ihya ulum al din english pdf: The Myth of the Andalusian Paradise Dario Fernandez-Morera, 2023-07-11 A finalist for World Magazine's Book of the Year! Scholars, journalists, and even politicians uphold Muslim-ruled medieval Spain—al-Andalus—as a multicultural paradise, a place where Muslims, Christians, and Jews lived in harmony. There is only one problem with this widely accepted account: it is a myth. In this groundbreaking book, Northwestern University scholar Darío Fernández-Morera tells the full story of Islamic Spain. The Myth of the Andalusian Paradise shines light on hidden history by drawing on an abundance of primary sources that scholars have ignored, as well as archaeological evidence only recently unearthed. This supposed beacon of peaceful coexistence began, of course, with the Islamic Caliphate's conquest of Spain. Far from a land of religious tolerance, Islamic Spain was marked by religious and therefore cultural repression in all areas of life and the marginalization of Christians and other groups—all this in the service of social control by autocratic rulers and a class of religious authorities. The Myth of the Andalusian Paradise provides a desperately needed reassessment of medieval Spain. As professors, politicians, and pundits continue to celebrate Islamic Spain for its multiculturalism and diversity, Fernández-Morera sets the historical record straight—showing that a politically useful myth is a myth nonetheless.

ihya ulum al din english pdf: Women Mystics and Sufi Shrines in India Kelly Pemberton, 2013-02-19 Insightful field research into the complexity of women's roles in a subset of Islamic culture. Women Mystics and Sufi Shrines in India combines historical data with years of ethnographic fieldwork to investigate women's participation in the culture of Sufi shrines in India and the manner in which this participation both complicates and sustains traditional conceptions of Islamic womanhood. Kelly Pemberton grounds her firsthand research into India's Sufi shrines and saints by setting her observations against the historical backdrop of colonial-era discourses by British civil servants, Orientalist scholars, and Muslim reformists and the assumptive portrayals of

women's activities in the milieu of Sufi orders and shrines inherent in these accounts. These early narratives, Pemberton holds, are driven by social, economic, intellectual, and political undercurrents of self-interest that shaped Western understanding of Indian Muslims and, in particular, of women's participation in the institutions of Sufism. Pemberton's research offers a corrective by assessing the contemporary circumstances under which a woman may be recognized as a spiritual authority or guide—despite official denial of such status—and by examining the discrepancies between the commonly held belief that women cannot perform in the public setting of shrines and her own observations of women doing precisely that. She demonstrates that the existence of multiple models of master and disciple relationships have opened avenues for women to be recognized as spiritual authorities in their own right. Specifically Pemberton explores the work of performance, recitation, and ritual mediation carried out by women connected with Sufi orders through kinship and spiritual ties, and she maps shifting ideas about women's involvement in public ritual events in a variety of contexts, circumstances, and genres of performance. She also highlights the private petitioning of saints, the Prophet, and God performed by poor women of low social standing in Bihar Sharif. These women are often perceived as being exceptionally close to God yet are compelled to operate outside the public sphere of major shrines. Throughout this groundbreaking study, Pemberton sets observed practices of lived religious experiences against the boundaries established by prescriptive behavioral models of Islam to illustrate how the varied reasons given for why women cannot become spiritual masters conflict with the need in Sufi circles for them to do exactly that. Thus this work also invites further inquiry into the ambiguities to be found in Islam's foundational framework for belief and practice.

ihya ulum al din english pdf: Sexuality Education from an Islamic Perspective G. Hussein Rassool, Muhammad Aftab Khan, Shaikh Abdul Mabud, Muhammad Ahsan, 2020-02-13 We live in an over-sexualised culture where sex and sexuality have become part of the public domain. This sexual revolution challenges Judeo-Christian and Islamic norms and boundaries. As such, sexuality education is a sensitive and extremely important issue, and its current implementation in schools has raised public concerns. This book explores the subject, contextualising it within the matrix of Islamic beliefs and practices. Islam binds sexuality and sexual education to a moral grid with rights and obligations, justice and equity. There is a dominant discourse and stereotype around 'Islamic sexuality', which presents sex and sexuality as the biggest taboo, fraught with fear and seldom discussed. This book dispels such myths and misconceptions, providing an overview of sexuality education in the modern world and the need for such education.

