THE 2010 CONSTITUTION EMERGED FROM A COMPREHENSIVE REFORM PROCESS INITIATED BY THE KENYA NATIONAL DIALOGUE AND RECONCILIATION (NDR) AND SUPPORTED BY A NATIONAL REFERENDUM. IT AIMED TO PROMOTE DEVOLUTION, PROTECT HUMAN RIGHTS, AND ESTABLISH MECHANISMS FOR ACCOUNTABILITY.

constitution of kenya pdf: Human rights and democratic governance in Kenya: A post-2007 appraisal John Osogo Ambani, Nicholas Wasonga Orago, Ochieng Walter Khobe, Paul Ogendi, Winifred Kamau, Conrad Bosire, Ken Obura, Juliet Okoth, Ruth Aura-Odhiambo, 2015-08-21 This publication is a collection of essays on human rights and democratic governance in Kenya in the period after the 2007 post-elections violence. After surviving the trauma of electoral violence, the country soon embarked on a journey towards reconstruction by engaging in, among other things, intense re-evaluation of the then existing system of laws and institutions. In the process, the daunting task has been to reverse the flawed systems that have been in existence for many decades and in their place entrench systems that would promote and respect democratic governance and human rights. This publication, therefore, documents the extent of the country's reconstruction since 2007, and makes recommendations for the way forward for the recovery of the state.

constitution of kenya pdf: *Kenya* Charles Hornsby, 2013-03-01 Since independence from Great Britain in 1963, Kenya has survived five decades as a functioning nation-state, holding regular elections; its borders and political system intact and avoiding open war with its neighbours and military rule internally. It has been a favoured site for Western aid, trade, investment and tourism and has remained a close security partner for Western governments. However, Kenya's successive governments have failed to achieve adequate living conditions for most of its citizens; violence, corruption and tribalism have been ever-present, and its politics have failed to transcend its history. The decisions of the early years of independence and the acts of its leaders in the decades since have changed the country's path in unpredictable ways, but key themes of conflicts remain: over

land, money, power, economic policy, national autonomy and the distribution of resources between classes and communities. While the country's political institutions have remained stable, the nation has changed, its population increasing nearly five-fold in five decades. But the economic and political elite's struggle for state resources and the exploitation of ethnicity for political purposes still threaten the country's existence. Today, Kenyans are arguing over many of the issues that divided them 50 years ago. The new constitution promulgated in 2010 provides an opportunity for national renewal, but it must confront a heavy legacy of history. This book reveals that history.

constitution of kenya pdf: Practical Considerations for Public Participation in Constitution-Building What, When, How and Why? Erin C. Houlihan and Sumit Bisarya, 2021-07-26 Public participation has become a core element of modern constitution-building. Robust participation is credited with a range of benefits—from improving individual behaviours and attitudes to democracy to shaping elite bargaining dynamics, improving constitutional content, and strengthening outcomes for democracy and peace. Yet it is not well understood whether and how public participation can achieve these ends. Much of what we think we know about participatory constitution-building remains theoretical. No two processes are alike, and there is no agreed definition of what constitutes a 'participatory process'. Yet national decision-makers must contend with the key question: What does a robust participation process look like for a particular country, at a particular time, in a particular context? What considerations and principles can be derived from comparative experience to guide decisions? This Policy Paper unpacks the forms and functions of public participation across different stages of the constitution-building process and considers the ways in which public engagement can influence the dynamics of the process, including political negotiations.

