sol y viento beginning spanish pdf: **Storied Deserts** Celina Osuna, Aidan Tynan, 2024-06-28 Storied Deserts makes a crucial and critical intervention in the field of environmental humanities by showcasing an emerging body of research on desert places from around the world. Deserts, despite dominant stereotypes of wasteland and barrenness, are culturally and ecologically abundant places. This edited volume sets out to reimagine the world's desert places and the very concept of the desert itself, taking a boldly interdisciplinary and multicultural approach. Authors engage in literary ecocriticism and ecopoetics, film and visual studies, critical theory, personal and transdisciplinary reflection, creative practices, and historical scholarship. Through their diverse range of perspectives, contributors show how arid lands have been and can be understood as sites of narrative production, places where signs and imaginaries are born from the materialities of space and entanglement. In this way, this volume highlights how the storied matter of the Earth's deserts informs lived realities, environmental histories, cinematic and literary imaginaries, political conflicts, and even intellectual categories such as the human and the elemental. Ultimately, this book shows that reimagining desert places can help us to grapple with the epochal challenges of the Anthropocene. It is an important and engaging collection for scholars and students across disciplines that helps establish the value of desert humanities.

sol y viento beginning spanish pdf: *El malestar social en la transmodernidad* Mauricio Guzmán Bracho, 2023-01-04 Entre el fin del siglo XX y primeras décadas del XXI se dio una ola mundial de indignación que convocó a millones de personas en las plazas públicas de 90 países para gritar su inconformidad, fenómeno mundial que tuvo como sedimento un malestar social con facetas variadas en cada región y país, cuya complejidad y diversidad invitan a la búsqueda de elementos explicativos y comprensivos. Tal es reflexión teórica que aquí ofrece Mauricio Guzmán Bracho, quien propone reconceptualizar las nociones de malestar social y transmodernidad para explicar desde la teoría sociológica el fenómeno del malestar social en la transmodernidad, su contenido, su tipología y sus connotaciones. Si bien la inconformidad social y las expresiones de descontento se han explicado desde diversas miradas analíticas para entender las condiciones de la estructura social que lo explican, quiénes son los sujetos sociales y cuáles las acciones sociales que lo evidencian, así como las relaciones características entre la estructura social y el malestar social. Junto a la indagación teórica, el autor toma 15 casos de movimientos sociales entre 1980 y 2014 (desde Solidarnosc, hasta los ocurridos en Medio Oriente, Europa y América) para establecer las líneas de continuidad entre la estructura social transmoderna y el malestar social, con un enfoque comparativo de los impulsos históricos y rupturas epocales de la triada modernidad-posmodernidad-transmodernidad.
