duty honor country speech pdf: Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the "Kantian Rift," an epistemological barrier between external reality and the mind of the percipient. Arbitrarily proclaimed by German philosopher Immanuel Kant, this barrier rendered the world as a terra incognita. Suddenly, the world "out there" was deemed imperceptible and unknowable. In addition to the outer world, the cherished metaphysical certainties of antiquity—the soul, a transcendent order, and God—swiftly evaporated. The way was paved for a new set of modern mythmakers who would populate the world "out there" with their own surrogates for the Divine. Collectively, these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity. In recent years, the Beyond has been invoked by theoreticians, literary figures, intelligence circles, and deep state operatives who share some variant of a technocratic vision for the world. In turn, these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man. Their hegemony has been legitimized through the

invocation of a wrathful earth goddess, a technological Singularity, a superweapon, and extraterrestrial "gods." All of these are merely masks for the same counterfeit divinity... the Beyond.

duty honor country speech pdf: Boy on the Bridge Andrew Marble, 2019-10-15 His life and career were the embodiment of the American dream. Born in Poland, John Shalikashvili (1936–2011) descended from aristocratic European families that served with distinction in both battle and government for centuries. After barely surviving the Warsaw Uprising, he and his family fled to Germany during World War II to escape advancing Soviet troops and emigrated to the United States in 1952. Shalikashvili was drafted into the army as a private in 1958 and rose steadily through the ranks, serving in every level of unit command from platoon to division. In 1993 Shalikashvili was tapped by President Bill Clinton to replace General Colin Powell as chairman of the Joint Chiefs of Staff, becoming the first immigrant, first draftee, and first Officer Candidate School graduate to hold the position. This first-ever biography of Shalikashvili's riches-to-rags-and-back-to-riches story reveals how his distinctive background helped him become one of the United States's greatest

military leaders. He exhibited a unique and unconventional leadership style—employing expertise, humility, straightforwardness, and empathy—that he adroitly used to resolve or prevent destructive conflict. His distinctive leadership style greatly benefited the United States, Europe, and beyond: as when he led the rescue of 500,000 Kurdish refugees in the first Gulf War's aftermath; when he represented Joint Chiefs chairman Colin Powell in helping secure loose nukes in the former Soviet republics; as he joined forces with fellow immigrant Madeleine Albright on the Partnership for Peace initiative and NATO enlargement program in the 1990s; and in retirement, when he helped end the military's Don't Ask, Don't Tell policy, thereby finally allowing gay servicemembers to serve openly without fear of dishonorable discharge.

duty honor country speech pdf: God's Favorites Michael Coogan, 2019-04-02 A noted biblical scholar explores how the claim of divine choice has been used from ancient times to the present to justify territorial expansion and prejudice. The Bible describes many individuals and groups as specially chosen by God. But does God choose at all? Michael Coogan explains the temporally layered and allusive storytelling of biblical texts and describes the world of the ancient Near East from which it emerged, laying bare the power struggles, the acts of vengeance, and persecutions made sacred by claims of chosenness. Jumping forward to more modern contexts, Coogan reminds us how the self-designation of the Puritan colonizers of New England as God's new Israel eventually morphed, in the United States, into the self-justifying doctrines of manifest destiny and American exceptionalism. In contemporary Israel, both fundamentalist Zionists and their evangelical American partners cite the Jews' status as God's chosen people as justification for taking land—for very different ends. Appropriated uncritically, the Bible has thus been used to reinforce exclusivity and superiority, with new myths based on old myths. Finally, in place of the pernicious

idea of chosenness, Coogan suggests we might instead focus on another key biblical concept: taking care of the immigrant and the refugee, reminding the reader of the unusual focus on the vulnerable in both the Hebrew Bible and New Testament.