ihya ulum al din english pdf: Education, Leadership and Islam Saeeda Shah, 2015-07-03 Educational institutions are undergoing complex and sensitive changes in the context of immigration, international mobility, globalisation, and shifting economic scenarios, making highly challenging demands on educational leaders. Leadership is increasingly being perceived and theorised as pivotal to students' achievement and institutional performance. In this book, Saeeda Shah considers educational leadership from an Islamic perspective to debate theoretical positions underpinned by Islamic texts and teachings, and the resulting conceptualisations and interpretations. While educational leadership literature and research have flourished in recent years, this is predominantly informed by Western ideologies, concepts, theories and practices.

Education, Leadership and Islam focuses on contemporary educational settings and practices, drawing on research and empirical evidence from multicultural contexts in order to enrich theory and inform policy and practice in relevant frameworks, particularly in relation to the growing Muslim population in the West. Chapters also discuss gender in Islam, educational expectations and Islamic faith schools to comprehensively explore education in relation to Islamism. Situating Muslims within contemporary societies, this book extends debates regarding educational philosophy and leadership, endorsing diversity and plurality through an appreciation of difference. Education, Leadership and Islam will appeal to education researchers as well as social and political scientists attempting to understand Muslim educational issues in contemporary life, both in the east and in the west. This book offers critical insight into educational theory and practice, and as such will be key reading for policy makers and educational leaders.

ihya ulum al din english pdf: *The Misty Land of Ideas and The Light of Dialogue* Ali Paya, 2013-11-12 Comparative philosophy, like other types of philosophy, is a sort of dialogue among philosophers. But whereas dialogue among philosophers in the traditional branches of philosophy is usually in the form of duologue, in comparative philosophy three interlocutors are involved. Participants in a dialogue of the type which is common in comparative philosophy need not be contemporaneous. Nor do they need to speak the same language or belong to the same tradition. Of the three interlocutors in a dialogue of the type relevant to comparative philosophy, the one who plays the role of the go-between among the other two is the true practitioner of 'comparative philosophy' or, to coin a term, the true 'comparative philosopher', i.e, the one who is actually engaged in the process of comparing philosophies and reflecting upon the finesse of the art of comparison of views. The comparative philosopher is an interpreter, a commentator, a critic, a connoisseur of good philosophical arguments and interesting ideas, an educator, and a communicator. This last characteristic pertains to the role the comparative philosopher plays vis-à-vis contemporary and future audiences.

ihya ulum al din english pdf: *Wahhabism and the Rise of the New Salafists* Namira Nahouza, 2018-06-14 Wahhabism is often described as one of the most conservative branches of Islam and its fundamentalist approach seen as fuelling jihadist extremism. But what is the theological basis of Wahhabism? How do Wahhabi beliefs and doctrine differ from branches of Sunni Islam? While previous scholarship has examined Wahhabism as a political phenomenon, this book turns attention to the complex religious issues that are central to its understanding. Tracing its roots in the 18th century up until the present day, Namira Nahouza shows why the Wahhabi movement has opposed traditional Islamic scholarship on the interpretation of the Qur'an and hadith. Of key importance, Nahouza shows, are the differing beliefs about the oneness of God and God's names and attributes, issues on which both Wahhabi and other Salafi groups are united. Based on extensive research into classical and contemporary Arabic religious sources, Nahouza presents the contours of Sunni theological debate and reveals how the Wahhabi movement became the predecessor to the Salafism we see today. In highlighting the far-reaching consequences of these theological divisions - both for Muslim communities and the world at large - the book fills a significant gap in existing research and is essential reading for scholars researching Islamic Theology, Islamic History, Security Studies and Islamic Radicalism.