constitution of kenya pdf: Territory and Power in Constitutional Transitions George Anderson, Sujit Choudhry, 2019-03-07 This collection of essays surveys the full range of challenges that territorial conflicts pose for constitution-making processes and constitutional design. It provides seventeen in-depth case studies of countries going through periods of intense constitutional engagement in a variety of contexts: small distinct territories, bi-communal countries, highly diverse countries with many politically salient regions, and countries where territorial politics is important but secondary to other bases for political mobilization. Specific examples are drawn from Iraq, Kenya, Cyprus, Nigeria, South Africa, Sri Lanka, the UK (Scotland), Ukraine, Bolivia, India, Spain, Yemen, Nepal, Ethiopia, Indonesia (Aceh), the Philippines (Mindanao), and Bosnia-Herzegovina. While the volume draws significant normative conclusions, it is based on a realist view of the complexity of territorial and other political cleavages (the country's political geometry), and the power configurations that lead into periods of constitutional engagement. Thematic chapters on constitution-making processes and constitutional design draw original conclusions from the comparative analysis of the case studies and relate these to the existing literature, both in political science and comparative constitutional law. This volume is essential reading for scholars of federalism, consociational power-sharing arrangements, asymmetrical devolution, and devolution more generally. The combination of in-depth case studies and broad thematic analysis allows for analytical and normative conclusions that will be of major relevance to practitioners and advisors engaged in constitutional design.

constitution of kenya pdf: Assessing Constitutional Performance Tom Ginsburg, Aziz Huq, 2016-08-30 This volume challenges the concept of constitutional success, a bedrock assumption of comparative constitutional scholarship.

constitution of kenya pdf: State Formation After Civil War Derek M Powell, 2016-08-05 State formation after civil war offers a new model for studying the formation of the state in a national peace transition as an integrated national phenomenon. Current models of peacebuilding and state building limit that possibility, reproducing a fragmented, selective view of this complex reality. Placing too much emphasis on state building as design they place too little on understanding state formation as unplanned historical process. The dominant focus on national institutions also ignores the role that cities and civic polities have played in constituting the modern state. Mining ideas from

many disciplines and evidence from 19 peace processes, including South Africa, the book argues that the starting point for building a systematic theory is to explain a distinct pattern to state formation that can be observed in practice: Despite their conflicts people in fragile societies bargain terms for peaceful coexistence, they make attempts to constitute the right to rule as valid state authority, in circumstances prone to conflict, over which they have imperfect influence, not control. Though the kind of institutions created will differ with context, how rules for state authority are institutionalized follows a consistent basic pattern. That pattern defines state formation in peace transitions as both a unified, if contingent, field of normative practice and an object of comparative study. Where the national-centric models see local government as a matter belonging to policy on decentralization for later in the reconstruction phase, the book uncovers a distinct local government dimension to peace transitions: A civic dimension to national conflicts that must be explained; incipient or proto-local authorities that emerge even during civil war, in peace making, after state collapse; the fact that it is common for peace agreements and constitutions to include rules for local authority, for local elections to be held as part of broader democratization, and for laws to be enacted to establish local government as part of peace compacts. The book develops the concept of local peace transition to explain the distinctive constitutive role of this local dimension in peace-making and state formation. This path-breaking book will be of compelling interest to practitioners, scholars and students of comparative constitutional studies, international law, peace building and state building.

constitution of kenya pdf: Public Participation in African Constitutionalism Tania Abbiate, Markus Böckenförde, Veronica Federico, 2017-11-22 During the last decade of the 20th century, Africa has been marked by a constitutional wind which has blown across the continent giving impetus to constitutional reforms designed to introduce constitutionalism and good governance. One of the main features of these processes has been the promotion of public participation, encouraged by both civil society and the international community. This book aims to provide a systematic overview of participation forms and mechanisms across Africa, and a critical understanding of the impact of public participation in constitution-making processes, digging beneath the rhetoric of public participation as being at the heart of any successful transition towards democracy and constitutionalism. Using case studies from Central African Republic, Egypt, Kenya, Libya, Malawi, Morocco, Senegal, Somalia, South Africa, South Sudan, Tanzania, Tunisia, Zambia and Zimbabwe, the book investigates various aspects of participatory constitution making: from conception, to processes, and specific contents that trigger ambivalent dynamics in such processes. The abstract glorification of public participation is questioned as theoretical and empirical perspectives are used to explain what public participation does in concrete terms and to identify what lessons might be drawn from those experiences. This is a valuable resource for academics, researchers and students with an interest in politics and constitution building in Africa, as well as experts working in national offices, international organizations or in national and international NGOs.

