pdf: The United Nations and the Question of Palestine Ardi Imseis, 2023-11-30 Contrary to conventional wisdom, there has been a continuing though vacillating gulf between the requirements of international law and the UN on the question of Palestine. This book explores the UN's management of the longest-running problem on its agenda, critically assessing tensions between the organization's position and international law. What forms has the UN's failure to respect international law taken, and with what implications? The author critically interrogates the received wisdom regarding the UN's fealty to the international rule of law, in favour of what is described as an international rule by law. This book demonstrates that through the actions of the UN, Palestine and its people have been committed to a state of what the author calls 'international legal subalternity', according to which the promise of justice through international law is repeatedly proffered under a cloak of political legitimacy furnished by the international community, but its realization is interminably withheld.

hundred years war on palestine pdf: Palestine Across Millennia Nur Masalha, 2022-02-24 In this magisterial cultural history of the Palestinians, Nur Masalha illuminates the entire history of Palestinian learning with specific reference to writing, education, literary production and the intellectual revolutions in the country. The book introduces this long cultural heritage to demonstrate that Palestine was not just a 'holy land' for the four monotheistic religions – Islam, Christianity, Judaism and Samaritanism – rather, the country evolved to become a major international site of classical education and knowledge production in multiple languages including Sumerian, Proto-Canaanite, Greek, Syriac, Arabic, Hebrew and Latin. The cultural saturation of the country is found then, not solely in landmark mosques, churches and synagogues, but in scholarship, historic schools, colleges, famous international libraries and archival centres. This unique book unites these renowned institutions, movements and multiple historical periods for the first time, presenting them as part of a cumulative and incremental intellectual advancement rather than disconnected periods of educational excellence. In doing so, this multifaceted intellectual history transforms the orientations of scholarly research on Palestine and propels current historical knowledge on education and literacy in Palestine to new heights.

hundred years war on palestine pdf: Palestine and the Western Academe Walaa Alqaisiya, Nicola Perugini, 2025-11-03 The ongoing devastation in Gaza and other parts of Palestine, alongside the systematic destruction of Palestinian universities, has coincided with intensified censorship and repression within Western academic institutions. These developments reveal the distinctive position that Zionism and its defense has held for decades within Western imperial structures, creating patterns of epistemic injustice. Palestine and the Western Academe emerges from a collective sense of political and intellectual urgency in response to mounting repression against scholars and students working on and studying Palestine. While attacks on academic freedom and freedom of speech in Western academia have intensified, they have been met with new forms of resistance and disobedience, bolstered by coalitional anti-racist and anti-capitalist solidarities extending from Palestine globally. This edited volume brings together significant contributions from scholars and students offering fresh approaches to the epistemic and political struggles surrounding Palestine. It

demonstrates the timely and enduring relevance of the Palestinian question to international academic spaces and is essential reading for academics, researchers, and students interested in Middle Eastern Studies, Political Science, International Relations, Critical Theory, Decolonial Studies, and Academic Freedom discourse. Most of the chapters in this book were originally published in Middle East Critique. This edition comes with several new chapters and an updated introduction, offering fresh perspectives and expanded analysis on these urgent and evolving issues.

hundred years war on palestine pdf: *Justice on the Cross* Kathleen Christison, 2023-03-09 At its heart, liberation theology is a modern theology of resistance to the oppression imposed by colonialist and post-colonialist systems and even by churches that cooperate with secular centers of power to oppress the poor and disadvantaged. It is a grassroots social justice theology, a *cri de cœur*, that seeks to give spiritual succor and hope to those living in seemingly hopeless circumstances. Palestinians—a people whose suffering has largely been forgotten by the world since Israel's establishment and who are most often stereotyped as extremists and enemies of Israel with no legitimate claim to their own homeland—are among the world's most marginalized populations. The small Palestinian Christian community, an indigenous population descended from Jesus's first followers, has created a liberation theology for the Palestinian context that reaches out to its own Christian faithful and their Muslim compatriots. This is a nonviolent political-theological resistance that follows Jesus's teaching that God is present with all God's children and heeds Jesus's gospel injunctions to comfort the suffering and "let the oppressed go free." For Palestinians, their very survival in the land is resistance to Israel's efforts to remove them, and liberation theology sustains their resistance. Jesus was the first liberation theologian.

hundred years war on palestine pdf: Recognition Politics in Settler Colonial States Emile Badarin, 2025-06-26 Using Palestine as a case study, *Recognition Politics in Settler Colonial States* shows how recognition politics operate to legitimize long-standing colonial power structures. In existing scholarship, recognition has been seen as an asset coveted by indigenous communities. This book forwards a new, theoretically ground-breaking perspective. Emile Badarin shows that in colonial contexts, settlers use recognition to legitimize and normalize the dispossession and elimination of Indigenous people. More than this, settler-colonial states themselves actively pursue recognition, employing it as a means to further the elimination of the indigenous societies they seek to replace. In making the case, the book critically examines the Euromodern categories of race, racism and racial hierarchies and draws new conclusions about the interplay between colonialism, racism and Zionism. Central to this analysis is how anti-Zionism has been strategically equated with anti-Semitism, and effectively used as a tool for the advancement of both settler-colonialism in Palestine and Israel's recognition on the international stage. The book delves into indigenous

normative resistance against colonial recognition politics through the lens of the Palestinian practice of *ʔumud* (steadfastness), extracting its philosophy of liberation as a pathway towards a decolonial future for all in Palestine and beyond.

