Examining a variety of country cases and themes addressing the theoretical tension between governance and democracy, it illuminates how this impacts political and civil societies across the region. Analysing the character, structure and current trajectories of polities in the Asia-Pacific, democratic or otherwise, this book demonstrates that the role of civil society, political society and governance has significantly differed in practice from what has been commonly assumed within the international community. The book includes both theoretical investigations tracing the modern development of the concepts of governance, development and democratization as well as regional and country-specific observations of major issues, presenting comprehensive country-level studies of China, Singapore, Thailand, Cambodia, the Philippines, Myanmar, Fiji and the Solomon Islands. pdf crazy rich asian: *Aromas of Asia* Hannah Gould, Gwyn McClelland, 2023-10-12 A uniquely powerful marker of ethnic, gender, and class identities, scent can also overwhelm previously

constructed boundaries and transform social-sensory realities within contexts of environmental degradation, pathogen outbreaks, and racial politics. This innovative multidisciplinary volume critically examines olfaction in Asian societies with the goal of unlocking its full potential as an analytical frame and lived phenomenon. Featuring contributions from international scholars with deep knowledge of the region, this volume conceptualizes Asia and its borders as a dynamic, transnationally connected space of olfactory exchange. Using examples such as trade along the Silk Road; the diffusion of dharmic religious traditions out of South Asia; the waves of invasion, colonization, and forced relocation that shaped the history of the continent; and other “sensory highways” of contact, the contributors break down essentializing olfactory tropes and reveal how scent functions as a category of social and moral boundary-marking and boundary-breaching within, between, and beyond Asian societies. Smell shapes individual, collective, and state-based memory, as well as discourses about heritage and power. As such, it suggests a pervasive and powerful intimacy that contributes to our understanding of the human condition, mobility, and interconnection. In addition to the editors, the contributors to this volume include Khoo Gaik Cheng, Jean Duruz, Qian Jia, Shivani Kapoor, Adam Liebman, Lorenzo Marinucci, Peter Romaskiewicz, Saki Tanada, Aubrey Tang, and Ruth E. Toulson.

pdf crazy rich asian: Making the Human Corinne Mitsuye Sugino, 2024-11-15 From the debate over affirmative action to the increasingly visible racism amidst the COVID-19 pandemic, Asian Americans have emerged as key figures in a number of contemporary social controversies. In *Making the Human: Race, Allegory, and Asian Americans*, Corinne Mitsuye Sugino offers the lens of racial allegory to consider how media, institutional, and cultural narratives mobilize difference to normalize a white, Western conception of the human. Rather than focusing on a singular arena of society, Sugino considers contemporary sources across media, law, and popular culture to understand how they interact as dynamic sites of meaning-making. Drawing on scholarship in Asian American studies, Black studies, cultural studies, communication, and gender and sexuality studies, Sugino argues that Asian American racialization and gendering plays a key role in shoring up abstract concepts such as “meritocracy,” “family,” “justice,” “diversity,” and “nation” in ways that naturalize hierarchy. In doing so, *Making the Human* grapples with anti-Asian racism’s entanglements with colonialism, antiblackness, capitalism, and gendered violence.

pdf crazy rich asian: China's Engine of Environmental Collapse Richard Smith, 2020-07-20 As the world hurtles towards environmental oblivion, China is leading the charge. The nation's CO2 emissions are more than twice those of the US with a GDP just two-thirds as large. China leads the world in renewable energy yet it is building new coal-fired power plants faster than renewables. The country's lakes, rivers, and farmlands are severely polluted yet China's police state can't suppress pollution, even from its own industries. This is the first book to explain these contradictions. Richard Smith explains how the country's bureaucratic rulers are driven by nationalist-industrialist tendencies that are even more powerful than the drive for profit under 'normal' capitalism. In their race to overtake the US they must prioritise hyper-growth over the environment, even if this ends in climate collapse and eco-suicide. Smith contends that nothing short of drastic shutdowns and the scaling back of polluting industries, especially in China and the US, will suffice to slash greenhouse gas emissions enough to prevent climate catastrophe.