duty honor country speech pdf: *Boots on the Ground by Dusk* Mary Tillman, Narda Zacchino, 2008-04-29 On April 22, 2004, Lieutenant David Uthlaut received orders from Khost, Afghanistan, that his platoon was to leave the town of Magarah and have boots on the ground before dark in Manah, a small village on the border of Pakistan. It was an order the young lieutenant protested vehemently, but the commanders at the Tactical Command Center disregarded his objections. Uthlaut split his platoon into two serials, with serial one traveling northwest to Manah and serial two towing a broken Humvee north toward the Khost highway. By nightfall, Uthlaut and his radio operator were seriously wounded, and an Afghan militia soldier and a U.S. soldier were dead. The American soldier was Pat Tillman. The Tillman family was originally informed that Pat, who had given up a professional football career to serve his country, had been shot in the head while getting out of a vehicle. At his memorial service twelve days later, they were told that he was killed while running up a hill in pursuit of the enemy. He was awarded a Silver Star for his courageous actions. A month and two days after his death, the family learned that Pat had been shot three times in the head by his own troops in a friendly fire incident. Seven months after Pat's death, the Tillmans requested an investigation. *Boots on the Ground by Dusk* is a chronicle of their efforts to ascertain the true circumstances of Pat's death and the reasons why the Army gave the family and the public a false story. Woven into the account are valuable and respectful memories of Pat Tillman as a son, brother, husband, friend, and teammate, in the hope that the reader will better comprehend what is really lost when our sons and daughters are killed or maimed in war. In the course of three and a half years, there have been six investigations, several inquiries, and two Congressional hearings. The Tillmans are still awaiting an outcome.

duty honor country speech pdf: *America in Retreat* Michael Pembroke, 2021-01-28 The story of how America turned its back on the world... In the heady days after 1945, the authority of the United States was unrivalled and, with the founding of the UN, a new era of international co-operation seemed to have begun. But seventy-five years later, its influence has already diminished. The world has now entered a post-American era, argues Michael Pembroke, defined by a flourishing Asia and the ascendancy of China, as much as by the decline of the United States. This book is a short history of that decline; how high standards and treasured principles were ignored; how idealism was replaced by hubris and moral compromise; and how adherence to the rule of law became selective. It is also a look into the future – a future dominated by greater Asia and China in particular. We are in the midst of the third great power shift in modern history – from Europe to America to Asia. Covering wars in Korea, Vietnam, Iraq and Afghanistan, interventions in Iran, Guatemala and Chile, and a retreat from international engagement with the UN, WHO and, increasingly, trade agreements, Pembroke sketches the history of America's retreat from universal principles to provide a clear-eyed analysis of the dangers of American exceptionalism.

duty honor country speech pdf: *Fundamental Rights, Religion and Human Dignity* Javier Martínez-Torrón, Li-ann Thio, 2024-12-02 This collection examines theoretical and practical issues concerning the relationship between freedom of religion or belief and other fundamental rights, in the context of secular States, from the perspective of human dignity. As the Universal Declaration of Human Rights made clear, human dignity constitutes the foundation of human rights, among which freedom of thought, conscience, and religion occupies a prominent place. As a consequence of the inter-cultural debate that is ongoing in contemporary Western societies, which are increasingly

pluralistic, the concept of human dignity faces important challenges in terms of what it requires. The five chapters included in the first part of this book discuss some of these conceptual challenges, such as the implications of common good constitutionalism for the understanding of human dignity and the role of religious freedom from the perspective of Western experiences and legal thinkers. The chapters in Part II explore particular questions involving human dignity and the relationship between freedom of religion or belief and other human rights, for example, how to build bridges between religious freedom and other fundamental freedoms when people make conflicting legitimate choices. Taken together, the book offers an insightful range of perspectives on some contemporary challenges raised by the exercise of religious freedom in societies that claim to be based on respect for human dignity and human rights. The volume will be a valuable resource for academics, researchers, and policy-makers working in the areas of Law and Religion, Human Rights Law, Constitutional Law, and International Relations.
