ten acrobats in an amazing leap of faith pdf: *Rewriting Narratives in Egyptian Theatre*
Sirkku Aaltonen, Areeg Ibrahim, 2016-03-31 This study of Egyptian theatre and its narrative construction explores the ways representations of Egypt are created of and within theatrical means, from the 19th century to the present day. Essays address the narratives that structure theatrical, textual, and performative representations and the ways the rewriting process has varied in different

contexts and at different times. Drawing on concepts from Theatre and Performance Studies, Translation Studies, Cultural Studies, Postcolonial Studies, and Diaspora Studies, scholars and practitioners from Egypt and the West enter into dialogue with one another, expanding understanding of the different fields. The articles focus on the ways theatre texts and performances change (are rewritten) when crossing borders between different worlds. The concept of rewriting is seen to include translation, transformation, and reconstruction, and the different borders may be cultural and national, between languages and dramaturgies, or borders that are present in people's everyday lives. Essays consider how rewritings and performances cross borders from one culture, nation, country, and language to another. They also study the process of rewriting, the resulting representations of foreign plays on stage, and representations of the Egyptian revolution on stage and in Tahrir Square. This assessment of the relationship between theatre practices, exchanges, and rewritings in Egyptian theatre brings vital coverage to an undervisited area and will be of interest to developments in theatre translation and beyond.

ten acrobats in an amazing leap of faith pdf: Ten Acrobats In An Amazing Leap Of Faith Yussef El Guindi, 2018-02-15 What if Neil Simon wrote a lovable comedy about a Muslim-American family trying to hold itself together amidst the misunderstandings that run amuck and the comedy that ensues when the generations collide? It would probably resemble something like the surprisingly enjoyable, charming and oftentimes hilarious TEN ACROBATS IN AN AMAZING LEAP OF FAITH. Fabrizio O Almeida, New City Chicago With TEN ACROBATS IN AN AMAZING LEAP OF FAITH, playwright Yussef El Guindi takes the genre (of the immigrant experience) to a new place--the Arab-American experience post September 11, 2001. With humor, passion and a lovely touch of whimsy, he's created a theatrical experience that's not to be missed. Louis Weisberg, CFP El Guindi's engrossing play...finds a workable balance between sharp humor and head-banging angst, which shapes his story effectively. Mary Houlihan, Chicago Sun-Times Woven into this complicated family drama are scenes of delightful humor. Humanity is the substance that ties not only all of the characters together but also binds the audience to them. This play beautifully serves the purposes of drama, comedy, the artistic theatrical process and, perhaps most importantly, demystifying the hate that comes from fear of unknown cultures. Venus Zarris, Gay Chicago Magazine The drama comes from an emotionally vivid story that captures a world of anger, joy, love and frustration as it plays out in a Muslim-American family. The appeal lies in Guindi's ability to transcend ethnicity while still writing a rich depiction of a Muslim family... The emotional difficulties could belong to any family of any (or no) religion... Smart, challenging, poignant, whimsical and at times, delightfully silly. Catey Sullivan, Pioneer Press