constitution of kenya pdf: Regulatory Support for Off-Grid Renewable Electricity Ngozi Chinwa Ole, Eduardo G. Pereira, Peter Kayode Oniemola, Gustavo Kaercher Loureiro, 2023-02-02 This book investigates the role of law in enabling and addressing the barriers to the development of off-grid renewable electricity (OGRE). The limited development of OGRE is ascribed to a host of social, economic, and legal barriers, including the problem of initial capital costs, existing subsidies for conventional electricity, and lack of technological and institutional capacity. Through the analyses of selected case studies from Africa, Asia, Europe and North and South America, this book discusses the typical barriers to the development of OGRE from a global perspective and examines the role of the law in addressing them. Drawing together the lessons learnt from the case studies, this book offers robust recommendations on how the development of OGRE will support the goal of achieving universal access to low carbon, reliable, and sustainable electricity globally. This volume

will be of great interest to students, scholars, policy makers, investors, and practitioners in the fields of energy law and policy, climate change, and renewable energy development.

constitution of kenya pdf: *Gender, Judging and the Courts in Africa* J. Jarpa Dawuni, 2021-11-29 Women judges are playing increasingly prominent roles in many African judiciaries, yet there remains very little comparative research on the subject. Drawing on extensive cross-national data and theoretical and empirical analysis, this book provides a timely and broad-ranging assessment of gender and judging in African judiciaries. Employing different theoretical approaches, the book investigates how women have fared within domestic African judiciaries as both actors and litigants. It explores how women negotiate multiple hierarchies to access the judiciary, and how gender-related issues are handled in courts. The chapters in the book provide policy, theoretical and practical prescriptions to the challenges identified, and offer recommendations for the future directions of gender and judging in the post-COVID-19 era, including the role of technology, artificial intelligence, social media, and institutional transformations that can help promote women's rights. Bringing together specific cases from Kenya, Uganda, Ghana, Nigeria, Zambia, Tanzania, and South Africa and regional bodies such as ECOWAS and the African Commission on Human and Peoples' Rights, and covering a broad range of thematic reflections, this book will be of interest to scholars, students, and practitioners of African law, judicial politics, judicial training, and gender studies. It will also be useful to bilateral and multilateral donor institutions financing gender-sensitive judicial reform programs, particularly in Africa. The Open Access version of this book, available at www.taylorfrancis.com/books/oa-edit/10.4324/9780429327865/gender-judging-courts-africa-jarpa-da-wuni, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

constitution of kenya pdf: Financial Regulation in Africa Iwa Salami, 2016-04-15 In the wake of the global financial crisis, there has been a worldwide search for alternative investment opportunities, away from advanced markets. The African continent is now one of the fastest-growing economic regions in the world and represents a viable destination for foreign direct and portfolio investment. This book, which is the first comprehensive analysis of financial integration and regulation in Africa, fills a huge gap in the literature on financial regulation and would constitute an invaluable source of information to policy makers, investors, researchers and students of financial regulation from an emerging and frontier markets perspective. It considers how financial integration can facilitate African financial markets to achieve their full potential and provides a comparative study with the EU framework for financial integration and regulation. It assesses the implementation of effective and regional domestic infrastructures and how these can be adapted to suit the African context. The book also provides an assessment of government policies towards the integration of financial regulation in keeping with the regional agenda of the African Union (AU) and the African Economic Community (AEC).

