blasted sarah kane pdf: Sarah Kane's Theatre of Psychic Life Leah Sidi, 2023-03-09 Sarah Kane was one of the landmark playwrights of 1990s Britain, her influence being felt across UK and European theatre. This is the first book to focus exclusively on Kane's unique approach to mind and mental health. It offers an important re-evaluation of her oeuvre, revealing the relationship between theatre and mind which lies at the heart of her theatrical project. Drawing on performance theory, psychoanalysis and neuroscience, this book argues that Kane's innovations generate a 'dramaturgy of psychic life', which re-shapes the encounter between stage and audience. It uses previously unseen archival material and contemporary productions to uncover the mechanics of this innovative theatre practice. Through a radically open-ended approach to dramaturgy, Kane's works offer urgent insights into mental suffering that take us beyond traditional discourses of empathy and mental health and into a profound rethinking of theatre as a mode of thought. As such, her theatre can help us to understand debates about mental suffering today.

blasted sarah kane pdf: Women Experimenting in Theatre Kate Aughterson, Deborah Philips, 2024-11-14 This collection of essays, covering a broad historical range, shows that women working in theatre and drama since the time of Aphra Behn have been engaged in pushing the boundaries of conventional representation and dramaturgical convention. Collectively the authors show that women have used performing spaces as a channel for both political and personal radicalism - one that has demanded and celebrated experimentalism as a kind of survival in a male dominated world.

blasted sarah kane pdf: Viewers in Distress Stefka Mihaylova, 2023-07-05 Conventional notions of avant-garde art suggest innovative artists rebelling against artistic convention and social propriety, shocking unwilling audiences into new ways of seeing and living. Viewers in Distress tells a different story. Beginning in the tumultuous 1990s, after the fall of the Berlin Wall and in the wake of the Los Angeles riots, rebellious spectators in American and British theaters broke with theater decorum and voiced their radical interpretations of shows that were not meant to be radical. In doing so, audiences tried to understand the complex racial, gender, and religious politics of their times, while insisting that liberal societies fulfill their promise of dignity for all. Stefka Mihaylova argues that such non-conforming viewing amounts to an avant-garde of its own: a bold reimagining of how we live together and tell stories of our lives together, aimed to achieve liberalism's promise. In telling this story, she analyzes the production and reception politics of works by Susan-Lori Parks, Sarah Kane, Forced Entertainment, Gurpreet Kaur Bhatti, and Young Jean Lee, as well as non-theatrical controversies such as the conflict over Halloween costumes at Yale in 2015. At the core of spectators' discontent, this book suggests, is an effort to figure out how to get along with people different from ourselves in the diverse U.S. and British societies in which we live.

blasted sarah kane pdf: Shakespeare's Props Sophie Duncan, 2019-01-30 Cognitive approaches to drama have enriched our understanding of Early Modern playtexts, acting and spectatorship. This monograph is the first full-length study of Shakespeare's props and their

cognitive impact. Shakespeare's most iconic props have become transhistorical, transnational metonyms for their plays: a strawberry-spotted handkerchief instantly recalls Othello; a skull Hamlet. One reason for stage properties' neglect by cognitive theorists may be the longstanding tendency to conceptualise props as detachable body parts: instead, this monograph argues for props as detachable parts of the mind. Through props, Shakespeare's characters offload, reveal and intervene in each other's cognition, illuminating and extending their affect. Shakespeare's props are neither static icons nor substitutes for the body, but volatile, malleable, and dangerously exposed extensions of his characters' minds. Recognising them as such offers new readings of the plays, from the way memory becomes a weapon in Hamlet's Elsinore, to the pleasures and perils of Early Modern gift culture in Othello. The monograph illuminates Shakespeare's exploration of extended cognition, recollection and remembrance at a time when the growth of printing was forcing Renaissance culture to rethink the relationship between memory and the object. Readings in Shakespearean stage history reveal how props both carry audience affect and reveal cultural priorities: some accrue cultural memories, while others decay and are forgotten as detritus of the stage.