From classic film stars to those of the present day, this textbook unpacks the development of the main male stereotypes in film – villains, heroes, and oafs – and how movies can develop healthy new male representations. pdf crazy rich asian: *Becoming Global Asia* Cheryl Narumi Naruse, 2023-10-24 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *Becoming Global Asia* centers Singapore as a crucial site for comprehending the uneven effects of colonialism and capitalism. In the wake of the 1997 Asian financial crisis, Singapore initiated socioeconomic policies and branding campaigns to transform its reputation from a culturally sterile and punitive nation to Global Asia—an alluring location ideal for economic flourishing. Rather than evaluating the efficacy of state policy, Cheryl Narumi Naruse analyzes how Singapore gained cultural capital and soft power from its anglophonic legibility. By examining genres such as literary anthologies, demographic compilations, coming-of-career narratives, and princess fantasies, Naruse reveals how, as Global Asia, Singapore has emerged as simultaneously a site of imperial desire, a celebrated postcolonial model nation, and an alibi for the continued subjugation of the so-called Third World. Her readings of Global Asia as a formation of postcolonial capitalism offer new conceptual paradigms for understanding postcolonialism, neoliberalism, and empire.

pdf crazy rich asian: *Off-White* Sheng-mei Ma, 2019-11-14 How do English-speaking novelists and filmmakers tell stories of China from a Chinese perspective? How do they keep up appearances of pseudo-Sino immanence while ventriloquizing solely in the English language? Anglo writers and their readers join in this century-old game of impersonating and dubbing Chinese. Throughout this wish fulfillment, writers lean on grammatical and conceptual frameworks of their mother tongue to represent an alien land and its yellowface aliens. Off-white or yellow-ish characters and their foreign-sounding speech are thus performed in Anglo-American fiction and visual culture; both yellowface and Chinglish are of, for, by the (white) people. *Off-White* interrogates seminal Anglo-American fiction and film on off-white bodies and voices. It commences with one Nobel laureate, Pearl Buck, and ends with another, Kazuo Ishiguro, almost a century later. The trajectory in between illustrates that the detective and mystery genres continue unabated their stock yellowface characters, who exude a magnetic field so powerful as to pull in Japanese anime. This universal drive to fashion a foil is ingrained in any will to power, so much so that even millennial China creates an “off-yellow,” darker-hued Orient in Huallywood films to silhouette its global ascent.

pdf crazy rich asian: *Laughing Back at Empire* Angie Wong, 2023-09-01 Asian Canadian activism, resistance, and art of the 1970s and 80s *Laughing Back at Empire* is a ground-breaking examination of *The Asianadian*, one of Canada's first anti-racist, anti-sexist, and anti-homophobic magazines. Over the course of its seven-year run, the small but mighty magazine led a nation-wide dialogue for all Canadians on the struggles and social issues that concerned Asians in Canada. *The Asianadian* established a national platform for then-emerging Asian Canadian writers, artists, musicians, activists, and scholars like Sky Lee, Jim Wong-Chu, Joy Kogawa, Himani Bannerji, and Paul Yee. Columns like “On the Firing Line” and the “Dubious Achievement Awards” provided space to laugh back at the embarrassing concoction of Orientalist stereotypes in the media and to critique inconsistencies and superficialities within Canada's newfound multicultural image. Situating the

story of The Asianadian within the history of Canada, Angie Wong celebrates and builds on the work of its creators from the Asianadian Resource Workshop. Extensive interview material with the co-founding members, editors, volunteers, readers, and contributors captures their dedication and spirit of anti-racist collectivism. Wong's analysis helps to dismantle cultural assumptions that have relegated Asian Canadian history, contributions, and injustices to the periphery of Canadian experience and identity. On the heels of the COVID-19 pandemic and a resurgence of anti-Asian racism, Laughing Back at Empire amplifies the voices that speak, shout, and laugh together at empire's self-congratulatory and exclusionary narratives.

pdf crazy rich asian: Ethics and Race Naomi Zack, 2022-08-18 This dynamic new text for ethics and philosophy of race courses brings together subjects philosophers have generally kept separate—ethics and race. But every issue concerning race is an ethical issue, and it's time we studied them as such. Naomi Zack introduces students to historical and contemporary issues of race and racism and provides an ethical foundation for students to critically engage with these issues in the classroom and in their lives. The chapters discuss affirmative action and diversity, current protests from across the political spectrum, police killings, the relevance of race to the effects of disasters and climate change, white privilege as a cause for political impasse, racial identity (including mixed race identities), race and gender, and media representations of race. While treating issues of race as moral subjects with suggested moral foundations, Zack does not lead the student to specific conclusions. Rather, through thought, discussion, and writing questions, students learn to construct their own chains of reasonings based on explicit moral foundations. The book features: • Up-to-date social and biological scientific findings • Hot-button current issues • discussion questions and writing prompts • further reading lists and video resources • a comprehensive glossary • international examples to supplement US-based discussion