constitution of kenya pdf: Roaming Africa van Reisen, Mirjam, Mawere, Munyaradzi, Stokmans, Mia, Gebre-Egziabher, Kinfe Abraha, 2019-10-24 What happens when digital innovation meets migration? Roaming Africa considers how we understand modern-day mobility in Africa, where age-old routes strengthen the resilience of people roaming the continent for livelihoods and security, assisted by mobile communication. Digital mobility expands connectivity around the world,

and also in Africa. In this book, the authors show that mobility, resilience and social protection in the digital age are closely related. Each chapter takes a close look at the migration dynamics in a specific context, using social theory as a lens. This book adopts a critical perspective on approaches in which migration is regarded merely as a hazard. Edited by distinguished scholars from Africa and Europe, this volume, the second in a four-part series *Connected and Mobile: Migration and Human Trafficking in Africa*, compiles chapters from a diverse group of young and upcoming scholars, making an important contribution to the literature on migration studies, digital science, social protection and governance.

constitution of kenya pdf: *Access Denied* Ronald Deibert, John Palfrey, Rafal Rohozinski, Jonathan Zittrain, 2008-01-25 A study of Internet blocking and filtering around the world: analyses by leading researchers and survey results that document filtering practices in dozens of countries. Many countries around the world block or filter Internet content, denying access to information that they deem too sensitive for ordinary citizens—most often about politics, but sometimes relating to sexuality, culture, or religion. *Access Denied* documents and analyzes Internet filtering practices in more than three dozen countries, offering the first rigorously conducted study of an accelerating trend. Internet filtering takes place in more than three dozen states worldwide, including many countries in Asia, the Middle East, and North Africa. Related Internet content-control mechanisms are also in place in Canada, the United States and a cluster of countries in Europe. Drawing on a just-completed survey of global Internet filtering undertaken by the OpenNet Initiative (a collaboration of the Berkman Center for Internet and Society at Harvard Law School, the Citizen Lab at the University of Toronto, the Oxford Internet Institute at Oxford University, and the University of Cambridge) and relying on work by regional experts and an extensive network of researchers, *Access Denied* examines the political, legal, social, and cultural contexts of Internet filtering in these states from a variety of perspectives. Chapters discuss the mechanisms and politics of Internet filtering, the strengths and limitations of the technology that powers it, the relevance of international law, ethical considerations for corporations that supply states with the tools for blocking and filtering, and the implications of Internet filtering for activist communities that increasingly rely on Internet technologies for communicating their missions. Reports on Internet content regulation in forty different countries follow, with each two-page country profile outlining the types of content blocked by category and documenting key findings. Contributors Ross Anderson, Malcolm Birdling, Ronald Deibert, Robert Faris, Vesselina Haralampieva [as per Rob Faris], Steven Murdoch, Helmi Noman, John Palfrey, Rafal Rohozinski, Mary Rundle, Nart Villeneuve, Stephanie Wang, Jonathan Zittrain

constitution of kenya pdf: *Kenyas Past as Prologue* Marie-Aude Fouere, Susan Mwangi, 2015-06-16 During the run-up to Kenyas 2013 general elections, crucial political and civic questions were raised. Could past mistakes, especially political and ethnic-related violence, be avoided this time round? Would the spectre of the 2007 post-electoral violence positively or negatively affect debates and voting? How would politicians, electoral bodies such as the IEBC, the Kenyan civil society, and the international community weigh in on the elections? More generally, would the 2013 elections bear witness to the building up of an electoral culture in Kenya, characterized by free and fair elections, or would it show that voting is still weakened by political malpractices, partisan opinions and emotional reactions? Would Kenyas past be inescapable or would it prepare the scene for a new political order? *Kenyas Past as Prologue* adopts a multidisciplinary perspective mainly built upon field-based ethnography and a selection of case studies to answer these questions. Under the leadership of the French Institute for Research in Africa (Institut francais de recherche en Afrique, IFRA), political scientists, historians and anthropologists explore various aspects of the electoral process to contribute in-depth analyses of the last elections. They highlight the structural factors underlying election and voting in Kenya including the political system, culture and political transition. They also interrogate the short-term trends and issues that influence the new political order. The book provides insight into specific case studies, situations and contexts, thus bringing nuances and diversity into focus to better assess Kenyas evolving electoral democracy.