blasted sarah kane pdf: *Mothering Performance* Lena Šimić, Emily Underwood-Lee, 2022-11-30 *Mothering Performance* is a combination of scholarly essays and creative responses which focus on maternal performance and its applications from a variety of interdisciplinary perspectives. This collection extends the concept and action of 'performance' and connects it to the idea of 'mothering' as activity. Mothering, as a form of doing, is a site of never-ending political and personal production; it is situated in a specific place, and it is undertaken by specific bodies, marked by experience and context. The authors explore the potential of a maternal sensibility to move us towards maternal action that is explicitly political, ethical, and in relation to our others. Presented in three sections, Exchange, Practice, and Solidarity, the book includes international contributions from scholars and artists covering topics including ecology, migration, race, class, history, incarceration, mental health, domestic violence, intergenerational exchange, childcare, and peacebuilding. The collection gathers diverse maternal performance practices and methodologies which address aesthetics, dramaturgy, activism, pregnancy, everyday mothering, and menopause. The book is a great read for artists, maternal health and care professionals, and scholars. Researchers with an interest in feminist performance and motherhood, within the disciplines of performance studies, maternal studies, and women's studies, and all those who wish to gain a deeper understanding of maternal experience, will find much of interest. Our current wealth-oriented economic systems have resulted in gross disparities, war, refugee crises, and mass migrations that augur a bleak collective future. In this book, respected scholar Stuart Walker combines formidable research with practical examples to offer a hopeful, original, and transformative view of what resilient design looks like and how it can apply to all aspects of life, from personal objects to food to culture to business to recreation. Working at the intersection of theory, philosophy, history, environmentalism, and justice, Walker offers a fresh approach that decolonizes design thinking to fundamentally change the nature of design practice and how it shapes our lives, communities, and industries. Asking nothing short of the fundamental question "How should we live?," *Design for Resilience* addresses the high-priority issues that concern governments, policymakers, designers, and people around the world who recognize that now, perhaps more than at any other time in human history, we need paradigmatic changes to create a future that lasts.

blasted sarah kane pdf: *The Relocation of Culture* Simona Bertacco, Nicoletta Vallorani, 2021-04-08 *The Relocation of Culture* is about accents and borders-about people and cultures that have accents and that cross borders. It is a book that deals with translation and nomadic identities, and with the many ways in which the increasing relevance of forced migrations has affected the practice of languages and the understanding of cultures in our times. Simona Bertacco and Nicoletta Vallorani examine the theoretical and practical nexus of translation and migration, two of the most visible and anxiety-producing keywords of our age, and use translation as the method for a global cultural theory firmly based in the humanities, both as creative output and interdisciplinary scholarship. Positioning their work within the field of translation studies with important borrowings from literary and cultural studies, visual and migration studies, the authors suggest a theory of translation that makes space for complexity, considers different “languages” (words, images, sounds, bodies), and takes into account both our emotional, pre-linguistic and instinctual reaction to the other as an invader and an enemy and the responsibility for the other that lies at the heart of translation. This process necessarily involves a reflection on the location and relocation of cultures in contemporary times.

blasted sarah kane pdf: *Staging Systemic Violence* Alex Watson, 2024-07-25 This study offers a historicization of the 2010s in British theatre with a focus on the representation of systemic violence, exploring productions that engage with concerns of protest, climate crisis, neoliberalism, racism and gender-based violence. It offers a range of case studies from established and emergent playwrights such as Caryl Churchill, Martin McDonagh, Anders Lustgarten, Lucy Kirkwood, Ella Hickson, Jasmine Lee-Jones, Debbie Tucker Green, Zinnie Harris, and Travis Alabanza. Productions of their work in the 2010s are analysed through a framework of cultural theory, philosophy, and theatre and performance studies that offer insightful conceptions of violence and performativity. Central to this book is the belief that theatre has the ability to depict issues of systemic violence in thoughtful and valuable ways, drawing on the medium's specific relations between creatives, texts, spectatorship and audiences to mindfully engage participants in the most pressing societal and cultural concerns of their time.

blasted sarah kane pdf: *Global Poverty Law* Moniza Rizzini Ansari, 2024-09-30 This book demonstrates how the various legal efforts employed to eradicate global urban poverty also play a significant role in shaping it. Urban poverty has been widely examined as a social problem that requires attention and social commitment. Law is often seen as both an important contributor to the problem as well as a source of crucial tools to overcome it. In spite of this, however, poverty is surprisingly disregarded within legal scholarship. This book counters this by drawing on legal theory, legal history, and legal geography to inquire how urban poverty is made visible and invisible as a problem across global cities. More specifically, it investigates the mechanisms and networks through which global urban poverty has been conceptually and materially shaped in a way that fits the remit of global corporate philanthropy and the development aid agenda. By following law's circuitous interactions with poverty knowledge and antipoverty interventions, the book demonstrates how it plays a historical role in making poverty seen, known, and remedied. As a result, the book argues, law consolidates a stable image of poverty as an essential ‘problem’ - to be uniformly found worldwide and so reasonably fixable with the appropriate legal reforms. Taking poverty to be a fundamental manifestation of social injustice, the book thus raises key questions about the role of law in the achievement of social justice. This innovative and insightful account of the relationship between law and poverty will appeal to scholars in critical and socio-legal studies, as well as others working in poverty studies, urban studies, development studies, geography, sociology, and social policy.
