introduction to intersectional qualitative research pdf: Refusals and Reflections, 2024-11-04 Though qualitative research methods shape scholarship around the globe, and institutions worldwide offer qualitative coursework, there is very little explicit discussion on how to effectively teach qualitative research. Instead, a standard approach is for instructors to gain in-depth expertise in qualitative methodologies, with little or no pedagogical training. The effect is a continuous and nearly exclusive emphasis on content knowledge that undermines the preparation of novice researchers as both teachers and learners. This book works to fill that gap by offering perspectives, strategies, and applications from instructor and student perspectives, based on a semester-long class emphasizing social justice in qualitative research. This edited volume offers sections on pedagogical strategies, students' responses to and applications of those concepts, and then instructor reflections. The goal is to offer an important starting point for explicit discussions on how qualitative research might be taught and learned, in addition to how it might be thoughtfully and ethically conducted. Contributors are: Erica T. Campbell, Sun Young Gu, Kelsey H. Guy, Aimee J. Hackney, April M. Jones, Alison N. Kearley, Caran Kennedy, Amon Neely-Cowan, Allyson Pitzel, Diana Quito, Erin E. introduction to intersectional qualitative research pdf: Partnering with Culturally and Linguistically Diverse Families in Special Education Kristin Vogel-Campbell, 2023-12-06 We are at a critical time in education. Too often the dominant voices represent a small portion of the population, where those who have been historically marginalized and minoritized are silenced. Utilizing first-hand accounts of parent and caregiver experiences as they navigate the often complicated process of Special Education services for their children, this book contributes to the small but significant body of work that centers the voices of parents and caregivers of students with IEPs. Few recent works provide adequate space for the narratives of families to take center stage. Partnering with Culturally and Linguistically Diverse Families in Special Education is a collaborative work with families that includes the author's personal reflection at the end of each narrative, as well as guiding questions to continue the conversation, either as a sole reader or with a cohort. This book is geared

towards both pre- and in-service educators and administrators who are seeking to deepen their understanding of parent perspective and how they can tailor their practices to ensure a more inclusive and inviting environment where culturally and linguistically diverse families are seen and valued in school settings. In addition, professors and instructors in teacher credentialing programs may use this book as a supplement in classes that focus on multicultural education, family and community partnerships, or IEP regulations and compliance. It is the author's intention to present the possibilities that arise when incorporating the histories of diverse families into decision making procedures. There is a tremendous amount of cultural wealth that our families and students bring to classrooms every day. This is just one snapshot on that journey towards building culturally sustaining relationships with each and every family an educator encounters.

introduction to intersectional qualitative research pdf: Intersectional Analysis as a Method to Analyze Popular Culture

Erica B. Edwards, Jennifer Esposito, 2019-11-27 Intersectional Analysis as a Method to Analyze Popular Culture: Clarity in the Matrix explores how race, class, gender, sexuality, and other social categories are represented in, and constructed by, some of the most significant popular culture artifacts in contemporary Western culture. Through readings of racialized television sitcoms, LGBTQ+ representation in mainstream American music, the role of Black Panther in Western imperialist projects, and self-love narratives promoted by social media influencers, it demonstrates how novice and emerging researchers can use intersectional theory as an analysis method in the field of cultural studies. The case studies presented are contextualized through a brief history of intersectional theory, a methodological rationale for its use in relation to popular culture, and a review of the ethical considerations researchers should take before, during, and after they approach popular artifacts. Intended to be a textbook for novice and emerging researchers across a wide range of social science disciplines, this book serves as a practical guide to uncover the multiple and interlocking ways oppression is reified, resisted and/or negotiated through popular culture. 2021 Winner of the AESA Critics' Choice Book Award

introduction to intersectional qualitative research pdf: Oral history in South Africa

Sekgothe Mokgoatšana, 2025-05-06 Colonial and apartheid-era historical narratives in South Africa often disregard oral testimonies, leaving significant gaps in understanding the country's rich and complex past. This scholarly book explores the methodologies and ethics of oral history to address

these omissions and to elevate oral testimonies as vital tools in historical scholarship. This book brings together ten chapters authored by leading academics and researchers. It critically examines how oral history methodologies can be contextualised within South Africa's diverse and multifaceted society. Rather than focusing on Eurocentric approaches, it emphasises the need to rethink the ethics and practices of oral history from an Afrocentric perspective. Through its transdisciplinary and interdisciplinary lens – spanning history, indigenous knowledge studies, museum and archival studies, and folklore – this book advocates for the recognition of interviewees as knowledge holders, fostering meaningful exchanges rather than mere knowledge extraction. The authors emphasise the need to protect and expand oral history archives, ensuring the representation of marginalised voices and redressing past injustices. With original research, this volume sheds light on the transformative potential of oral history in South Africa, offering new arguments and perspectives. It aims to inspire scholars, researchers, and specialists to rethink conventional practices and to bridge the divide between written and oral histories. This is essential literature for scholars and practitioners in history, oral history, theology, museum studies, and related fields, as it reimagines the role of oral testimonies in producing inclusive and credible historical narratives.

introduction to intersectional qualitative research pdf: *Women's Empowerment for a Sustainable Future* Claude-Hélène Mayer, Elisabeth Vanderheiden, Orna Braun-Lewensohn, Gila Chen, Kiyoko Sueda, Brightness Mangolothi, Saba Safdar, Soyeon Kim, 2023-07-08 This edited volume focuses on women's empowerment for a sustainable future. It takes cultural and transcultural and positive psychology perspectives into consideration and explores the topic of women's empowerment from diverse stances, across social strata, cultural divides as well as economic and political divisions. It addresses the critique of the overly Western focus of positive psychology on this topic by adopting a transnational and transcultural lens, and by taking non-WEIRD (Western, Educated, Industrialized, Rich, Democratic) samples into in-depth consideration. The chapters therefore focus on women from diverse socio-cultural, political, socio-economic backgrounds and discuss their ways of empowering others and being empowered. They also discuss related positive psychology constructs, such as: coping, resilience, transformation, growth, leadership, creativity, identity development, sustainable action, as well as positive socio-economic, political and eco-sustainable thought and action. The volume as a whole looks at women's leadership as a factor of empowerment. A further fundamental assumption is that women's empowerment is needed to create a sustainable future at micro-, meso- and macro levels, which presumes safety, peace, ecological considerations, and compassionate leadership.

introduction to intersectional qualitative research pdf: *Gender Research in Africa* Vivian Ojong, R. Sooryamoorthy, 2025-09-30 This book considers how methodologies, theories and analytical frameworks from gender studies can be applied to African societies' cultural, social, and historical contexts. The book advocates for the importance of feminist research practices which highlight women and their lived experiences within a gendered world in Africa. Gender studies has grown in prominence over recent decades, rooted in an awareness that gender is no longer just an issue in the margins but core to the analysis of the interaction of power, identity, and social relations in the world. This book considers how the field can evolve further in a postcolonial context, integrating indigenous and local knowledge systems and practices. Covering how gender is contested in African settings, the book outlines how researchers can approach the ways in which social and racial categories, class, ethnicity, and socioeconomic status intersect to produce gender-based violence. Overall, this book shows how gender-sensitive methodologies can help researchers to gain deeper insights into discrimination, inequalities, and gender-based violence, and thus contribute to better-adapted social and legal reforms.