This book exposes the origin and current perceptions of myths and stereotypes about Asian Americans, with a look at prospects for their recognition and acceptance by the dominant white society.

pdf crazy rich asian: The Routledge International Handbook of Harmful Cultural Practices Maria Jaschok, U. H. Ruhina Jesmin, Tobe Levin von Gleichen, Comfort Momoh, 2023-12-04 This handbook looks at cross-cultural work on harmful cultural practices considered gendered forms of abuse of women. These include female genital mutilation (FGM), virginity testing, hymenoplasty, and genital cosmetic surgery. Bringing together comparative perspectives, intersectionality, and interdisciplinarity, it uses feminist methodology and mixed methods, with ethnography of central importance, to provide holistic, grounded theorizing within a framework of transformative research. Taking female genital mutilation, a topical, contested practice, and making it a heuristic reference

for related procedures makes the case for global action based on understanding the complexity of harmful cultural practices that are contextually differentiated and experienced in intersectional ways. But because this phenomenon is enshrouded in matters of sensitivity and prejudice, narratives of suffering are muted and even suppressed, are dismissed as indigenous ritual, or become ammunition for racist organizing. Such conflicted and often opaque debates obstruct clear vision of the scale of both problem and solution. Divided into six parts: • Discourses and Epistemological Fault Lines • FGM and Related Patriarchal Inscriptions • Gender and Genitalia • Female Bodies and Body Politics: Economics, Law, Medicine, Public Health, and Human Rights • Placing Engagement, Innovation, Impact, Care • Words and Texts to Shatter Silence Comprised of 24 newly written chapters from experts around the world, this book will be of interest to scholars and students of nursing, social work, and allied health more broadly, as well as sociology, gender studies, and postcolonial studies.

Thomson, 2025-09-02 Representing the first collection of its kind, *The Routledge Companion to Visual Journalism* introduces fundamental topics and ideas, delineates the diversity and complexity of this growing field, and creates a foundation for future scholarship and study. In the contemporary digital media landscape, still and moving images, interactive visualizations and virtual reality are increasingly important to attract attention, cultivate engagement, inform and influence opinions, and provide a more emotive and immediate viewing experience for news audiences. This Companion draws together leading voices from academia and industry to survey this dynamic and ubiquitous mode and inspire dialogue. Along with an introduction and conclusion, the volume is structured in five sections and covers people and identities; practices and processes; technologies, equipment, and forms; theories, concepts, and values; and audience interpretation and impact. Beginning by looking at the history of visual news, chapters go on to explore how visual news is created; how journalists visually represent gender, race, sexuality, (dis)ability, elites, and ordinary citizens; key ethical ideas and theories behind the creation of visual news; and how visual news is processed, drawing in research from eye-tracking, media psychology, and media literacy. The book ends with a critical look at the future of the field. *The Routledge Companion to Visual Journalism* is a recommended resource for all advanced students and researchers of visual journalism and communication and will also be of interest to practitioners in these fields.

pdf crazy rich asian: *Asianization of Asia* Chang Kyung-Sup, Kim Taekyoon, Lee Joonkoo, 2024-06-21 This book explores the Asianization of contemporary Asia, a trend that through neoliberal economic globalism has diluted the political effect of the EuroAmerican-dictated segmentation of Asia and instead facilitated and accelerated socioeconomic exchanges and collaborations among Asian nations themselves. It comprehensively analyzes and interprets Asia's Asianization in terms of intensification of intra-Asian interactions and flows in industrial, educational, sociopolitical and ecological spheres. Through such explorations, the book successfully reveals that Asia's Asianization is particularly reflected in the major dimensions of regional industrial integration, transnational class relations, labor market regionalization, international educational mobility, regionalization of media and pop culture, transnational social movements and activisms, regionalized social governance for development cooperation and developmental mobilization of diasporic socioeconomic resources. In particular, as an interdisciplinary study of Asia's industrial, social and cultural integration within and across Asian societies in both outbound and inbound directions, this book will be of huge interest to students and scholars of Asian politics, development and sociology.
