How is artistic expression prone to manipulation by the state and international humanitarian organizations? In the charged political terrain of post-genocide Rwanda, post-civil war Uganda, and recent violence in the Democratic Republic of Congo, Laura Edmondson explores performance through the lens of empire. Instead of celebrating theatre productions as expression of cultural agency and resilience, Edmondson traces their humanitarian imperatives to a place where global narratives of violence take precedence over local traditions and audiences. Working at the intersection of performance and trauma, Edmondson reveals how artists and cultural workers manipulate narratives in the shadow of empire and how empire, in turn, infiltrates creative capacities.

ruined pdf lynn nottage: Congo Thomas Turner, 2013-04-18 The Democratic Republic of Congo has become one of the world's bloodiest hot spots. 2003 saw the end of a five-year war in which millions lost their lives - one of the deadliest conflicts since World War II. Despite recent peace agreements and democratic elections, the country is still plagued by army and militia violence. Congo remains deeply troubled, since the deep-rooted causes of conflict have not been adequately addressed. The conflict in the DRC has divided opinion; some call it a civil war, or a war of aggression by the country's neighbours; others a continuation of Rwanda's Hutu-Tutsi conflict on

Congolose soil, and a war of partition and pillage. The prevalence of rape and sexual violence has led some analysts to mark it out as a hidden 'war against women'. Tom Turner's insightful book reveals how each of these descriptions accurately captures the separate elements of this complex and multidimensional political conflict. In exploring each of these contributory factors, he shows how current attempts to rebuild the shattered state and society of DRC are doomed to fail. So long as the full complexity of the Congo crisis is not taken into account and a clear consensus as to its precise dimensions reached, the future looks bleak. The DRC, he argues, will likely remain a global hot spot for some time to come.

The atrocities committed in this war and the accounts of its survivors were duly recorded by international organizations, but they run the risk of being consigned to dusty historical archives. Derived from public testimonies at a UN-backed war crimes tribunal in Freetown, this remarkable poetry collection aims to breathe new life into the records of Sierra Leone's civil war, delicately extracting heartbreaking human stories from the morass of legal jargon. By rendering selected trial transcripts in poetic form, Shanee Stepakoff finds a novel way to communicate not only the suffering of Sierra Leone's people, but also their courage, dignity, and resilience. Her use of innovative literary techniques helps to ensure that the voices of survivors are not forgotten, but rather heard across the world. This volume also includes an introduction that explores how the genre of "found poetry" can serve as a uniquely powerful means through which writers may bear witness to atrocity. This book's unforgettable excavation and shaping of survivor testimonies opens new possibilities for speaking about the unspeakable.

Chapters explore Vogel's plays in chronological order, consider her early influences and offer detailed accounts of her work in performance. Enriched by an interview with Lynn Nottage and essays from scholars Ana Fernández-Caparrós and Amy Muse, this is a vibrant exploration of Paula Vogel as a major American playwright. By the time Paula Vogel made her Broadway debut with her 2017 Rebecca Taichman collaboration *Indecent*, she was already an accomplished playwright, with a Pulitzer Prize for *How I Learned to Drive* (1998) and two Obie Awards. She had also enjoyed a brilliant career as a professor at Brown and Yale with students such as Sarah Ruhl, a MacArthur "Genius" Grant winner, Pulitzer Prize winners Nilo Cruz, Quiara Alegría Hudes, and the only woman to win two Pulitzers for Drama, Lynn Nottage. Vogel's theatre draws upon Russian Formalist Viktor Shklovsky and uses devices such as "defamiliarization" and "negative empathy" to challenge conventional definitions of protagonists and antagonists.

ruined pdf lynn nottage: *Theater of State* James Ball, 2019-11-15 In this innovative study of

performance in international relations, James R. Ball III asks why states and their representatives come to the United Nations to perform for a global audience and how those audiences may intervene in the spectacle of global politics. Theater of State looks at key spaces in which global politics play out: in debating forums of the UN, at the International Criminal Court in The Hague, and in peacekeeping operations in Africa and the Middle East, as well as in a variety of related media productions. Ball argues that culture and politics form a unified field organized by the theatricality of its actors and the engaged spectatorship of its audiences. He provides a theory of global political spectatorship: of how the world watches itself in institutions and beyond, and of what citizens and diplomats do by watching. This study of the lived experience of spectacular politics on the world stage draws on theories of theater, performance, and politics to offer new ways of approaching issues of war, cosmopolitanism, international justice, governance, and activism. Situated at the nexus of two disciplines, performance studies and political science, this volume encourages conversations between the two so that each might offer lessons to the other.

ruined pdf lynn nottage: *African Freedom* Phyllis Taoua, 2018-07-26 The push for independence in African nations was ultimately an incomplete process, with the people often left to wrestle with a partial, imperfect legacy. Rather than settle for liberation in name alone, the people engaged in an ongoing struggle for meaningful freedom. Phyllis Taoua shows how the idea of freedom in Africa today evolved from this complex history. With a pan-African, interdisciplinary approach, she synthesizes the most significant issues into a clear, compelling narrative. Tracing the evolution of a conversation about freedom since the 1960s, she defines three types and shows how they are interdependent. Taoua investigates their importance in key areas of narrative interest: the intimate self, gender identity, the nation, global capital, and the spiritual realm. Allowing us to hear the voices of African artists and activists, this compelling study makes sense of their struggle and the broad importance of the idea of freedom in contemporary African culture.

In one of the poorest cities in America, Reading, Pennsylvania, a group of down-and-out factory workers struggle to keep their present lives in balance, ignorant of the financial devastation looming in their near future. Lynn Nottage is the recipient of two Pulitzer Prize Awards for Drama for Sweat and Ruined. She is the first woman playwright to be honored twice.
