who am i book by ramana maharshi pdf: Naturally Miraculous Peter Stilla, 2023-11-30 Can Christianity experience a twenty-first-century renaissance? Can it again serve as a welcoming home for authentic Truth seekers who aspire to genuine spiritual and mystical experience? Naturally Miraculous describes the path of bringing this long-sought objective into being. First, it contains a strong refutation of today's sectarian, orthodox Christianity and argues for a return to what Christianity originally was before the rise of Roman Catholicism, when it was the more mystical, Universalist religion Jesus intended it to be. Second, it examines mysticism and cosmic consciousness from the theological, philosophical, and psychological perspectives and how it has been a part of humanity's spiritual quest and religious cultures, particularly Christianity, throughout history. It ultimately describes a new way of being Christian, a way in which we are to follow the example of Jesus and take the path he describes to the kingdom of God, which is the attainment of Christ consciousness or mystical realization. In Naturally Miraculous, we see how achieving the consciousness of Christ has been humanity's ultimate purpose all along.

who am i book by ramana maharshi pdf: IS SPIRITUALITY THE KEY TO LASTING PEACE AND JOY? BHUBAN PANDEY, 2023-09-01 According to spiritual masters (e.g., sages, seers, yogis, mystics, etc.), whether we know (or believe) it or not, we already are and will always be the only pure being (or awareness) there is, which is eternal (timeless), infinite (dimensionless), indivisibly whole, innately peaceful, and absolutely fulfilled. This claim implies that we are not individuals with mind-body mechanisms. Therefore, it is our birthright to recognize our true nature as it is and naturally manifest that true nature in our daily lives to live a complete and fulfilled life with lasting peace and joy. This guidebook is meant to help us recognize our true nature as it is. A little over twelve years ago, I began to be very interested in spirituality. Since then, every year I have been spending hundreds, even thousands, of hours on activities such as listening to YouTube discourses on spirituality, conducting internet research on spiritual topics, contemplating the knowledge, understanding, and insight I have gained, and so on. Writing books has been one of my spiritual practices, with the purpose of sharing what I have been able to learn, discover, and intuit. Are the physical objects that seem to exist in the external world real? Are the subtle objects that we experience internally real? What about the reality of our bodies and minds? Do they have independent existences of their own? What is the true nature of my being? What am I? What is it that is aware of (or knows) my experiences? What is the continuous element in all my experiences? What is it that cannot be removed from me? How do I know that I exist? What can I be certain of? Why can't I have lasting peace and joy in life? Is it possible to recognize my true nature? What do eastern wisdom traditions, such as Vedanta, teach? If you are looking for answers to any of the questions mentioned above, then please consider reading this book, which is based mainly on the teachings of Swami Vivekananda and Shri Ramana Maharshi, the two greatest spiritual giants of modern times.
