pdf on domestic violence: Domestic Abuse and Child Contact Rosemary Hunter, Adrienne Barnett, Felicity Kaganas, Shazia Choudhry, 2020-12-18 This book presents papers from an International Symposium on Contact Disputes and Allegations of Domestic Violence: Identifying Best Practices, held in London in May 2017. The editors invited a group of international experts to explain the approaches taken in their jurisdictions to allegations of domestic violence in child contact cases, with a view to identifying international best practices in such cases. The book includes contributions from England and Wales, Scotland, Ireland, Canada, Sweden and Spain, as well as information presented at the symposium from New Zealand and Australia. The chapters include attention to particular issues such as specialist domestic violence courts, judicial training and hearing children's voices. Best practices in taking domestic violence seriously and providing adequate protection from further abuse for children and non-abusive parents were less in evidence. forward. The chapters in this book were originally published as a special issue of the Journal of Social Welfare and Family Law.

pdf on domestic violence: *The Social Dynamics of Family Violence* Angela Hattery, 2018-05-15
She died in September by the ugliest means, weighing an unthinkable 18 pounds, half what a 4-year-old ought to. She withered in poverty in a home in Brooklyn where the authorities said she had been drugged and often bound to a toddler bed by her mother, having realized a bare thimble's worth of living.... Marchella weighed 1 pound 4 ounces when she was born, prematurely, on April 3, 2006. A relative recalls thinking she was about the size of a one-liter Pepsi bottle. A twin sister, born

first, died. Her name was Miracle. —N. R. KLEINFELD AND MOSI SECRET, “A Bleak Life, Cut Short at 4, Harrowing from the Start,” New York Times, May 8, 2011 This chapter will set the stage for an in-depth, theoretically framed discussion of various types of family violence, including elder abuse, intimate partner violence, and child abuse. In addition to defining key terms, we will also discuss the concept of family violence itself, which is, perhaps surprisingly, contested; compare and contrast scholarly approaches to thinking about family violence; and offer a reconceptualized model for considering family violence. Objectives Provide the latest empirical data on a variety of types of family violence Define critical concepts and recognize key issues relevant to the study of family violence Identify and introduce the theoretical paradigms that have been employed to analyze and understand family violence: (1) the family violence approach, (2) the feminist approach, and (3) the race, class, and gender (RCG) approach Illuminate the ways in which social structures and institutions, such as the economy, cultural norms, religious ideologies, and the military shape violence in families Illuminate the ways in which social statuses—race, social class, gender, age, and sexuality—shape patterns of violence in families Provide an honest discussion of the issues that families living with violence face
