character building activities pdf: Teaching Character and Virtue in Schools James Arthur, Kristján Kristjánsson, Tom Harrison, Wouter Sanderse, Daniel Wright, 2016-07-15 Teaching Character and Virtue in Schools addresses the contemporary issues of quantification and measurement in educational settings. The authors draw on the research of the Jubilee Centre at the University of Birmingham in order to investigate the concern that the conventional wisdom, sound judgement and professional discretion of teachers is being diminished and control mistakenly given over to administrators, policymakers and inspectors which in turn is negatively effecting pupils' character development. The book calls for subject competence to be complemented by practical wisdom and good character in teaching staff. It posits that the constituent virtues of good character can be learned and taught, that education is an intrinsically moral enterprise and that character education should be intentional, organised and reflective. The book draws on the Jubilee Centre's expertise in support of its claims and successfully integrates the fields of educational studies, psychology, sociology, philosophy and theology in its examination of contemporary educational practices and their wider effect on society as a whole. It offers sample lessons as well as a framework for character education in schools. The book encourages the view that character education is about helping students grasp what is ethically important and how to act for the right reasons so that they can become more autonomous and reflective individuals within the framework of a democratic society. Particularly interested readers will be educational leaders, teachers, those undertaking research in the field of education as well as policy analysts with a keen interest in developing the character and good sense of learners today.

character building activities pdf: Teaching Character in the Primary Classroom Tom Harrison, Ian Morris, John Ryan, 2016-03-10 Teaching Character in the Primary Classroom provides an excellent and very accessible overview of the emerging field of character education. It covers, in detail, the theory of character education as well as advice and guidance about how this should be applied in practice in primary schools. Professor James Arthur, University of Birmingham Character matters. As more and more schools are choosing to teach Character Education, trainee and beginning teachers need to know more. What is Character Education? Can it really be 'taught'? How does children's learning benefit from discussions around character in the classroom? How do I teach it? What does good teaching of Character Education look like in the classroom? Teaching Character Education in Primary schools tackles these questions, and many more. This is a practical guide to why and how we can teach character in primary schools. It begins by exploring why character matters and considers what 'character' is and (importantly) what it is not. It goes on to discuss the place for teaching character in primary education and includes practical guidance on how it can be taught. The text also looks at character beyond the classroom, how parents and the wider community can be included in the teaching of character and how outdoor learning and education can

contribute. This book is written for all those who are new to teaching character.

character building activities pdf: The Character Edge Robert L. Caslen, Jr., Michael D.

Matthews, 2020-10-13 The former superintendent at West Point and a psychologist explain why all successful leaders rely on a foundation of strong character. Among the most successful leaders throughout history—from Abe Lincoln to Rosa Parks, Mahatma Gandhi to Susan B. Anthony, Martin Luther King, Jr. to Nelson Mandela—some were brilliant mathematicians and economists, others were creative visionaries, still others were masterful at strategic planning. Their mastery of their field wasn't the secret to their highly effective leadership. All of their skill, grit, resilience, charisma, and courage emanated from one thing: their strength of character. Character—the moral values and habits of an individual—is in the spotlight now more than perhaps at any other point in modern history. Politicians distort facts. Corporations cheat customers and investors. Athletes are caught using illegal supplements. In addition to harming our culture at large, these failures of character have a profound and undermining impact on leadership. The authors of this book are experts on the value of character, its correlation with successful leadership, and how to build it in individuals and prospective leaders. General Robert L. Caslen, Jr. served the US Army for over 43 years and served as Superintendent at the US Military Academy at West Point. Psychologist Dr. Michael D. Matthews is a Professor of Engineering Psychology at West Point who has focused on the psychology of character for years. Together they witnessed firsthand that raw talent is not enough to stand on its own; successful leadership relies on the critical foundation of a strong character. In *The Character Edge* they leverage their perspectives to offer an empowering, story-driven argument—backed by the latest scientific research—that character is vital to success. They give readers the tools to build and sustain character in themselves and their organizations by testing readers' strengths of the gut, head and heart and teaching how to build trust and nurture the seeds of character.

character building activities pdf: Tokkatsu: The Japanese Educational Model Of Holistic Education Ryoko Tsuneyoshi, Hiroshi Sugita, Kanako Kusanagi, Fumiko Takahashi, 2019-09-16 Though there has been much discussion on the academic aspects of Japanese education abroad (e.g., high scores on international tests, lesson study), there has been little information on the non-academic aspects of Japanese schooling. This non-academic aspect is called Tokkatsu (tokubetsu katsudo). Unlike math and reading, Tokkatsu is not confined to a certain period, but extends throughout the school day and even after-school activities — such as school excursions. It includes classroom activities such as classroom discussions, morning and afternoon meetings that take place daily, cleaning and serving lunch, school events such as sports day, school excursions, student councils, and club activities. Such activities occur every single day, throughout one's school years, from elementary school (actually, even kindergarten) to high school. They are, however, bound together by the common goals of the Tokkatsu framework. This book is the foremost attempt to address a gap in English literature on Tokkatsu.

character building activities pdf: Coaching Values and Life Skills through Physical Education and Sports Koon Teck Koh, Tarkington J Newman, Muhammad Shufi Bin Salleh, 2024-11-08 This impactful resource guide is for international educators and practitioners involved in Physical Education and Sport (PES) who want to learn evidence-based approaches to the teaching of values and character education. Through a systematic approach to teaching and evaluating values and character education, this book bridges the gap between theory and practice. It offers empirical evidence and strategies to show how values and character can be internalized, through carefully designed experiences, active participation, and regular reinforcement, without compromising the time needed to learn sports skills - a common concern raised by PE teachers and sports coaches. Results from case studies have also revealed that values can be transferred beyond the context of physical education lessons and sports through a collaborative approach and effective communication between teachers, coaches, and parents. Key strategies based on empirical evidence are highlighted in this book. It also highlights an Asian perspective on values and life skills training through Physical Education and provides readers with step-by-step implementation guidelines to simplify some complex strategies in developing values and life skills through PES seamlessly. The book provides useful information to anyone engaged in developing young people in, and through, sport. In

particular it will be of great value to pre-service and in-service teachers and coaches for implementing effective strategies to balance teaching sports skills, values, and life skills effectively in PES.