hundred years war on palestine pdf: Israel: historia de una guerra permanente Eduardo Olier, 2024-10-24 El 29 de noviembre de 1947, la recién nacida onu decidió dividir Palestina en dos territorios, ofreciendo un hogar a los judíos dispersos por Europa tras el Holocausto nazi. Poco después, el 14 de mayo de 1948, nació el Estado de Israel. La reacción de los países árabes vecinos fue inmediata: no aceptaron su creación. Desde entonces, el conflicto ha sido constante, guerras y resoluciones de la onu sistemáticamente incumplidas, mientras la creación de un Estado palestino sigue siendo un desafío de difícil resolución. Hoy, Israel es un Estado poderoso, con un desarrollo tecnológico y militar considerable. A través de diversos conflictos, ha tomado control de casi toda Palestina, incluidos los Altos del Golán, gran parte de Cisjordania y una significativa parte de Jerusalén, quedando fuera solo la Franja de Gaza. El terrorismo continúa moldeando la situación, mientras el pueblo palestino, atrapado entre fuerzas opuestas, espera una solución que parece no llegar nunca. En Israel. Historia de una guerra permanente, Eduardo Olier nos presenta una visión detallada y fundamentada de este conflicto, respaldada por testimonios de protagonistas históricos que ayudan a comprender los eventos pasados y los posibles escenarios futuros. ¿Por qué parece imposible alcanzar una paz duradera? ¿Qué intereses geopolíticos perpetúan este estado de conflicto continuo? El mundo actual se presenta dividido en dos bloques: Oriente y Occidente en lucha constante, mientras el sur global toma partido. Y una vez más, el futuro del mundo parece depender del destino de Palestina, con la guerra en la Franja de Gaza como epicentro de un entramado cada vez más complejo.

hundred years war on palestine pdf: Advocating for Palestine in Canada Emily Regan Wills, 2022-05-31T00:00:00Z Why is it so difficult to advocate for Palestine in Canada and what can we learn from the movement's successes? This account of Palestine solidarity activism in Canada grapples with these questions through a wide-ranging exploration of the movement's different actors, approaches and fields of engagement, along with its connections to different national and transnational struggles against racism, imperialism and colonialism. Led by a coalition of students, labour unions, church groups, left wing activists, progressive presses, human rights organizations, academic associations and Palestinian and Jewish community groups, Palestine solidarity activism is on the rise in Canada and Canadians are more aware of the issues than ever before. Palestine solidarity activists are also under siege as never before. The movement advocating for Palestinian rights is forced to contend with relentless political condemnation, media blackouts, administrative roadblocks, coordinated smear campaigns, individual threats, legal intimidation and institutional silencing. Through this book and the experiences of the contributing authors in it, many seasoned veterans of the movement, *Advocating for Palestine in Canada* offers an indispensable and often first-hand view into the complex social and historical forces at work in one of our era's most urgent debates, and one which could determine the course of what it means to be Canadian going forward.

hundred years war on palestine pdf: Being Christian After the Desolation of Gaza Bruce Norman Fisk, J. Ross Wagner, 2025-08-12 What explains the fervent support among America's Christians for Israel's murderous assault on Gaza's Palestinians? Dying children cry beneath the rubble; doctors testify to atrocities; journalists and medics face sniper fire; experts cry genocide; Jewish Americans decry Israel's ethnic cleansing; protesting college students jeopardize their careers. Yet millions of Americans who profess allegiance to Jesus continue defending the desolation of Gaza, or refuse to speak against it. In these essays you will read stories and hear cries from Christians—American, Latin American, Jewish, Palestinian—who have spent years listening, laboring, and praying for a durable, equitable peace between Palestinians and their Jewish neighbors. Their perspectives have formed over years in the land, through lingering encounters, hard conversations, and troubling personal experiences. Disagree with them if you must, but first hear them out, and consider why so many of Israel's Christian partisans have confused a love for the Jewish people with a defense of the apocalypse Israel has unleashed since October 7, 2023. It may

be too late to save Gaza's millions from starvation, amputation, displacement, and death. Is it too late to repent of our complicity? Too late to save our own souls? How should we be Christian after the desolation of Gaza? Chapter contributors: Mercy Aiken, Yousef Kamal AlKhouri, Daniel Bannoura, Donald D. Binder, Gary M. Burge, David M. Crump, Rob Dalrymple, Anton Deik, Bruce N. Fisk, Suzanne Watts Henderson, Lisa Loden, Lamma Mansour, Amy Yoder McGloughlin, Benjamin Norquist, Ruth Padilla DeBorst, and J. Ross Wagner.
